FAKHAR STEM SPHERE

Pakistan Studies Question Bank

FULL SYLLABUS - SIMPLE ENGLISH

First Annual exam preparation | SSC-II Federal Board

Short headings. Clear sentences. Key exam facts.

SHORT ANSWERS	LONG ANSWERS	SOLVED MCQs
166 questions 5 points each	63 questions 5 headings each	137 questions Answers and easy reasons

What is easier in this edition?

Every short-answer point has a clear heading and one or two short sentences. Each long-answer heading has a short explanation with the important facts. All answers have been rewritten in simple English.

All earlier questions are retained. Four remaining Class 10 units are added, covering all 56 summative SLOs in your combined framework. Important exam words are explained simply.

How to learn

Read an answer once. Learn the five headings. Close the book and explain each heading in your own words. Then check the dates, names, and examples.

These answers support exam preparation. Marks depend on accuracy, relevance, and the actual marking scheme; headings alone are not enough.

Syllabus and answer method

Included chapters

Grade 9: Units 1-9, using summative SLOs only.
Grade 10, Section 1: Society and Culture; Recreation - Sports.
Grade 10, Section 2: Constitutional Development; Citizenship and Sustainable Society.
Grade 10, Section 3: Foreign Policy; Pakistan and International Organizations.

Excluded formative SLOs

Code	Do not prepare questions from this focus
PS-09-A1-08	Individual roles of leaders, women, and minorities in making Pakistan.
PS-09-B1-03	Geographical importance of individual major cities.
PS-09-B3-02	Interpretation of climatic-zone data.
PS-09-C2-01	Population trends, population pyramids, and demographic transition models.
PS-09-C4-02	Dry ports and their advantages.

Full-syllabus update

Grade 10 Domains E and F are now included. Only the five formative Grade 9 SLOs listed above remain excluded. Your new combined document labels all 26 Grade 10 SLOs as summative.

Scope reminders

Pre-1947 political history stays in Grade 9. Pakistan's later constitutions and civic topics are covered in the new Grade 10 units. Similar ideas may appear under different SLOs, with the question label showing the focus.

Write answers this way

5 marks: Write all five headings with their explanations.
10 marks: Write the five headings and both sentences under each. Include the dates, examples, benefits, problems, or solutions asked for.
Compare: Discuss both sides. **Evaluate:** Explain benefits and limits. **Why:** Give reasons.

This bank covers the main question patterns across 56 summative SLOs. It is not an official marking key or a guarantee of every possible exam question.

Grade 9 - Unit 1: Ideological Basis of Pakistan

NBF Grade 9, PDF pp. 5-20

SLO scope: PS-09-A1-01 to PS-09-A1-04

Short questions - 5 marks each

S001. Explain five reasons why an ideology is important for a nation.

PS-09-A1-01

1. **Common Aim:** An ideology gives a nation shared aims. It helps people work towards the same goals.
2. **Unity:** Shared beliefs bring people together despite differences in language and region.
3. **Identity:** An ideology helps people understand who they are and what they believe.
4. **Guidance:** It guides national decisions and helps people judge right and wrong actions.
5. **Motivation:** It encourages people to work hard and make sacrifices for their country.

S002. Explain the ideological basis of Pakistan in five points.

PS-09-A1-01

1. **Separate Homeland:** Muslims wanted a separate country to protect their religious and cultural identity.
2. **Islamic Values:** Islam teaches equality, justice, brotherhood, and respect for human beings.
3. **Religious Freedom:** Muslims wanted to practise Islam and live according to its teachings freely.
4. **Political Rights:** They wanted a proper share in government and protection of their collective interests.
5. **Better Life:** They wanted to reduce poverty and give people fair chances in education and employment.

S003. How did economic deprivation encourage the demand for Pakistan?

PS-09-A1-01

1. **Land Problems:** Many Muslim farmers had little or no land. Heavy rents made their lives difficult.
2. **Lack of Education:** Many Muslims lacked modern education, so they could not get well-paid jobs.
3. **Few Government Jobs:** Muslims had a small share in government jobs and important offices.
4. **Lack of Money:** Poor access to loans made it difficult to improve farms or start businesses.
5. **Demand for Pakistan:** These problems increased the demand for a homeland with fair opportunities and economic justice.

S004. Describe the social and political difficulties faced by Muslims under British rule.

PS-09-A1-01

1. **Loss of Power:** Muslims lost their earlier political power and influence under British rule.
2. **Educational Problems:** Many Muslims lacked modern education, which limited their chances of getting good jobs.
3. **Cultural Fears:** Disputes such as the Urdu-Hindi controversy made Muslims fear for their language and culture.
4. **Weak Representation:** Muslims had little influence over important decisions and demanded proper political representation.
5. **Communal Conflict:** Tensions and violence between communities increased the need for protection of Muslim rights.

S005. How did Islamic values support the demand for a separate homeland?

PS-09-A1-01

1. **Equality:** Islam teaches that race, caste, and wealth do not make one person better than another.
2. **Justice:** Muslims wanted fair treatment and an equal chance to improve their lives.
3. **Brotherhood:** A common faith united Muslims from different regions and language groups.
4. **Religious Freedom:** Muslims wanted a homeland where they could follow Islamic teachings freely.
5. **Self-Determination:** Muslims wanted the right to decide their own political future and protect their interests.

S006. Explain Pakistan's ideology with reference to Quaid-e-Azam's vision.

PS-09-A1-02

1. **Separate Nation:** Quaid-e-Azam regarded Muslims as a nation with their own religion, culture, and traditions.
2. **Democracy:** He wanted government through elected representatives who would answer to the people.
3. **Equal Rights:** He supported justice and equal treatment without discrimination based on caste or religion.
4. **Freedom of Worship:** His speech of 11 August 1947 supported freedom to practise one's religion.
5. **Unity and Progress:** He wanted a united Pakistan with a strong economy and a better life for its people.

S007. Explain five ideas of Allama Iqbal that influenced Pakistan's ideology.

PS-09-A1-02

1. **Islamic Identity:** Iqbal saw Islam as a source of Muslim identity and guidance.

2. **Khudi:** Khudi means developing self-respect, confidence, and a strong character through effort.
3. **Muslim Unity:** He asked Muslims to rise above regional and language differences and work together.
4. **Political Freedom:** He supported Muslims' right to protect their interests and decide their future.
5. **Social Justice:** He wanted fair distribution of wealth and a society guided by Islamic moral values.

S008. Define British colonialism and explain four of its effects on the subcontinent.

PS-09-A1-03

1. **Meaning:** British colonialism means British control over the subcontinent for its own interests. Direct Crown rule lasted from 1858 to 1947.
2. **Economic Effects:** Britain used local raw materials and markets mainly for its own benefit.
3. **New Administration:** British laws, courts, and government offices changed the way the country was run.
4. **Education:** English education created new jobs, but many people could not get this education.
5. **Freedom Movement:** Foreign control and unfair treatment encouraged people to demand independence.

S009. Explain five contributions of Sir Syed Ahmad Khan's reform movement.

PS-09-A1-04

1. **Modern Education:** Sir Syed encouraged Muslims to learn English and science along with their religious knowledge.
2. **Scientific Society:** He founded the Scientific Society in 1864 to spread useful scientific knowledge through translation.
3. **MAO College:** He established MAO College at Aligarh in 1877 to improve Muslim education.
4. **Social Reform:** His writings encouraged clear thinking, discussion, and changes needed for progress.
5. **Future Leadership:** His movement educated Muslims who later helped organize political movements and protect Muslim interests.

S010. How did the Aligarh Movement prepare Muslims for political advancement?

PS-09-A1-04

1. **Useful Skills:** Modern education helped Muslims qualify for professional work and government jobs.
2. **Self-Confidence:** Education helped Muslims regain confidence after the problems they faced following 1857.

3. **Political Awareness:** Publications and discussions helped Muslims understand their rights and common problems.
4. **Trained Leaders:** Aligarh brought students and teachers together and developed leadership and organizational skills.
5. **Pakistan Movement:** Educated Muslims later used these skills to support Muslim political demands and the struggle for Pakistan.

Long questions - 10 marks each

L001. Explain how Islamic values and Muslim deprivation together formed the ideological basis of Pakistan.

PS-09-A1-01

1. Muslim Identity

Muslims had their own religion, culture, and social traditions. They wanted a homeland where they could protect this identity and live according to the Quran and Sunnah.

2. Islamic Values

Islam teaches equality, justice, brotherhood, and respect for human beings. These values supported the demand for a society with fair treatment and opportunities for all.

3. Economic Problems

Many Muslims had little land, modern education, money, or access to good jobs. They wanted freedom to improve their economic condition and remove unfair treatment.

4. Political and Social Fears

Muslims feared that their rights and culture would not be safe under a permanent majority. Language disputes and weak representation increased the need for effective safeguards.

5. Demand for Pakistan

Islamic identity and practical problems strengthened each other. Muslims supported a separate homeland to protect their faith and rights and build a better future.

L002. Evaluate Pakistan's ideology in the light of Quaid-e-Azam's and Allama Iqbal's ideas.

PS-09-A1-02

1. Common Muslim Identity

Quaid-e-Azam and Iqbal both recognized the importance of Muslim religion and culture. They wanted political arrangements that protected Muslim interests and allowed Muslims to decide their future.

2. Iqbal's Ideas

Iqbal taught Khudi, Muslim unity, and spiritual growth. He encouraged Muslims to develop confidence, work hard, and improve both themselves and their community.

3. Quaid-e-Azam's Leadership

Quaid-e-Azam turned Muslim demands into an organized political struggle. He supported Muslim nationhood, elected government, and united effort to achieve Pakistan.

4. Justice and Freedom

Both leaders connected national progress with fairness and human dignity. Quaid-e-Azam's speech of 11 August 1947 supported freedom of worship and equal treatment of citizens.

5. Practical Progress

Their ideas call for education, economic improvement, and responsible leadership. Pakistan should protect its identity while improving the lives of all its people.

L003. Assess Sir Syed Ahmad Khan's role as a reformer and the Aligarh Movement's contribution to Muslim advancement.

PS-09-A1-04

1. Need for Reform

After 1857, many Muslims faced political decline and poor access to modern education. Sir Syed believed that knowledge and confidence were necessary to improve their position.

2. Modern Learning

He encouraged Muslims to learn science and English along with their religious knowledge. His Scientific Society, founded in 1864, spread useful knowledge through translation and discussion.

3. MAO College

Sir Syed established MAO College at Aligarh in 1877. It trained students for modern jobs and helped them develop confidence and leadership skills.

4. Social Reform

His writings encouraged clear thinking, education, and useful changes in society. He tried to remove attitudes that kept Muslims away from new opportunities.

5. Political Importance

Aligarh produced educated Muslims who later helped organize political movements. Sir Syed died before the Muslim League was founded, but his movement prepared the ground for later Muslim progress.

Grade 9 - Unit 2: Establishment of Pakistan

NBF Grade 9, PDF pp. 21-41

SLO scope: PS-09-A1-05 to PS-09-A1-07; individual leaders under A1-08 excluded

Short questions - 5 marks each

S011. Explain the significance of the Simla Deputation of 1906.

PS-09-A1-05

1. **Meeting:** Aga Khan led a Muslim delegation to meet Lord Minto at Simla on 1 October 1906.
2. **Separate Electorates:** The delegation asked that Muslims should elect their own representatives.
3. **Fair Representation:** It asked for Muslim representation based on their importance as well as their population.
4. **Government Jobs:** It demanded a fair share for Muslims in government service and public institutions.
5. **Political Importance:** It showed the strength of united action and encouraged Muslims to form a political organization.

S012. Why was the All-India Muslim League established in 1906?

PS-09-A1-05

1. **Protect Rights:** Muslims needed an organization to defend their political rights and interests.
2. **Common Platform:** They wanted one body to present their demands to the British government.
3. **Protect Culture:** They feared that their religion, language, and culture might not receive enough protection.
4. **Concerns about Congress:** Many Muslims felt that Congress did not properly represent their interests.
5. **United Action:** The League was founded at Dhaka on 30 December 1906 to organize Muslim political activity.

S013. Explain the importance of separate electorates for Muslims.

PS-09-A1-05

1. **Own Representatives:** Separate electorates allowed Muslim voters to elect Muslim representatives.
2. **Minority Protection:** Muslim seats would not depend entirely on votes from the larger Hindu community.
3. **Raise Problems:** Muslim representatives could discuss their community's educational, economic, and cultural problems.

4. **Political Confidence:** Muslims gained confidence that their interests would have a voice in government.
5. **Official Recognition:** The reforms of 1909 accepted separate Muslim electorates and increased Muslim political participation.

S014. Describe five important features or results of the Lucknow Pact of 1916.

PS-09-A1-05

1. **Joint Agreement:** Congress and the Muslim League agreed on political reforms at Lucknow in 1916.
2. **Separate Electorates:** Congress accepted separate electorates for Muslims.
3. **Central Seats:** Muslims were to receive one-third of the seats in the central legislature.
4. **Community Protection:** Safeguards were proposed against laws strongly opposed by a community's representatives.
5. **Hindu-Muslim Cooperation:** The pact showed that both parties could work together to demand greater Indian participation in government.

S015. Explain the aims and importance of the Khilafat Movement.

PS-09-A1-05 / PS-09-A1-06

1. **Main Aim:** The movement aimed to protect the Ottoman Caliphate after the First World War.
2. **Religious Concern:** Indian Muslims wished to protect the Caliph's position and important Muslim holy places.
3. **Public Participation:** Meetings, donations, and campaigns brought many ordinary Muslims into politics.
4. **Joint Action:** Muslim leaders and Congress supporters worked together for a time.
5. **Political Training:** The movement taught Muslims how to organize and protest, although it failed to save the Caliphate.

S016. Why did the Khilafat Movement decline?

PS-09-A1-06

1. **British Action:** Arrests and restrictions weakened the movement and its leaders.
2. **Financial Hardship:** Boycotts and other activities caused losses that many supporters could not bear for long.
3. **Hijrat Failure:** Many Muslims who migrated towards Afghanistan faced hardship and had to return.
4. **End of Joint Campaign:** Gandhi stopped the Non-Cooperation Movement in 1922, weakening joint political action.
5. **End of Caliphate:** Turkey abolished the Caliphate in 1924, ending the institution the movement wanted to protect.

S017. Why did Muslims reject the Nehru Report of 1928?

PS-09-A1-06

1. **Joint Electorates:** Many Muslim leaders opposed replacing separate electorates with joint electorates.
2. **Too Few Central Seats:** They considered the proposed Muslim share at the centre insufficient.
3. **Strong Centre:** They feared that a powerful central government would weaken Muslim-majority provinces.
4. **Weak Safeguards:** They felt that Muslim religious, cultural, and political rights were not properly protected.
5. **Muslim Response:** These objections led Jinnah to present the Fourteen Points as a clear statement of Muslim demands.

S018. Explain any five main demands of Quaid-e-Azam's Fourteen Points.

PS-09-A1-06

1. **Federal System:** The country should have a federal system, with remaining powers given to the provinces.
2. **Provincial Autonomy:** Provinces should have real power to manage their own affairs.
3. **One-Third Seats:** Muslims should receive at least one-third of the seats in the central legislature.
4. **Separate Electorates:** Separate electorates should continue unless a community freely accepted joint electorates.
5. **Cultural Rights:** Muslim religion, language, education, culture, and religious institutions should be protected.

S019. What was the significance of the Allahabad Address of 1930?

PS-09-A1-06

1. **Clear Vision:** Iqbal presented an important plan for protecting Muslim political interests in his 1930 address.
2. **Muslim Areas:** He discussed bringing Punjab, NWFP, Sindh, and Balochistan together in a Muslim political unit.
3. **Protect Identity:** The plan aimed to protect Muslim religious and cultural life.
4. **Future Direction:** It gave Muslims a clearer idea of their political future and territorial demands.
5. **Historical Importance:** The address became an important step towards the later demand for Pakistan.

S020. Explain the purpose and outcome of the Round Table Conferences.

PS-09-A1-06

1. **Purpose:** Britain held the conferences in London to discuss India's future government.

2. **Participants:** Leaders from different communities, political groups, and princely states attended.
3. **Main Issues:** They discussed federation, provincial government, and protection of minority rights.
4. **Disagreement:** The groups could not agree on several important questions, especially representation.
5. **Result:** The talks influenced later proposals but failed to provide a settlement acceptable to all sides.

S021. Why was the Day of Deliverance observed on 22 December 1939?

PS-09-A1-06

1. **Congress Rule:** Congress formed ministries in several provinces after the elections of 1937.
2. **Muslim Complaints:** Muslim leaders criticized policies they believed harmed Muslim religion, education, and culture.
3. **Resignations:** Congress ministries resigned in 1939 over disagreements about India's role in the Second World War.
4. **Jinnah's Appeal:** Jinnah asked Muslims to observe the Day of Deliverance peacefully on 22 December 1939.
5. **Political Effect:** The day showed Muslim dissatisfaction and increased the demand for stronger protection of their rights.

S022. State five important aspects of the Lahore Resolution of 1940.

PS-09-A1-07

1. **Place and Date:** The resolution was presented at the Muslim League session in Lahore on 23 March 1940.
2. **Presenter:** A. K. Fazlul Huq presented the resolution.
3. **Muslim-Majority Areas:** It called for grouping Muslim-majority areas in the north-western and eastern parts of India.
4. **Autonomy and Rights:** It called for autonomous and sovereign units and proper safeguards for minorities.
5. **Importance:** It gave the movement a clear territorial goal that developed into the demand for Pakistan.

S023. Why did the Cripps Mission of 1942 fail?

PS-09-A1-07

1. **Delayed Freedom:** The proposals mainly promised changes after the war, rather than immediate independence.
2. **British Control:** Britain would keep major wartime powers, which disappointed those seeking immediate authority.

3. **Congress Rejection:** Congress did not accept the proposals as a satisfactory transfer of power.
4. **League Rejection:** The Muslim League felt that the demand for Pakistan was not clearly accepted.
5. **No Common Agreement:** Different aims of the main parties prevented a successful settlement.

S024. Why did the Gandhi-Jinnah Talks of 1944 fail?

PS-09-A1-07

1. **Separate Nation:** Jinnah regarded Muslims as a separate nation, but Gandhi did not accept this view in the same way.
2. **Timing:** They disagreed about whether partition should be settled before or after independence.
3. **Territory:** They could not agree on the areas and method for creating a separate state.
4. **Gandhi's Position:** Gandhi attended in his personal capacity, so his ability to make a final party agreement was limited.
5. **Failure:** Without agreement on the basic demand for Pakistan, the talks ended without a settlement.

S025. Explain the importance of the elections of 1945-46 for the Pakistan Movement.

PS-09-A1-07

1. **Pakistan as the Goal:** The Muslim League made the demand for Pakistan the main issue of its campaign.
2. **Central Success:** The League won all 30 Muslim seats in the central legislature.
3. **Provincial Support:** It also won strong support in Muslim seats in the provincial elections.
4. **Representative Claim:** The results strengthened its claim to represent Indian Muslims.
5. **Stronger Negotiations:** Britain and Congress now had to give greater importance to the League and its demand for Pakistan.

S026. State five main features of the Cabinet Mission Plan of 1946.

PS-09-A1-07

1. **Indian Union:** The plan proposed a union of British Indian provinces and princely states.
2. **Limited Centre:** The centre would deal with defence, foreign affairs, communications, and money needed for these duties.
3. **Three Groups:** Provinces would form three groups, including Muslim-majority groups in the north-west and east.
4. **Provincial Powers:** Provinces would keep many powers over matters outside the centre's limited duties.
5. **Temporary Government:** The plan proposed an interim government and constitution-making, but disagreements prevented a lasting agreement.

S027. Explain five provisions or consequences of the 3 June Plan of 1947.

PS-09-A1-07

1. **Partition:** The plan provided a way to divide British India and transfer power.
2. **Punjab and Bengal:** Their legislatures were given procedures to decide the partition of these provinces.
3. **Referendums:** People in NWFP and Sylhet were to vote on their future.
4. **Other Decisions:** Sindh and the relevant bodies in British Balochistan were to decide their future.
5. **Independence:** Acceptance of the plan led to the arrangements creating Pakistan and India in August 1947.

S028. Why was the Simon Commission opposed in India?

PS-09-A1-06

1. **Appointment:** Britain appointed the Simon Commission in 1927 to review earlier reforms.
2. **No Indian Member:** Every member was British; no Indian was included.
3. **Lack of Representation:** Indians objected to decisions about their future being made without their proper participation.
4. **Public Protest:** People held demonstrations and raised the slogan Simon Go Back.
5. **Political Effect:** The dispute encouraged Indian leaders to prepare their own proposals for future government.

S029. Explain five important aspects of the Communal Award of 1932.

PS-09-A1-06

1. **Announcement:** British Prime Minister Ramsay MacDonald announced the Communal Award in 1932.
2. **Community Seats:** It provided separate electoral arrangements for several communities.
3. **Reserved Representation:** Different groups were given seats in legislative bodies.
4. **Muslim Concerns:** Muslim leaders remained unhappy about representation in Punjab and Bengal.
5. **Importance:** The award showed how difficult it was to find an agreement accepted by all major communities.

S030. Explain five historical features of the Government of India Act 1935.

PS-09-A1-06

1. **Federation:** The Act proposed a federation of British Indian provinces and princely states.
2. **Provincial Autonomy:** Provinces gained more powers, but governors still kept important special powers.
3. **Division of Powers:** Subjects were divided into federal, provincial, and concurrent lists.
4. **Federal Court:** The Act provided a Federal Court to deal with certain constitutional disputes.

5. **Historical Result:** Its provincial part led to the 1937 elections, but the proposed all-India federation did not begin.

S031. Why did the Simla Conference of 1945 fail?

PS-09-A1-07

1. **Purpose:** Lord Wavell called the conference to discuss a new Executive Council.
2. **League's Demand:** Jinnah wanted the Muslim League to nominate the Muslim members.
3. **Congress Objection:** Congress rejected the idea that only the League could represent Muslims.
4. **Other Claims:** Other groups also demanded places among the Muslim representatives.
5. **Deadlock:** The parties could not agree on nominations, so the conference failed.

S032. Explain five important aspects of the Indian Independence Act 1947 as a historical event.

PS-09-A1-07

1. **British Law:** The British Parliament passed the Act to provide the legal basis for independence.
2. **Two Dominions:** It provided for the creation of India and Pakistan in August 1947.
3. **End of British Control:** British rule over the government of British India came to an end.
4. **Law-Making Powers:** Each dominion gained authority to make its own laws.
5. **New Responsibilities:** The new countries had to divide assets, offices, and services and build their own administrations.

S033. What political lessons did Muslims draw from developments between 1906 and 1947?

PS-09-A1-05 / PS-09-A1-06 / PS-09-A1-07

1. **Organization:** The Muslim League showed that united political action could protect common interests.
2. **Rights and Safeguards:** Muslims learned that promises alone were not enough; rights needed effective protection.
3. **Political Agreements:** Agreements showed that cooperation was possible, but deep differences could still cause failure.
4. **Public Support:** The elections of 1945-46 gave the League strong proof of Muslim support.
5. **Clear Goal:** The Lahore Resolution helped unite Muslims around the goal of Pakistan.

Long questions - 10 marks each

L004. Analyze the major political developments from the Simla Deputation to the Lucknow Pact.

PS-09-A1-05

1. Simla Deputation

Aga Khan led Muslim representatives to meet Lord Minto on 1 October 1906. They asked for separate electorates and fair representation so Muslim interests would have a clear political voice.

2. Muslim League

The All-India Muslim League was founded at Dhaka on 30 December 1906. It gave Muslims a common platform to protect their rights and present demands to the government.

3. Reforms of 1909

The Morley-Minto Reforms accepted separate Muslim electorates. This gave Muslims a recognized way to elect their own representatives, although full self-government was not granted.

4. Growing Concerns

The reversal of Bengal's partition in 1911 disappointed many Muslims. Such events increased their belief that a strong political organization and clear safeguards were necessary.

5. Lucknow Pact

Congress and the Muslim League agreed on reform proposals in 1916. Congress accepted separate electorates and one-third Muslim representation at the centre, showing temporary Hindu-Muslim cooperation.

L005. Discuss the Khilafat Movement: aims, activities, causes of decline, and political importance.

PS-09-A1-05 / PS-09-A1-06

1. Aims

The Khilafat Movement began after the First World War to protect the Ottoman Caliphate. Indian Muslims were concerned about the Caliph's position and important Muslim holy places.

2. Public Activities

Leaders such as the Ali brothers organized meetings, donations, and campaigns. Large numbers of Muslims gained experience in political action and learned to work together.

3. Cooperation and Hardship

The movement worked alongside Gandhi's Non-Cooperation campaign for a time. Boycotts and the Hijrat to Afghanistan caused financial losses and great hardship for many supporters.

4. Causes of Failure

British arrests weakened the movement, and Gandhi stopped Non-Cooperation in 1922. Turkey then abolished the Caliphate in 1924, ending the institution the movement wanted to save.

5. Political Importance

The movement failed in its main aim but increased Muslim political awareness. It taught lessons about organization, sacrifice, political alliances, and the need for lasting protection of Muslim interests.

L006. Explain how political developments between 1927 and 1930 strengthened Muslim demands for safeguards.

PS-09-A1-06

1. Simon Commission

Britain appointed an all-British commission in 1927 with no Indian member. Many Indians opposed this and demanded a proper role in deciding their own political future.

2. Nehru Report

The report of 1928 did not satisfy many Muslim leaders. They objected to proposals about joint electorates, central representation, and the powers of provinces.

3. Fourteen Points

Jinnah presented the Fourteen Points in 1929 after attempts at agreement failed. These points gave Muslims a clear set of demands for future negotiations.

4. Muslim Safeguards

The demands included provincial autonomy, separate electorates, and at least one-third Muslim seats at the centre. They also called for protection of Muslim religion, language, education, and culture.

5. Allahabad Address

Iqbal's address of 1930 discussed a Muslim political unit in the north-west. Together, these developments showed growing Muslim concern for effective protection and greater control over their future.

L007. Why did the experience of Congress ministries strengthen Muslim political separatism between 1937 and 1939?

PS-09-A1-06

1. Congress Ministries

Congress formed ministries in several provinces after the 1937 elections. The Muslim League's weak results encouraged it to improve its organization and contact with Muslim voters.

2. Fear of Majority Rule

Muslim leaders feared that a strong majority party could ignore their interests. They wanted safeguards that worked in daily government, not only promises written on paper.

3. Cultural Complaints

League leaders criticized songs, symbols, and educational policies they saw as favouring majority culture. These complaints increased fears about Muslim religion, language, and community life.

4. Day of Deliverance

Congress ministries resigned in 1939 over disagreements about the war. Jinnah called for the peaceful Day of Deliverance on 22 December 1939 to express Muslim relief and dissatisfaction.

5. Political Effect

These experiences increased support for the Muslim League and reduced trust in majority rule. They helped prepare the way for wider support for the Lahore Resolution in 1940.

L008. Trace the progress of the Pakistan Movement from the Lahore Resolution to the elections of 1945-46.

PS-09-A1-07

1. Lahore Resolution

The resolution presented on 23 March 1940 called for a new arrangement for Muslim-majority areas. It gave the League a clearer territorial goal and helped unite its political work.

2. Cripps Mission

In 1942, Britain proposed changes to take place after the war. The proposals failed because Congress and the League did not accept them as a satisfactory settlement.

3. Gandhi-Jinnah Talks

The talks of 1944 discussed the demand for Pakistan directly. They failed because Gandhi and Jinnah differed over Muslim nationhood, territory, and the timing of partition.

4. Simla Conference

The conference of 1945 failed mainly over the nomination of Muslim members. The League insisted that its claim to represent Muslims must be recognized.

5. Elections of 1945-46

The League campaigned for Pakistan and won all 30 Muslim central seats and strong provincial support. These results greatly strengthened its position in later negotiations.

L009. Explain the final stages leading to the establishment of Pakistan during 1946-47.

PS-09-A1-07

1. Cabinet Mission

In 1946, the mission proposed a union with limited central powers and three provincial groups. It tried to keep India together while giving provinces and groups considerable authority.

2. Political Deadlock

Congress and the League disagreed over grouping and the future distribution of powers. The interim government did not remove these differences, and communal tensions increased.

3. Mountbatten's Talks

Mountbatten became Viceroy in 1947 and met the main political leaders. When earlier attempts at agreement failed, partition became the accepted way to transfer power.

4. 3 June Plan

The plan gave procedures for deciding the future of provinces and areas such as NWFP and Sylhet. It included arrangements for the partition of Punjab and Bengal.

5. Independence

The Indian Independence Act provided the legal basis for two dominions. Pakistan emerged in August 1947, but the new country also faced migration, violence, and urgent administrative problems.

Grade 9 - Unit 3: Land of Pakistan

NBF Grade 9, PDF pp. 42-50; major-city section excluded

SLO scope: PS-09-B1-01 and PS-09-B1-02

Short questions - 5 marks each

S034. Describe Pakistan's geographical location in five points.

PS-09-B1-01

1. **Region:** Pakistan is in South Asia, north of the Equator and east of the prime meridian.
2. **Coordinates:** The textbook gives its position as about 24-37 degrees north and 61-77 degrees east.
3. **East:** India lies to the east of Pakistan.
4. **Land Neighbours:** China is to the north-east, Afghanistan to the west and north-west, and Iran to the south-west.
5. **South:** The Arabian Sea lies along Pakistan's southern coast.

S035. Explain five economic advantages of Pakistan's location.

PS-09-B1-02

1. **Sea Trade:** The Arabian Sea connects Pakistan with important sea routes and world markets.
2. **Transit Trade:** Pakistan can provide routes from landlocked countries to seaports.
3. **Link with China:** Northern roads connect Pakistan with China and can increase trade.
4. **Energy Supplies:** Pakistan is close to the Middle East, an important source of oil and gas.
5. **Coastal Jobs:** Ports, fishing, shipping, and tourism provide jobs and business opportunities.

S036. Explain the importance of the Arabian Sea for Pakistan.

PS-09-B1-02

1. **Imports and Exports:** The Arabian Sea provides routes for buying and selling goods with other countries.
2. **Seaports:** Karachi, Port Qasim, and Gwadar connect Pakistan with international shipping.
3. **Fishing:** The sea provides fish, food, jobs, and products for export.
4. **Regional Links:** Sea routes connect Pakistan with the Middle East, East Africa, and other regions.
5. **Related Businesses:** Cargo handling, boat building, shipping, and tourism help coastal families earn money.

S037. How can Pakistan's location benefit landlocked neighbouring regions?

PS-09-B1-02

1. **Landlocked Countries:** These countries have no direct access to the sea.

2. **Access to Ports:** Routes through Pakistan can connect Afghanistan and Central Asian countries with the Arabian Sea.
3. **Transport Links:** Good roads, railways, and border services help carry goods to ports.
4. **Benefits for Pakistan:** Transit trade creates jobs in transport, storage, and other services.
5. **Conditions for Success:** Safe routes, fair costs, and reliable transport are needed to make this trade useful.

Long questions - 10 marks each

L010. Explain Pakistan's location and assess its geographical and economic importance.

PS-09-B1-01 / PS-09-B1-02

1. Location

Pakistan lies in South Asia, about 24-37 degrees north and 61-77 degrees east in the textbook. India is east, China north-east, Afghanistan west and north-west, and Iran south-west.

2. Sea Access

The Arabian Sea lies to the south and connects Pakistan with the Indian Ocean. Ports allow heavy goods, fuel, and machinery to move between Pakistan and world markets.

3. Transit Routes

Pakistan can provide landlocked Afghanistan and Central Asian markets with access to seaports. Transport, storage, and related businesses can earn income from this trade.

4. China and Middle East

Northern routes link Pakistan with China, while sea routes connect it with the Middle East. These links create opportunities for trade, investment, and energy supplies.

5. Coastal Benefits and Needs

Fishing, ports, shipping, and tourism provide jobs along the coast. Good roads, safe travel, skilled workers, and protection of coastal resources are needed to gain lasting benefits.

Grade 9 - Unit 4: Natural Topography and Vegetation

NBF Grade 9, PDF pp. 52-70

SLO scope: PS-09-B2-01 to PS-09-B2-04

Short questions - 5 marks each

S038. Identify five major physical regions of Pakistan and state one feature of each.

PS-09-B2-01 / PS-09-B2-02

1. **Northern Mountains:** The Himalaya, Karakoram, and Hindu Kush have high peaks, glaciers, and deep valleys.
2. **Western Mountains:** The Sulaiman and Kirthar ranges have rough land and limited farming.
3. **Balochistan Plateau:** This dry south-western upland has valleys, basins, and minerals.
4. **Potwar and Salt Range:** These northern Punjab uplands have uneven land, rainfed farming, and mineral deposits.
5. **Indus Plain:** This broad, flat region has fertile river soils and supports farming and large settlements.

S039. Explain the importance of the northern mountains for Pakistan.

PS-09-B2-01 / PS-09-B2-04

1. **Water:** Mountain snow and glaciers supply water to rivers for farming and daily use.
2. **Electricity:** Fast rivers and steep slopes provide sites for producing hydroelectricity.
3. **Tourism:** Mountains attract visitors and create jobs in hotels, guiding, and transport.
4. **Forests and Wildlife:** Mountain habitats support useful plants and rare animals that need protection.
5. **Local Income:** People earn money from orchards, livestock, forest products, and handicrafts.

S040. Compare life in mountainous areas with life in the Indus Plain.

PS-09-B2-03

1. **Land:** Mountain slopes allow small fields and terraces; flat plains allow larger farms.
2. **Climate:** Mountains are generally cooler, while the plains have hotter summers.
3. **Farming:** Mountain people often keep animals and grow fruit; plains support large areas of irrigated crops.
4. **Transport:** Mountain roads are expensive and may close in winter; plains allow wider road and rail networks.
5. **Settlements:** Mountain people mainly live in suitable valleys; fertile plains support larger and more crowded settlements.

S041. Describe five characteristics of the Balochistan Plateau.

PS-09-B2-02 / PS-09-B2-03

1. **Location:** The Balochistan Plateau lies in south-western Pakistan and has mountains, valleys, and basins.
2. **Dry Weather:** Low and irregular rain limits farming and plant growth.
3. **Water Sources:** Wells, springs, and karez systems provide water where available.
4. **Main Work:** People work in livestock farming, fruit growing, mining, and trade.
5. **Main Problems:** Water shortage, rough land, and scattered settlements make roads and public services costly.

S042. Explain the economic importance of the Indus Plain.

PS-09-B2-02 / PS-09-B2-04

1. **Fertile Soil:** Rivers deposit rich soil that helps many crops grow.
2. **Irrigation:** Canals and wells supply water where rain is not enough.
3. **Labour and Markets:** Large settlements provide workers and buyers for farm and industrial goods.
4. **Easy Transport:** Flat land makes road and railway construction easier and cheaper.
5. **Industries:** Cotton, wheat, rice, and sugarcane supply textile mills and food-processing industries.

S043. Explain how vegetation differs across Pakistan's landforms.

PS-09-B2-03

1. **Mountain Forests:** Cool, wet slopes support coniferous trees and other forest plants.
2. **High Mountain Grass:** Above the tree line, short grasses and small shrubs grow in the warmer season.
3. **Dry Uplands:** Low rainfall supports scattered shrubs, grasses, and drought-resistant trees.
4. **Indus Plain:** Plants grow near rivers and on land with enough water; people also plant trees around farms.
5. **Coastal Plants:** Mangroves grow in suitable salty, tidal areas, especially around the Indus Delta.

S044. How do landforms affect transport and economic activity in Pakistan?

PS-09-B2-03 / PS-09-B2-04

1. **High Costs:** Mountain roads need bridges, tunnels, and strong slopes, so they cost more to build.
2. **Limited Routes:** Passes and valleys guide travel, while some remote places remain hard to reach.
3. **Different Farming:** Flat land suits large crop farms; uplands often suit orchards, terraces, and grazing.
4. **Natural Hazards:** Snow and landslides can block mountain roads and stop business.

5. **New Opportunities:** Mountains and plateaus also provide minerals, river power, tourism, and local products.

S045. Suggest five ways to use Pakistan's topography for sustainable development.

PS-09-B2-04

1. **Safe Tourism:** Build tourist facilities carefully and control rubbish to protect mountain and coastal areas.
2. **Careful Hydropower:** Choose suitable dam sites and protect people and water users downstream.
3. **Protect Soil:** Plant trees, use terraces, and control grazing to reduce soil erosion.
4. **Local Businesses:** Support fruit growing, crafts, and carefully managed mining suited to each area.
5. **Strong Roads:** Build roads with good drainage and slope protection so they remain safe and useful.

S046. Describe five features or economic uses of the Potwar Plateau and Salt Range.

PS-09-B2-02 / PS-09-B2-03

1. **Location:** Potwar and the Salt Range are in northern Punjab.
2. **Uneven Land:** Their hills and valleys differ from the broad, flat Indus Plain.
3. **Rainfed Farming:** Many farms depend on rainfall, so this is an important barani area.
4. **Minerals:** The Salt Range is well known for rock salt and other minerals.
5. **Land Protection:** Saving rainwater and controlling soil erosion help protect farming and local income.

S047. Explain five characteristics of Pakistan's desert regions.

PS-09-B2-02 / PS-09-B2-03

1. **Examples:** Important deserts include Thar, Cholistan, Thal, and Kharan.
2. **Little Water:** Rain is low or irregular, and much water is lost through evaporation.
3. **Plants:** Drought-resistant grasses and shrubs are more common than thick forests.
4. **Livelihoods:** People keep livestock, make crafts, and farm where water is available.
5. **Development:** Safe water, controlled grazing, and suitable crops can improve life without damaging scarce resources.

Long questions - 10 marks each

L011. Describe Pakistan's major landforms and explain their economic importance.

PS-09-B2-01 / PS-09-B2-02 / PS-09-B2-04

1. Northern Mountains

The Himalaya, Karakoram, and Hindu Kush have high peaks, glaciers, and valleys. They provide river water, hydropower sites, and tourism, but steep land and cold weather make travel and farming difficult.

2. Western Mountains

The Sulaiman and Kirthar ranges have rough land and limited water. People use suitable areas for grazing, farming, and mining, while passes provide important routes.

3. Balochistan Plateau

This south-western upland has dry valleys and basins. Livestock, fruit, and minerals provide income, but water shortage and costly transport limit development.

4. Potwar and Salt Range

These uneven northern Punjab uplands support rainfed farming and mineral-based work. Saving water and controlling soil erosion are important for their future.

5. Plains, Deserts, and Coast

The Indus Plain supports irrigated farming, industry, and transport. Deserts need careful water use, while the coast provides fishing and port activity that must be managed without damaging natural resources.

L012. Compare the environment and lifestyles of mountain, plain, and dry-plateau regions.

PS-09-B2-03

1. Land and Settlements

Mountain people mainly live in suitable valleys, while plains allow larger settlements. Dry plateaus have scattered communities, often near water sources and useful routes.

2. Climate and Plants

Mountains are usually cooler, with plants changing according to height and rainfall. Plains are hotter and support crops where watered; dry plateaus mainly have scattered grasses and shrubs.

3. Farming and Water

Mountains support terraces, orchards, and livestock, while the plains grow large areas of irrigated crops. Plateau farming depends more on wells, springs, karez, and careful water use.

4. Transport and Work

Roads and railways are easier to build on plains, helping markets and factories grow. Mountain and plateau people may depend more on tourism, mining, crafts, livestock, and local trade.

5. Seasonal Changes

Some highland herders move animals to lower land in winter and higher pastures in summer. In every region, farming and development should suit local land, water, and weather.

L013. Assess the potential and limits of Pakistan's topography for future development.

PS-09-B2-04

1. Water and Electricity

Mountain rivers can provide water storage and hydropower. Projects must also protect downstream users, natural habitats, and people whose homes may be affected.

2. Farming and Livestock

Fertile plains suit major crops, while uplands support fruit, terraces, and grazing. Farming must match local soil and water to avoid erosion and damage from overgrazing.

3. Tourism

Mountains, deserts, wildlife, and coastal scenery can attract visitors. Guides, hotels, and craftspeople benefit when tourism creates local jobs and keeps the environment clean.

4. Minerals and Roads

Mountains and plateaus have useful minerals, and passes connect regions. Rough land makes roads and mining expensive, so safe construction, investment, and skilled workers are necessary.

5. Balanced Development

Landforms offer both opportunities and problems, such as water shortage and landslides. Careful planning, local participation, and protection of resources allow people to earn today without harming future livelihoods.

Grade 9 - Unit 5: Climate and Environmental Hazards

NBF Grade 9, PDF pp. 71-92; climate-data interpretation excluded

SLO scope: PS-09-B3-01, PS-09-B3-03 and PS-09-B3-04

Short questions - 5 marks each

S048. Describe the main climatic zones of Pakistan.

PS-09-B3-01 / PS-09-B3-03

1. **Highland Climate:** Mountains have cold winters, cooler summers, and snow at higher places.
2. **Lowland Climate:** The Indus Plain has hot summers and cooler winters; rainfall varies from place to place.
3. **Arid Climate:** Deserts and dry parts of Balochistan receive little rain and face water shortage.
4. **Coastal Climate:** The sea reduces temperature extremes and makes the air more humid.
5. **Local Differences:** Height, mountains, and distance from moist winds create wetter areas and dry rain shadows.

S049. Explain five factors that cause temperature differences within Pakistan.

PS-09-B3-01 / PS-09-B3-03

1. **Latitude:** Southern areas generally receive more heat from the sun than northern areas.
2. **Altitude:** Higher places are usually cooler than places near sea level.
3. **Distance from Sea:** Coastal areas have smaller temperature changes, while inland areas have greater extremes.
4. **Clouds:** Clouds change how much sunlight reaches the ground and how quickly heat escapes at night.
5. **Season:** Changes in sunlight, winds, and rainfall cause temperatures to change through the year.

S050. Explain how summer monsoon rainfall develops and affects Pakistan.

PS-09-B3-01 / PS-09-B3-04

1. **Hot Land:** Land heats quickly in summer and develops relatively low air pressure.
2. **Moist Winds:** Winds bring moisture towards the subcontinent from the Arabian Sea and Bay of Bengal.
3. **Cloud Formation:** Moist air rises, cools, and forms clouds that produce rain.
4. **Water Benefits:** Monsoon rain helps crops and fills rivers, reservoirs, and groundwater stores.
5. **Heavy Rain:** Too much rain can cause floods, soil erosion, landslides, and road damage.

S051. Why are western depressions important for Pakistan?

PS-09-B3-01 / PS-09-B3-04

1. **Origin:** Western depressions are weather systems that move east from the Mediterranean region.
2. **Season:** They are especially important during the cooler months.
3. **Winter Rain:** They bring rain to parts of northern and western Pakistan and the plains.
4. **Mountain Snow:** Snow stored in the mountains later melts and adds water to rivers.
5. **Benefits and Risks:** Winter rain helps Rabi crops, but heavy rain or snow may damage crops and block roads.

S052. Distinguish between convectional rainfall and relief rainfall in five points.

PS-09-B3-01

1. **Main Cause:** Surface heating causes convectional rain; mountains forcing air upwards cause relief rain.
2. **Upward Movement:** Warm air rises in convection; moist winds rise along a mountain slope in relief rain.
3. **Cloud Formation:** In both cases, rising air cools and water vapour changes into cloud droplets.
4. **Rainfall Area:** Convectional showers are often local; relief rain mainly falls on windward mountain slopes.
5. **Examples:** Northern Punjab can have early-summer convectional storms; suitable mountain slopes receive relief rain.

S053. Explain five causes of river flooding in Pakistan.

PS-09-B3-04

1. **Heavy Rain:** Long or intense monsoon rain adds more water than rivers can safely carry.
2. **Melting Snow:** High temperatures melt snow and ice, adding water to already full rivers.
3. **Deforestation:** Fewer trees allow rainwater to run quickly into streams and rivers.
4. **Blocked Flow:** Sediment and blocked drainage reduce space for floodwater.
5. **Building on Floodplains:** Buildings on natural flood routes obstruct water and place more people in danger.

S054. Explain five effects of drought on Pakistan's economy.

PS-09-B3-03 / PS-09-B3-04

1. **Crop Losses:** Too little water reduces harvests and farmers' income.
2. **Livestock Losses:** Lack of water and fodder weakens animals and reduces milk and meat output.
3. **Water Shortage:** Homes and factories struggle to get enough water for their needs.
4. **Fewer Jobs:** Reduced farm production also reduces work in processing and related businesses.

5. **Migration and Costs:** Families may move for work, while food, pumping, and emergency help become more costly.

S055. Suggest five measures to reduce damage from floods, storms, and droughts.

PS-09-B3-04

1. **Early Warning:** Timely weather forecasts give people time to prepare and move to safer places.
2. **Safe Locations:** Avoid building in dangerous floodplains, unstable slopes, and exposed coastal areas.
3. **Strong Infrastructure:** Maintain drains, embankments, roads, and water-storage facilities.
4. **Save Water:** Store rainwater, use efficient irrigation, and grow suitable crops to reduce drought damage.
5. **Community Plans:** Prepare safe shelters, emergency supplies, medical help, and plans to protect people and livestock.

Long questions - 10 marks each

L014. Compare Pakistan's climatic regions and explain how they shape human activity.

PS-09-B3-01 / PS-09-B3-03

1. Highland Climate

Mountains have cold winters, snowfall at higher places, and shorter growing seasons. People adapt through suitable crops, livestock, warm housing, and seasonal tourism.

2. Lowland Climate

The Indus Plain has hot summers and cooler winters, with different amounts of rain. Irrigation helps farmers grow crops when rainfall is not enough.

3. Dry Climate

Arid and semi-arid regions receive little or unreliable rain and lose much water through evaporation. People depend on limited grazing, suitable crops, wells, karez, and water storage.

4. Coastal Climate

The sea reduces temperature extremes and makes the air humid. Coastal jobs include fishing and shipping, but storms and cyclones can threaten homes, boats, and roads.

5. Reasons for Differences

Height, latitude, mountains, distance from the sea, and moist winds affect climate. These factors also create wet slopes and dry rain shadows, so nearby places can have different conditions.

L015. Explain Pakistan's main sources of rainfall and their seasonal importance.

PS-09-B3-01 / PS-09-B3-04

1. Monsoon Rain

Summer heating creates relatively low pressure over land and draws in moist winds. Winds from the Arabian Sea and Bay of Bengal bring rain that helps crops but can also cause floods.

2. Western Depressions

These weather systems move east from the Mediterranean region and bring winter rain and snow. They help Rabi crops, while mountain snow adds water to rivers when it melts.

3. Convectional Rain

Strong sunshine heats the ground and the air above it. Warm air rises, cools, and forms clouds, sometimes causing local thunderstorms in northern areas during early summer.

4. Relief Rain

Mountains force moist winds to rise and cool, producing rain or snow. Windward slopes receive more moisture, while areas behind mountains may become dry rain shadows.

5. Coastal Storms

Tropical cyclones can bring heavy rain, strong winds, and storm surges to coastal areas. Because rain is uneven and uncertain, Pakistan needs storage, drainage, and careful water use.

L016. Assess the effects of seasonal weather and hazards on Pakistan's economy and suggest responses.

PS-09-B3-04

1. Farming and Livestock

Useful rain supports crops and grazing, but drought, floods, heat, and hail can destroy output. Better forecasts, suitable crops, drainage, and efficient irrigation reduce these losses.

2. Industry and Power

Severe weather can damage power lines, factories, roads, and water supplies. Strong infrastructure and emergency plans help businesses continue working and protect jobs.

3. Transport

Snow, ice, landslides, floods, and storms can block roads and damage bridges. Good drainage, slope protection, repairs, and early warnings help keep routes safe.

4. Homes and Health

Floods and cyclones damage houses and drinking-water systems, while drought creates shortages. Safe building sites, evacuation plans, shelters, clean water, and medical help protect families.

5. Long-Term Planning

Protect forests and water sources, maintain flood-control works, and train communities. Planning should reduce risks before disasters and also provide quick help and recovery afterwards.

Grade 9 - Unit 6: Water Resources

NBF Grade 9, PDF pp. 93-105

SLO scope: PS-09-C1-01 to PS-09-C1-03

Short questions - 5 marks each

S056. Describe five important water resources of Pakistan.

PS-09-C1-01

1. **Indus System:** The Indus and its tributaries form Pakistan's main surface-water network.
2. **Rivers and Streams:** Flowing water supplies farms, homes, factories, and suitable power projects.
3. **Reservoirs:** Tarbela on the Indus and Mangla on the Jhelum store water for later use.
4. **Groundwater:** Wells and tube wells bring underground water from aquifers to farms and homes.
5. **Local Sources:** Springs, lakes, and stored rainwater help places without reliable river or canal water.

S057. Explain seasonal changes in the availability and quality of water.

PS-09-C1-01

1. **Monsoon Season:** Summer rain increases river flow and helps fill reservoirs.
2. **Snowmelt:** Warmer weather melts mountain snow and glaciers, adding water to rivers.
3. **Cooler Months:** Less melting and low rain in many areas can reduce river flow and increase the need for stored water.
4. **Flood Pollution:** Floodwater can carry sewage, chemicals, and soil into water sources.
5. **Dry-Season Pollution:** With less water to dilute waste, pollutants can become more concentrated in some places.

S058. State five advantages of Pakistan's irrigation system.

PS-09-C1-02

1. **Reliable Water:** Irrigation helps farmers grow crops where rainfall is low or uncertain.
2. **More Production:** Enough water increases crop yields and can allow more than one crop a year.
3. **Food Supply:** Irrigated wheat, rice, and other crops help feed the population.
4. **Jobs and Industry:** Farm output supports rural jobs, food processing, textiles, and exports.
5. **Stable Income:** Reliable water reduces losses from poor rain and allows farmers to grow different crops.

S059. Explain five problems associated with extensive irrigation.

PS-09-C1-02

1. **Waterlogging:** Too much water and poor drainage reduce air around plant roots and harm crops.
2. **Salinity:** Water leaves salts behind as it evaporates, reducing soil fertility.
3. **Wastage:** Leaking canals and poor watering methods waste water before crops can use it.
4. **Unequal Supply:** Some farmers receive more water, while those farther along canals may receive too little.
5. **Environmental Damage:** Excess pumping, polluted runoff, and river diversions can harm future supplies and natural habitats.

S060. Suggest five sustainable ways to reduce water shortage and pollution.

PS-09-C1-02

1. **Efficient Irrigation:** Use suitable drip or sprinkler systems and give crops only the water they need.
2. **Repair Leaks:** Maintain canals, pipes, and watercourses to reduce avoidable water losses.
3. **Treat Waste:** Clean sewage and factory wastewater before allowing it into rivers.
4. **Store Rainwater:** Collect rain and use suitable storage and groundwater-recharge methods.
5. **Fair Management:** Monitor pumping, share water fairly, and teach people to save water and prevent pollution.

S061. Distinguish the functions of dams, barrages, canals, and reservoirs.

PS-09-C1-03

1. **Dam:** A dam is a barrier across a river that can hold back water.
2. **Reservoir:** A reservoir is a stored body of water kept for later use.
3. **Barrage:** A barrage uses gates to control river level and divert water into canals; it usually stores much less than a large dam.
4. **Canal:** A canal is a man-made channel that carries water to farms and other users.
5. **Combined Benefits:** These structures store, control, and distribute water; suitable dams can also produce electricity.

S062. Explain five benefits and costs of large water-storage projects.

PS-09-C1-03

1. **Farming:** Stored water helps crops grow when rain or river flow is low.
2. **Electricity:** Suitable dams produce hydroelectricity and can reduce the need for imported fuel.
3. **Flood Control:** Available storage can reduce some flood peaks, but it cannot stop every flood.

4. **People's Costs:** Reservoirs may cover settlements, so affected families need fair payment and help to resettle.
5. **Environmental Costs:** Dams change river flow, disturb habitats, and trap sediment, so they need careful management.

Long questions - 10 marks each

L017. Evaluate Pakistan's irrigation system and suggest sustainable improvements.

PS-09-C1-02

1. Importance

Irrigation supplies water where rain is low or unreliable. It supports food crops, cash crops, farm jobs, and industries such as textiles and food processing.

2. Water Wastage

Leaking canals and poor watering methods waste water, while some users receive less than others. Repairs, measured supplies, and fair sharing can improve the system.

3. Waterlogging and Salinity

Too much water and poor drainage harm roots and leave salts in the soil. Better drainage and giving crops only the required water help protect land.

4. Pollution and Pumping

Sewage, chemicals, and excessive groundwater pumping reduce the quality and amount of usable water. Waste treatment, monitoring, and limits suited to local conditions help protect supplies.

5. Better Methods

Use suitable drip or sprinkler systems, level fields, store rainwater, and choose crops that suit available water. Farmer training and careful management make these improvements more effective.

L018. Explain the role of dams, barrages, canals, and reservoirs, including their benefits and adverse effects.

PS-09-C1-03

1. Different Functions

Dams hold back water, reservoirs store it, barrages control and divert river flow, and canals carry water. Together, they help manage water instead of depending only on the river's immediate flow.

2. Irrigation

Stored and diverted water helps farmers grow crops in dry periods. This improves food supply, rural income, and the supply of raw materials to industry.

3. Hydroelectricity

Suitable dams use falling water to produce electricity for homes and businesses. A barrage should not automatically be described as a large storage dam or power station.

4. Flood Management

Empty storage space can hold some extra floodwater and lower the flood peak. However, extreme rain, limited capacity, and poor release decisions can still cause serious floods.

5. Costs and Protection

Projects can displace families, trap sediment, and disturb fish and downstream habitats. Fair compensation, safe planning, proper water releases, and regular checks help reduce these problems.

Grade 9 - Unit 7: Population - Included Migration and Youth Topics

NBF Grade 9, PDF pp. 110-117; C2-01 material excluded

SLO scope: PS-09-C2-02 and PS-09-C2-03

Short questions - 5 marks each

S063. Explain five causes of rural-to-urban migration.

PS-09-C2-02

1. **Few Rural Jobs:** People leave villages when there is not enough local work.
2. **Low Farm Income:** Small farms and poor harvests push families to seek other income.
3. **Environmental Problems:** Floods, droughts, and damaged land can make rural life difficult.
4. **Better Services:** Cities attract people with better schools, hospitals, transport, and other facilities.
5. **Family Contacts:** Relatives in cities may help new migrants find work and somewhere to live.

S064. Explain five consequences of rapid rural-to-urban migration.

PS-09-C2-02

1. **Housing Pressure:** Many newcomers cannot afford proper homes, so overcrowding and informal settlements increase.
2. **Service Shortages:** More people put pressure on water, schools, hospitals, electricity, and sanitation.
3. **Traffic and Pollution:** More vehicles and travel can cause traffic jams and air pollution.
4. **Job Problems:** Migrants without suitable skills may face unemployment or low-paid work.
5. **Uneven Development:** Villages may lose workers while cities gain more people, making balanced development important.

S065. Explain seasonal migration with suitable examples.

PS-09-C2-02

1. **Meaning:** Seasonal migration means moving at certain times of the year for work, weather, or resources.
2. **Transhumance:** Herders use high pastures in summer and move to lower, warmer areas in winter.
3. **Harvest Work:** Workers may move temporarily for cotton picking, harvesting, or carrying crops to factories.
4. **Water and Grazing:** Herders move to find food and water for animals, though not all such movement follows a fixed season.

5. **Benefits and Problems:** Movement provides work and resources, but it can interrupt children's education and access to healthcare.

S066. Suggest five ways to reduce the harmful effects of rural-to-urban migration.

PS-09-C2-02

1. **Rural Jobs:** Develop small industries and farm-processing businesses so villagers can earn locally.
2. **Rural Services:** Improve village schools, hospitals, water, electricity, and roads.
3. **Skills Training:** Help migrants learn useful skills and find reliable information about jobs.
4. **Better City Planning:** Provide affordable housing, sanitation, transport, and services where migrants settle.
5. **Smaller Towns:** Invest in smaller towns so jobs and facilities are not limited to a few large cities.

S067. Identify five problems faced by young and dependent people and suggest responses.

PS-09-C2-03

1. **Education:** Young people need good schools and useful skills to prepare for future work.
2. **Unemployment:** Training, apprenticeships, and business support can help young people earn an income.
3. **Healthcare:** Children, older people, and persons with disabilities need affordable treatment and care.
4. **Financial Dependence:** Poor families need suitable help when some members cannot earn.
5. **Social Support:** Safe recreation, counselling, and accessible facilities help vulnerable people take part in community life.

S068. How can government and NGOs develop Pakistan's human resources?

PS-09-C2-03

1. **Education:** Government and NGOs can provide schools and literacy classes to improve basic knowledge.
2. **Job Skills:** Technical training and work experience can prepare people for available jobs.
3. **Health:** Better healthcare, food, and clean water help people learn and work well.
4. **Help for the Needy:** Scholarships and suitable welfare support can assist poor youth and people who depend on others.
5. **Joint Effort:** Government planning and NGO work in communities can reach more people when programmes are properly checked.

Long questions - 10 marks each

L019. Analyze rural-urban and seasonal migration in Pakistan, including causes, consequences, and responses.

PS-09-C2-02

1. Rural Push Factors

People leave villages because of low farm income, few jobs, weak services, or disasters. These problems make it hard for some families to earn enough locally.

2. Urban Pull Factors

Cities attract people with jobs, schools, hospitals, and help from relatives. However, migrants without suitable skills may not find the secure work they expected.

3. Seasonal Migration

Highland herders move between summer and winter pastures, while workers travel for harvest jobs. Such movement provides income but can interrupt education and healthcare.

4. Effects

Migrants provide labour and may send money home, but fast city growth increases pressure on housing, water, roads, and jobs. Some rural areas also lose workers.

5. Solutions

Improve rural schools, healthcare, roads, and local businesses while planning city housing and transport. Training and services for migrant families can reduce hardship and spread opportunities more fairly.

L020. Discuss the problems of youth and dependent people and measures for sustainable human-resource development.

PS-09-C2-03

1. Education and Skills

Poor education limits young people's chances of getting good work. Schools and training centres should teach useful knowledge and skills linked to available jobs.

2. Jobs and Income

Unemployment makes young people depend on their families, while children and older people may be unable to earn. Training, business support, and suitable financial help can reduce hardship.

3. Health Needs

Poor nutrition, illness, and disability barriers make learning and work difficult. Affordable care, clean water, rehabilitation, and support for older people improve well-being and ability.

4. Government's Role

Government should provide fair access to schools, hospitals, basic services, and job opportunities. It must check whether support reaches the people who need it most.

5. NGOs and Cooperation

NGOs can provide local training, scholarships, counselling, and help to neglected families. Working with government and employers can build lasting skills and independence rather than only temporary relief.

Grade 9 - Unit 8: Agriculture, Livestock and Fisheries

NBF Grade 9, PDF pp. 118-141

SLO scope: PS-09-C3-01 to PS-09-C3-04

Short questions - 5 marks each

S069. Explain agriculture as a system of inputs, processes, and outputs.

PS-09-C3-01

1. **Natural Inputs:** Land, soil, water, sunlight, and climate are the natural resources used in farming.
2. **Human Inputs:** Farmers also need workers, money, machines, seeds, fertilizer, and knowledge.
3. **Crop Processes:** Ploughing, sowing, watering, weeding, and harvesting turn inputs into useful crops.
4. **Animal Processes:** Feeding, breeding, milking, and treating sick animals help produce livestock products.
5. **Outputs:** Grain, fruit, milk, meat, eggs, cotton, and hides are products used by people and industries.

S070. Compare subsistence farming with commercial farming.

PS-09-C3-01

1. **Purpose:** Subsistence farmers mainly feed their families; commercial farmers mainly produce goods for sale.
2. **Farm Size:** Subsistence farms are often small, while commercial farms are often larger.
3. **Labour:** Subsistence farms mainly use family workers; commercial farms may hire more workers.
4. **Inputs:** Commercial farms generally use more money, machinery, and purchased inputs.
5. **Market:** Subsistence farmers sell any extra produce, while commercial farmers depend mainly on buyers and market prices.

S071. Distinguish Rabi and Kharif crops and give examples.

PS-09-C3-02

1. **Rabi Season:** Rabi crops are usually grown in the cooler months and harvested towards spring.
2. **Rabi Examples:** Wheat, gram, and barley are common Rabi crops.
3. **Kharif Season:** Kharif crops mainly grow in the warmer months and use summer rain or irrigation.
4. **Kharif Examples:** Rice, cotton, and maize are common examples, though local sowing times can vary.

5. **Importance:** Choosing the right season helps crops get suitable heat and water and reduces losses.

S072. Explain the distinction between food crops and cash crops.

PS-09-C3-02

1. **Food Crops:** These crops mainly provide food, such as wheat, rice, maize, and pulses.
2. **Cash Crops:** These crops are mainly grown for sale, such as cotton, sugarcane, and tobacco.
3. **Both Uses:** Rice can feed a family and also be sold for money or exported.
4. **Industrial Use:** Cash crops provide materials for textile, sugar, and other industries.
5. **Main Difference:** Classification depends on how the crop is used; food and cash crops are not always separate groups.

S073. Describe the growing requirements and main producing areas of wheat.

PS-09-C3-02

1. **Season:** Wheat is an important Rabi crop and Pakistan's main staple cereal.
2. **Temperature:** It needs cool weather while growing and warmer, dry weather when ripening.
3. **Soil:** Fertile, well-drained loamy soil helps it grow well.
4. **Water:** It needs enough rain or irrigation, especially at important growth stages.
5. **Growing Areas:** Punjab and Sindh are major producers; suitable areas of Khyber Pakhtunkhwa and Balochistan also grow wheat.

S074. Describe the requirements, producing areas, and importance of rice.

PS-09-C3-02

1. **Warm Season:** Rice is mainly a Kharif crop and needs warm weather.
2. **Water:** It needs a large, reliable supply of rainwater or irrigation water.
3. **Suitable Land:** Level fields and soil that holds enough moisture help farmers manage water.
4. **Growing Areas:** Major areas include parts of Punjab, such as Gujranwala and Sheikhupura, and rice-growing districts of Sindh.
5. **Importance:** Rice provides food, jobs, and export income; Basmati and coarse rice serve different markets.

S075. Explain the economic importance and growing conditions of cotton and sugarcane.

PS-09-C3-02

1. **Cotton Conditions:** Cotton needs warm weather, suitable water, and dry conditions when it is picked.
2. **Cotton Areas:** Southern Punjab and Sindh are important cotton-growing areas.

3. **Cotton Uses:** Cotton supplies textile mills, while cottonseed provides oil and other products.
4. **Sugarcane Conditions:** Sugarcane needs a long warm season, fertile soil, and plenty of water.
5. **Sugarcane Areas and Uses:** Punjab, Sindh, and parts of Khyber Pakhtunkhwa grow sugarcane for sugar mills and related jobs.

S076. Explain five contributions of agriculture to Pakistan's economy.

PS-09-C3-03

1. **Food:** Agriculture supplies grain, fruit, vegetables, milk, meat, and other foods.
2. **Jobs:** Crop farming, animal care, and harvesting provide income to rural families.
3. **Raw Materials:** Cotton, sugarcane, and hides supply factories with materials.
4. **Exports:** Farm products and processed goods earn foreign exchange from overseas sales.
5. **Other Businesses:** Farming supports transport, storage, machinery sales, shops, and many other services.

S077. Suggest five sustainable agricultural practices.

PS-09-C3-03

1. **Crop Rotation:** Grow different crops in turn to maintain soil fertility and reduce pests.
2. **Protect Soil:** Cover crops and suitable farming methods reduce soil erosion and water loss.
3. **Compost:** Compost and properly used manure improve soil and supply nutrients.
4. **Pest Control:** Use natural enemies of pests and careful monitoring instead of unnecessary chemical spraying.
5. **Save Water:** Level fields, use suitable irrigation, and grow crops that match local water supplies.

S078. Identify five agricultural challenges and match each with a solution.

PS-09-C3-04

1. **Water Shortage:** Improve irrigation, repair channels, and store water where suitable.
2. **Expensive Inputs:** Provide fair loans, good seeds, advice, and shared machinery for small farmers.
3. **Pests and Soil Damage:** Use crop rotation, soil testing, drainage, and careful pest control.
4. **Loss after Harvest:** Improve roads, storage, cold rooms, and access to markets.
5. **Loss of Farmland:** Plan housing carefully and protect fertile agricultural land from unnecessary construction.

S079. Compare nomadic, settled, and transhumant livestock farming.

PS-09-C3-01

1. **Nomadic Farming:** Herders move from place to place to find water and grazing.

2. **Settled Farming:** Animals stay around permanent farms where water and fodder are more reliable.
3. **Transhumance:** Herders move between high summer pastures and low winter areas.
4. **Products:** These systems provide milk, meat, wool, hides, manure, and income.
5. **Local Conditions:** Farmers choose a system according to water, pasture, land, seasons, and access to markets.

S080. Explain five ways in which livestock contributes to the economy.

PS-09-C3-03

1. **Food:** Livestock provides milk, meat, and eggs for people's diets.
2. **Extra Income:** Selling animals and their products gives families income beyond crop harvests.
3. **Industrial Materials:** Hides, wool, milk, and meat supply leather, textile, dairy, and food industries.
4. **Farm Support:** Manure improves soil, and some animals help with transport and farm work.
5. **Jobs:** Animal breeding, veterinary care, milk collection, processing, and marketing provide employment.

S081. Describe inland fisheries, marine fisheries, and aquaculture in five points.

PS-09-C3-01

1. **Inland Fishing:** People catch fish from rivers, lakes, reservoirs, and other freshwater sources.
2. **Marine Fishing:** People catch sea fish along the Sindh and Makran coasts.
3. **Aquaculture:** Fish are raised in managed ponds or other controlled water systems.
4. **Examples:** Tarbela and Mangla support inland fishing; Karachi and Gwadar are important coastal centres.
5. **Importance:** Fisheries provide food, jobs, products for processing, and income from sales and exports.

S082. Suggest five measures for sustainable development of fisheries.

PS-09-C3-03 / PS-09-C3-04

1. **Catch Limits:** Do not catch more fish than the population can replace.
2. **Breeding Protection:** Stop fishing at suitable times and avoid catching young fish so stocks can recover.
3. **Safe Equipment:** Ban destructive methods that damage habitats and kill fish without care.
4. **Clean Water:** Treat waste and protect places where young fish grow.
5. **Better Storage:** Provide ice, cold storage, good handling, and training to reduce waste and improve income.

S083. Describe the importance and producing areas of maize, tobacco, and minor crops.

PS-09-C3-02

1. **Maize Uses:** Maize is used as food, animal feed, and material for processing industries.
2. **Maize Areas:** Punjab and Khyber Pakhtunkhwa are important maize-growing regions.
3. **Tobacco Areas:** Tobacco is an important cash crop in Swabi, Mardan, Nowshera, and Charsadda.
4. **Minor Crops:** Gram, barley, pulses, oilseeds, and vegetables provide different foods and sources of income.
5. **Benefits:** Growing several crops reduces dependence on one crop and helps farmers meet different market needs.

S084. Explain five aspects of the importance and development of fruit farming.

PS-09-C3-02 / PS-09-C3-03

1. **Different Fruits:** Pakistan's different climates support mangoes, citrus, dates, apples, grapes, and other fruits.
2. **Growing Areas:** Sargodha is known for citrus; southern Punjab and Sindh grow mangoes, while suitable highlands grow temperate fruits.
3. **Jobs:** Orchards provide work in planting, care, picking, packing, and transport.
4. **Income:** Fruit supplies local markets and can earn foreign exchange through exports.
5. **Improvement:** Good plants, advice, pest control, safe handling, and cold storage reduce losses and raise income.

Long questions - 10 marks each

L021. Explain agriculture as a system and compare the principal farming categories in Pakistan.

PS-09-C3-01

1. Inputs

Farming uses natural inputs such as land, soil, water, and climate. It also needs human inputs such as labour, money, seed, machines, and knowledge.

2. Processes

Farmers plough, sow, irrigate, weed, and harvest crops. Animal farming also needs feeding, breeding, milking, and treatment of sick animals.

3. Outputs

Farms produce food, cotton, milk, meat, eggs, hides, and other goods. These feed people and supply factories, transport businesses, and markets.

4. Types of Crop Farming

Subsistence farmers mainly produce for their families, while commercial farmers mainly sell their output. Commercial farming generally uses more money, machinery, and market services, though some farms combine both types.

5. Livestock and Fisheries

Livestock farming may be settled, nomadic, or based on seasonal movement called transhumance. Fisheries include sea fishing, freshwater fishing, and managed fish farming, adding food and income beyond field crops.

L022. Discuss Pakistan's major food and cash crops, their requirements, areas, and economic significance.

PS-09-C3-02

1. Wheat

Wheat is a major Rabi crop and Pakistan's main staple cereal. It needs cool growing weather, fertile soil, and enough water, and is widely grown in Punjab and Sindh.

2. Rice

Rice is mainly a Kharif crop requiring warm weather and a reliable water supply. Punjab and Sindh grow important varieties, including Basmati and coarse rice, for food and export.

3. Cotton

Cotton needs warm conditions, suitable water, and dry weather when picked. Southern Punjab and Sindh grow it for textile mills, while cottonseed provides other useful products.

4. Sugarcane

Sugarcane needs a long warm season, fertile soil, and plenty of water. Punjab, Sindh, and parts of Khyber Pakhtunkhwa supply it to sugar mills and related businesses.

5. Other Crops

Maize provides food and animal feed, while pulses, oilseeds, tobacco, fruit, and vegetables add variety. Food and cash uses can overlap, so crop choice should match local conditions and market demand.

L023. Evaluate agriculture's economic role and propose sustainable ways to improve output.

PS-09-C3-03 / PS-09-C3-04

1. Economic Importance

Agriculture provides food, jobs, exports, and raw materials such as cotton, sugarcane, and hides. It also supports mills, transport, storage, and shops, so its benefits reach beyond farms.

2. Save Water and Soil

Water shortage, salts, waterlogging, and erosion reduce crop output. Efficient irrigation, drainage, field levelling, and soil protection help farms produce more without damaging land and water.

3. Better Inputs and Skills

Farmers need good seeds, suitable machines, fair loans, veterinary care, and useful advice. Training and shared services help small farmers use improvements they could not afford alone.

4. Sustainable Farming

Crop rotation, compost, cover crops, and natural pest controls protect soil and reduce harmful chemical use. Organic farming still needs proper planning to supply nutrients and control pests.

5. Land and Markets

Protect fertile land from unplanned housing and improve roads, storage, processing, and market information. Reducing losses and helping farmers sell fairly makes higher production more valuable.

L024. Explain the importance, problems, and sustainable development of Pakistan's fisheries.

PS-09-C3-01 / PS-09-C3-03 / PS-09-C3-04

1. Types and Areas

Marine fishing takes place along the Sindh and Makran coasts, while inland fishing uses rivers, lakes, and reservoirs. Aquaculture means raising fish in managed ponds or other controlled systems.

2. Food and Jobs

Fisheries provide protein and income to many families. They also create work in catching, boat repair, ice-making, transport, processing, and exports.

3. Main Problems

Overfishing reduces fish stocks, while pollution and habitat damage harm breeding and survival. Poor equipment and cold storage also cause waste and lower quality.

4. Protect Fish Stocks

Set catch limits, protect breeding seasons, avoid catching young fish, and stop destructive fishing methods. Clean water and protected nursery habitats allow future fish populations to grow.

5. Better Production and Handling

Training, safer boats, ice, cold rooms, and better markets can raise earnings without catching too many fish. Fish farming can add supply if water, feed, stocking, and diseases are properly managed.

Grade 9 - Unit 9: Transport and Trade

NBF Grade 9, PDF pp. 142-157; dry-port section excluded

SLO scope: PS-09-C4-01 and PS-09-C4-03 to PS-09-C4-06

Short questions - 5 marks each

S085. Explain why transport networks are unevenly distributed within Pakistan.

PS-09-C4-01

1. **Land:** Roads and railways are easier to build on flat plains than in steep mountains.
2. **Population:** Crowded areas need more transport for people and goods.
3. **Business:** Farms, factories, and markets need strong links with suppliers and customers.
4. **Investment:** Money, maintenance, and existing facilities affect how transport networks develop.
5. **Weather:** Snow, floods, and landslides can block routes and make travel more expensive in difficult areas.

S086. Compare road and rail transport in five points.

PS-09-C4-03

1. **Access:** Roads can reach homes and shops directly; railways depend on tracks and stations.
2. **Load:** Rail suits heavy goods in large amounts; roads suit smaller or flexible deliveries.
3. **Cost:** Rail can be cheaper for large loads over long distances, while road costs depend on fuel and distance.
4. **Reliability:** Roads face traffic and accidents; rail depends on good tracks, schedules, and maintenance.
5. **Environment:** A well-used train can move large loads with less pollution per unit than many road vehicles.

S087. Compare air and sea transport in five points.

PS-09-C4-03

1. **Speed:** Air transport is much faster and suits urgent travel or goods.
2. **Cost:** Air freight is expensive; sea transport is usually cheaper for large loads.
3. **Capacity:** Ships carry heavy and bulky goods that are costly to move by air.
4. **Facilities:** Air transport needs airports; sea transport needs ports and inland transport links.
5. **Limits:** Aircraft use much fuel per passenger or cargo unit; ships are slower and can also pollute the environment.

S088. Explain five benefits of trade for Pakistan's economy.

PS-09-C4-04

1. **Foreign Exchange:** Exports earn money from abroad to pay for imports and other overseas needs.
2. **Jobs:** Trade creates work in farming, factories, transport, banking, and sales.
3. **Bigger Markets:** Overseas buyers allow businesses to sell more than they could in Pakistan alone.
4. **Technology:** Imports bring machinery, useful knowledge, and materials that help local production.
5. **Better Choice:** Competition can improve quality and give consumers more products to choose from.

S089. Explain the commercial importance of CPEC, Gwadar, and Karachi Port.

PS-09-C4-05

1. **CPEC:** It aims to improve transport, energy, and business links between Pakistan and China.
2. **Gwadar:** Its Arabian Sea location offers another route linking inland areas with overseas markets.
3. **Karachi Port:** It connects Pakistan's established factories and markets with foreign buyers and suppliers.
4. **Transit Trade:** Better routes can help Afghanistan and Central Asian markets reach seaports.
5. **Conditions:** Benefits depend on safe travel, reliable facilities, affordable costs, buyers, and good management.

S090. Explain five factors that influence Pakistan's international trade.

PS-09-C4-05

1. **Demand:** Exports depend on what foreign buyers need and can afford.
2. **Price and Quality:** Buyers prefer goods with suitable prices, reliable quality, and timely delivery.
3. **Transport Costs:** Good roads and ports reduce delays, damage, and delivery expenses.
4. **Tariffs:** Import taxes and trade agreements change the final price and ease of selling goods abroad.
5. **Stability:** Safe conditions and steady policies help traders and investors plan with confidence.

S091. Identify five internal trade challenges and give a solution for each.

PS-09-C4-06

1. **Poor Infrastructure:** Improve power supply, roads, ports, and transport services to reduce delays and costs.
2. **Slow Procedures:** Make customs and paperwork simpler, clearer, and more efficient.

3. **Lack of Skills:** Train workers and businesses to meet buyers' quality and production needs.
4. **Lack of Finance:** Provide suitable loans and advice to small firms and new exporters.
5. **Limited Products:** Develop new products and markets and improve technology so exports do not depend on only a few goods.

Long questions - 10 marks each

L025. Compare Pakistan's main modes of transport and explain their regional distribution.

PS-09-C4-01 / PS-09-C4-03

1. Road Transport

Roads offer flexible routes and can deliver people or goods directly to many places. Traffic, accidents, fuel costs, and pollution are disadvantages; roads are easier to build on plains than mountains.

2. Rail Transport

Trains can carry many passengers and heavy goods cheaply over long distances. They depend on fixed tracks, good maintenance, reliable schedules, and links from stations to final destinations.

3. Air Transport

Aircraft are fast and useful for urgent travel and valuable or perishable goods. High costs and the need for airports make them unsuitable for most heavy, low-value loads.

4. Sea Transport

Ships carry large overseas loads at relatively low cost. They are slow and need ports and inland links, while pollution and marine damage also require control.

5. Regional Differences

Flat land, large populations, and active businesses usually support more transport routes. Mountains, rough plateaus, low demand, snow, and landslides make networks harder to build and maintain.

L026. Assess trade's role in Pakistan's economy and the significance of its major commercial routes.

PS-09-C4-04 / PS-09-C4-05

1. Role of Trade

Trade means buying and selling goods and services. Exports create jobs and earn foreign exchange, while imports supply machinery, energy, and materials needed by homes and businesses.

2. Quality and New Technology

Foreign markets encourage firms to improve products, prices, and delivery. Imported machines and knowledge can raise production, but businesses must develop their own skills to benefit.

3. Karachi Port

Karachi Port connects Pakistan's existing industrial and commercial areas with world shipping. Good cargo handling and road and rail links reduce costs and delays.

4. Gwadar and CPEC

Gwadar offers another Arabian Sea gateway, while CPEC aims to improve links with China and inland areas. These routes may support regional trade if they meet real transport and market needs.

5. Conditions for Success

Good location does not automatically create profit. Safe routes, affordable charges, steady policy, reliable facilities, buyers, and protection of the environment are needed for lasting benefits.

L027. Analyze internal obstacles to export growth and propose sustainable solutions.

PS-09-C4-06

1. Infrastructure and Power

Weak roads, unreliable electricity, and poor transport services increase costs and delays. Maintaining dependable facilities helps exporters produce goods and deliver orders on time.

2. Simple Procedures

Slow customs, complex paperwork, and unclear rules make trade difficult. Clear digital procedures, trained staff, and honest administration save time and reduce unfair practices.

3. Skills and Quality

Firms need trained workers, suitable technology, and products that meet buyers' standards. Technical education, testing, research, and better machines improve their ability to compete.

4. Business Finance

Small exporters may lack money, insurance, and knowledge of foreign markets. Suitable loans and advice help capable businesses begin exporting and maintain regular sales.

5. Stable and Lasting Growth

Steady policies and safe business conditions help firms plan ahead. More products and markets, efficient resource use, and responsible production reduce risks and protect future trade.

Grade 10 - Unit 1: Society and Culture of Pakistan

NBF Grade 10, PDF/printed pp. 6-21; supplied SLO document pp. 1-2

SLO scope: PS-10-D1-01 to PS-10-D1-07

Short questions - 5 marks each

S092. Explain five elements of culture with examples from Pakistan.

PS-10-D1-01

1. **Language:** Languages pass on stories, knowledge, values, and identity.
2. **Beliefs:** Religious and moral beliefs guide behaviour, customs, and celebrations.
3. **Arts:** Music, poetry, painting, Bhangra, and Attan express different cultural traditions.
4. **Customs and Festivals:** Weddings, Eid, and regional melas bring people and generations together.
5. **Food and Objects:** Regional food, clothes, crafts, and buildings show local history and ways of life.

S093. How can cultural diversity promote national unity?

PS-10-D1-01 / PS-10-D1-04

1. **Respect:** Accepting different customs helps all communities feel part of the nation.
2. **Cultural Exchange:** Festivals and visits help people learn about one another.
3. **Joint Activities:** People can work and celebrate together while keeping their own traditions.
4. **Education:** Learning about other regions reduces prejudice and creates understanding.
5. **Unity in Diversity:** People share a national identity without having to give up their regional culture.

S094. Explain five ways languages and dialects affect national integration.

PS-10-D1-02

1. **Protect Heritage:** Regional languages preserve stories, literature, customs, and identity.
2. **Common Communication:** A shared language helps people from different regions understand and work with each other.
3. **Language Barriers:** Differences can cause misunderstandings when people cannot communicate well.
4. **Respect:** Giving regional languages proper recognition reduces feelings of neglect.
5. **Balanced Approach:** Urdu and regional languages should develop together to support both unity and cultural identity.

S095. Explain Urdu's role as a lingua franca without neglecting regional languages.

PS-10-D1-02

1. **Common Language:** Urdu helps people communicate when their first languages are different.
2. **Public Information:** National media uses Urdu to share information with people across regions.
3. **Shared Literature:** Urdu poetry, drama, and books help create a shared cultural experience.
4. **Regional Heritage:** Punjabi, Sindhi, Pashto, Balochi, and other languages preserve local identity and knowledge.
5. **Inclusive Unity:** Urdu should connect people while regional languages also receive respect and support.

S096. Explain the origin and development of Pakistani folklore.

PS-10-D1-03

1. **Oral Tradition:** Folklore began as stories, songs, proverbs, and customs passed from one generation to another.
2. **Historical Contacts:** Different civilizations and cultures added new characters and ideas.
3. **Regional Stories:** Each community developed tales about its own heroes, values, and way of life.
4. **Change over Time:** People kept old stories alive but changed some details for new times.
5. **Modern Preservation:** Books, performances, television, and cultural events help record and share folklore today.

S097. Give five examples showing the regional diversity of Pakistan's folklore.

PS-10-D1-03

1. **Punjab:** Heer Ranjha and Sohni Mahiwal are famous Punjabi folk stories.
2. **Sindh:** Umar Marvi and Momal Rano are well-known Sindhi tales.
3. **Khyber Pakhtunkhwa:** Adam Khan and Durkhanai is a famous Pashto folk story.
4. **Balochistan:** Hani and Sheh Mureed is a well-known Balochi story of love and loyalty.
5. **Gilgit-Baltistan:** The legend of Shiri Badat is an example of northern Pakistan's folk heritage.

S098. Explain five stages or influences in the development of drama in Pakistan.

PS-10-D1-03

1. **Local Beginnings:** Storytelling, folk theatre, and street performances formed early dramatic traditions.
2. **Cultural Influences:** Persian, Arabic, and other storytelling traditions added new ideas and styles.

3. **Western Theatre:** British rule introduced more ways of writing and performing plays.
4. **Radio and Television:** Radio and PTV, established in 1964, brought drama to many more people.
5. **Modern Drama:** Television, stage, and digital drama now discuss family life, identity, and social problems.

S099. Explain five positive and negative effects of globalization on Pakistani culture.

PS-10-D1-04

1. **New Ideas:** Global contact introduces different foods, arts, and ideas and can encourage creativity.
2. **Learning:** Global communication helps people gain knowledge and work with others.
3. **Loss of Traditions:** Powerful global styles may push local languages, crafts, and customs into the background.
4. **Unequal Benefits:** People without technology or skills may gain less, making social differences wider.
5. **Balanced Response:** Support local culture and teach responsible media use while accepting useful ideas from abroad.

S100. Explain the changing position of women in Pakistani society.

PS-10-D1-05

1. **Traditional Roles:** Women were often expected to focus mainly on home and family care.
2. **Better Education:** More schooling has helped women gain knowledge, confidence, and job opportunities.
3. **Public Work:** Women now contribute in teaching, healthcare, business, politics, media, and many other fields.
4. **Remaining Problems:** Discrimination, violence, limited movement, and lack of resources still restrict many women.
5. **Further Progress:** Safe education, healthcare, fair jobs, and respect can help women take a fuller part in national development.

S101. Explain five effects of feudalism on Pakistani society.

PS-10-D1-05

1. **Land Concentration:** A small number of powerful owners control large amounts of land.
2. **Dependence:** Poor tenants may depend on landlords for work, income, and access to resources.
3. **Political Power:** Landowners may use their wealth to influence local decisions and politics.
4. **Limited Progress:** Poor families can find it difficult to improve their position when opportunities are unequal.
5. **Needed Changes:** Education, fair opportunities, secure livelihoods, and responsible institutions can reduce dependence and inequality.

S102. Explain the positive and negative effects of tribalism.

PS-10-D1-05

1. **Identity:** Tribal ties give people a strong feeling of belonging and shared history.
2. **Mutual Help:** Tribe members may support one another during hardship.
3. **Local Cooperation:** Traditional leaders and customs can help organize community work and settle some disputes.
4. **Possible Conflict:** Strong tribal divisions and conflicts can weaken cooperation with other groups.
5. **Development:** Better schools, healthcare, roads, and fair services are needed while respecting useful traditions.

S103. Explain social stratification and its effects on inequality.

PS-10-D1-06

1. **Meaning:** Social stratification means dividing society into higher and lower groups according to wealth, power, and status.
2. **Unequal Chances:** Richer groups often get better education, healthcare, and influential contacts.
3. **Different Living Standards:** Unequal income affects housing, safety, and future opportunities.
4. **Social Mobility:** Education and fair chances can help people move to a better social position.
5. **Social Effects:** Large inequalities can create anger and weaken trust, so fair access to services and jobs is important.

S104. Suggest five ways to reduce the harmful effects of social stratification.

PS-10-D1-06

1. **Good Education:** Affordable, quality schooling gives poor children a better chance to succeed.
2. **Healthcare:** Affordable treatment protects families from illness and heavy medical costs.
3. **Employment:** Fair access to jobs and business support helps people earn independently.
4. **Basic Services:** Water, housing, and transport should reach poor and neglected communities.
5. **Fair Treatment:** Clear rules and honest decisions help prevent discrimination and favouritism.

S105. State five common principles of Pakistan's Sufi mystical traditions.

PS-10-D1-07

1. **Love of Allah:** Sufi teachings place love and devotion to Allah at the centre of spiritual life.
2. **Self-Purification:** Tazkiyah means removing harmful desires and developing humility and sincerity.

3. **Remembrance:** Prayer, reflection, and Dhikr help followers remember Allah.
4. **Service:** Kindness, generosity, tolerance, and helping others put belief into practice.
5. **Spiritual Guidance:** The Murshid guides the Mureed towards better character and spiritual growth.

S106. Distinguish Pakistan's major Sufi orders in five points.

PS-10-D1-07

1. **Qadiri:** Linked with Sheikh Abdul Qadir Gilani, this order stresses devotion, self-purification, and Islamic practice.
2. **Chishti:** Linked in South Asia with Khwaja Moinuddin Chishti, it stresses love, tolerance, and service.
3. **Naqshbandi:** Linked with Baha-ud-Din Naqshband, it is especially known for silent Dhikr and inner reflection.
4. **Suhrawardi:** It combines spiritual learning with study and service; Baha-ud-Din Zakariya of Multan is an important local example.
5. **Shared Aim:** All these orders connect spiritual development with good character and concern for others.

S107. Explain how Sufi traditions encourage unity in Pakistani society.

PS-10-D1-07

1. **Local Languages:** Sufi poetry shares moral teachings in languages ordinary people understand.
2. **Shared Gatherings:** Urs and shrine gatherings bring people from different communities together.
3. **Human Respect:** Humility and kindness discourage looking down on people because they are poor or different.
4. **Cultural Links:** Poetry and devotional music create shared traditions across regions.
5. **Helping Others:** Charity and service build trust and cooperation among people.

Long questions - 10 marks each

L028. Analyze how cultural elements and regional traditions can strengthen national integration.

PS-10-D1-01 / PS-10-D1-02 / PS-10-D1-04

1. Different Cultural Elements

Culture includes language, beliefs, customs, art, food, and dress. Pakistan's communities add different traditions, making national life richer when each group receives respect.

2. Languages

Regional languages preserve local identity and knowledge, while Urdu helps people communicate across regions. Supporting both reduces fears that national unity means losing one's own language.

3. Festivals and Arts

Music, crafts, poetry, food, and festivals introduce people to other communities. Shared events allow people to enjoy differences and see each region's contribution to Pakistan.

4. Contact between Regions

Student visits, joint projects, and cultural exchanges help people make friends across provinces. Direct contact reduces stereotypes and teaches people to listen to one another.

5. Unity in Diversity

National integration means shared belonging and cooperation, not identical customs. Fair recognition in education, media, and public life helps regional pride strengthen national unity.

L029. Trace the origin and development of folklore and drama in Pakistan.

PS-10-D1-03

1. Early Folklore

Stories, songs, proverbs, and customs were passed on by word of mouth. They preserved community history and taught lessons about love, courage, loyalty, and right conduct.

2. Regional Variety

Different communities adapted stories to their own surroundings and traditions. Heer Ranjha, Umar Marvi, Adam Khan and Durkhanai, and Hani and Sheh Mureed show this regional variety.

3. Beginnings of Drama

Storytelling, folk theatre, and street performance provided early forms of drama. Persian, Arabic, and later Western theatre added new styles of writing and acting.

4. Radio and Television

Broadcasting brought drama to larger audiences, especially after PTV began in 1964. Writers such as Ashfaq Ahmed, Bano Qudsia, A. Hameed, and Anwar Maqsood helped develop the tradition.

5. Cultural Importance

Folklore protects old memories and values, while drama also discusses modern relationships and social problems. Recording, teaching, and thoughtful performances help younger generations understand and preserve this heritage.

L030. Evaluate the positive and negative effects of globalization on Pakistani society and culture.

PS-10-D1-04

1. Meaning

Globalization means growing contact between countries through trade, travel, technology, and media. It brings foreign ideas, goods, styles, and information into everyday Pakistani life.

2. Learning and Creativity

People can learn new skills and work with others around the world. Cultural contact can create new forms of music, writing, food, and art and bring Pakistani work to wider audiences.

3. Economic Opportunities

Global links can create markets, investment, and jobs. However, people need skills and resources to benefit, and not everyone gains equally.

4. Cultural and Social Risks

Strong global styles may weaken local languages and customs, while unequal technology access can widen social gaps. Misinformation, unrealistic expectations, and competition can also create problems.

5. Balanced Approach

Support regional languages, cultural teaching, local artists, and careful media use. Pakistan can learn from other societies while protecting valuable traditions and sharing opportunities more fairly.

L031. Analyze how women's status, feudalism, tribalism, and social stratification affect Pakistani society.

PS-10-D1-05 / PS-10-D1-06

1. Women's Participation

Women contribute at home, on farms, and in public life, but unequal education, safety, and resources limit many women. Better schooling and fair opportunities allow more women to use their talents.

2. Feudalism

Powerful landowners may control land, income, and local decisions. Poor tenants can remain dependent, so education, secure livelihoods, and fair access to resources are important.

3. Tribalism

Tribal ties offer identity, mutual help, and useful traditions. However, strong divisions or conflict can weaken wider unity, while neglected areas need better schools, healthcare, roads, and fair services.

4. Social Stratification

Society has higher and lower groups based on wealth, education, and power. Higher groups often pass advantages to their children, making it harder for poor families to improve their position.

5. Inclusive Development

Good schools, healthcare, jobs, and fair institutions should serve all groups. Reducing discrimination and supporting neglected communities can improve both social progress and national unity.

L032. Explain the major Sufi orders, their shared teachings, and their contribution to unity in Pakistan.

PS-10-D1-07

1. Qadiri and Chishti

Qadiri teaching stresses devotion, self-purification, and humility. The Chishti tradition, linked in South Asia with Khwaja Moinuddin Chishti, stresses love, tolerance, and helping humanity.

2. Naqshbandi and Suhrawardi

Naqshbandi teaching is especially known for silent Dhikr and reflection. Suhrawardi teaching combines spiritual learning with study and service; Baha-ud-Din Zakariya of Multan is an important local example.

3. Shared Principles

These orders teach love of Allah, remembrance, self-discipline, and guidance by a spiritual teacher. They connect inner growth with kindness, generosity, and good conduct towards others.

4. Cultural Influence

Poets such as Bulleh Shah, Shah Abdul Latif Bhittai, and Khwaja Ghulam Farid used regional languages. Their poetry, devotional music, and Urs gatherings spread shared moral ideas among ordinary people.

5. Unity

Teachings of humility and human dignity can reduce divisions of wealth, ethnicity, and region. Shared gatherings and charity bring people together while allowing different regional traditions to continue.

L033. Analyze social stratification, its causes and consequences, and ways to reduce inequality.

PS-10-D1-06

1. Meaning

Social stratification means ranking people in higher and lower social groups. Wealth, income, education, occupation, and power affect a person's position and opportunities.

2. Advantages Passed On

Richer families can provide better schools, healthcare, safety, and useful contacts to their children. Poorer families may face barriers that keep them at a disadvantage despite hard work.

3. Effects on People

Social position affects housing, health, education, and employment. A lack of these opportunities can prevent talented people from improving their lives.

4. Effects on Society

Large inequalities can create anger, exclusion, and weak trust between groups. Society also loses useful skills when people cannot progress because of their background.

5. Solutions

Provide quality education, affordable healthcare, job skills, work, and basic services fairly. Honest institutions and equal treatment help people move to a better social position, called social mobility.

L034. Discuss changes in women's status and measures to improve their participation in Pakistani society.

PS-10-D1-05

1. Traditional Contributions

Women have long worked in family care, agriculture, and cultural life. Their work has often received little recognition, while customs have limited their education and public roles.

2. Education

More schooling has improved many women's knowledge, confidence, and career chances. Progress is still unequal where poverty, distance, insecurity, or family attitudes prevent girls from attending school.

3. Public Participation

Women work in healthcare, teaching, business, media, politics, and many other fields. Fair access to jobs and resources helps families and allows Pakistan to use more of its talent.

4. Continuing Problems

Violence, discrimination, unsafe transport, lack of money, and unpaid care duties can restrict opportunities. Formal rights are less useful if women cannot safely use them in daily life.

5. Practical Improvements

Provide safe schools and workplaces, healthcare, training, transport, and fair employment. Families, communities, employers, and government should work together so progress reaches poor and rural women too.

L035. Explain the origin, regional forms, and cultural importance of Pakistani folklore.

PS-10-D1-03

1. Origins

Folklore began as stories, songs, proverbs, beliefs, and customs shared by communities. It entertained people and passed history, experience, and moral lessons from one generation to another.

2. Development

Different civilizations and cultural contacts added ideas and characters over time. Each generation changed some details while keeping important themes and traditions alive.

3. Regional Examples

Punjab has Heer Ranjha and Sohni Mahiwal, while Sindh has Umar Marvi and Momal Rano. Other examples include Adam Khan and Durkhanai in Pashto tradition and Hani and Sheh Mureed in Balochistan.

4. Themes and Value

Love, bravery, loyalty, hardship, and the supernatural appear in many tales. These stories preserve language, community values, and memories and help people understand one another.

5. Preservation

Books, teaching, recorded storytelling, performances, and festivals keep folklore available to new generations. New versions should respect the original regional tradition while making the stories understandable today.

L036. Trace the development of drama in Pakistan and explain its social significance.

PS-10-D1-03

1. Local Beginnings

Storytelling, folk theatre, and street performances created early dramatic traditions. Familiar stories and languages made performances useful for entertainment and sharing ideas with communities.

2. Outside Influences

Persian, Arabic, and other storytelling traditions added new themes. Western theatre introduced more ways to organize plays, write dialogue, and present stories during British rule.

3. Radio and Television

Broadcasting allowed drama to reach many people beyond a theatre. PTV, established in 1964, became an important platform for stories about families, culture, and social change.

4. Writers and New Forms

Ashfaq Ahmed, Bano Qudsia, A. Hameed, Anwar Maqsood, and others developed Pakistani drama. Stage, television, and digital platforms now provide different styles and wider audiences.

5. Social Importance

Drama entertains and encourages people to think about relationships, unfairness, and moral choices. Good writing and fair representation help it preserve culture and discuss problems without spreading stereotypes.

Grade 10 - Unit 2: Recreation - Sports

NBF Grade 10, PDF/printed pp. 22-36; supplied SLO document pp. 1-2

SLO scope: PS-10-D2-01 and PS-10-D2-02

Short questions - 5 marks each

S108. Explain five benefits of leisure activities for individuals and communities.

PS-10-D2-01

1. **Physical Health:** Active leisure helps people stay fit and develop healthy habits.
2. **Mental Rest:** Enjoyable activities reduce stress and give a break from daily worries.
3. **Friendship:** Shared hobbies and games help people make friends and feel included.
4. **Culture:** Crafts, storytelling, festivals, and traditional games pass heritage to younger people.
5. **Creativity:** Reading, arts, and hobbies develop interests and make life more balanced.

S109. Describe five leisure activities common in rural Pakistan.

PS-10-D2-01

1. **Traditional Games:** Kabaddi, wrestling, and outdoor games provide exercise and enjoyment.
2. **Gatherings:** Chopal meetings and family events allow people to talk and strengthen friendships.
3. **Stories and Music:** Folk songs and storytelling pass on history and values.
4. **Crafts:** Pottery, weaving, and embroidery provide enjoyment and preserve useful skills.
5. **Village Fairs:** Melas bring people together through food, games, music, and celebrations.

S110. Compare rural and urban leisure activities in five points.

PS-10-D2-01

1. **Places:** Rural people often use open fields and village spaces; urban people also use parks, clubs, and gyms.
2. **Games:** Traditional games are common in villages; cities offer more organized sports facilities.
3. **Gatherings:** Both enjoy family events, while cities also offer restaurants, exhibitions, and commercial entertainment.
4. **Cultural Activities:** Villages have strong storytelling and craft traditions; cities offer theatres, libraries, and more venues.
5. **Access:** Money, time, facilities, and technology affect leisure in both places, so activities can overlap.

S111. Explain five ways sports benefit young people and national life.

PS-10-D2-02

1. **Fitness:** Sport builds strength, stamina, coordination, and healthy habits.
2. **Confidence:** Practice teaches young people to keep trying and handle success and failure.
3. **Character:** Rules and fair play teach honesty, discipline, respect, and responsibility.
4. **Teamwork:** Team games help people communicate and cooperate across social and regional differences.
5. **National Benefits:** Success creates pride, while coaching, equipment, events, and tourism provide jobs.

S112. Describe five traditional games or sports of Pakistan.

PS-10-D2-02

1. **Kabaddi:** Players enter the other team's area, tag opponents, and try to return safely.
2. **Kushti:** Traditional wrestling uses strength, skill, and training, often in an akhara.
3. **Malakhra:** This Sindhi wrestling uses belt grips to unbalance or throw an opponent.
4. **Rasa Kashi:** Two teams pull a rope in opposite directions using strength and teamwork.
5. **Other Games:** Kho-kho and local street games provide low-cost enjoyment and keep traditions alive.

S113. Explain the importance of hockey, cricket, and squash in Pakistan.

PS-10-D2-02

1. **Hockey:** The textbook calls hockey Pakistan's national game and describes its proud sporting history.
2. **Hockey Titles:** Pakistan won Olympic gold in 1960, 1968, and 1984 and four men's Hockey World Cups.
3. **Cricket:** Cricket is widely followed and brings people from different regions together.
4. **Cricket Titles:** Major wins include the 1992 ODI World Cup, 2009 T20 World Cup, and 2017 Champions Trophy.
5. **Squash:** Hashim Khan, Jahangir Khan, Jansher Khan, and Qamar Zaman brought Pakistan worldwide recognition.

S114. Suggest five measures to develop traditional and modern sports in Pakistan.

PS-10-D2-02

1. **Facilities:** Provide safe grounds, equipment, and playing spaces in schools and communities.
2. **Coaching:** Train coaches and give children regular chances to learn and improve.
3. **Fair Selection:** Choose players by ability and performance, not personal connections.
4. **Equal Access:** Help girls, rural players, and persons with disabilities take part.

5. **Long-Term Support:** Hold regular competitions, maintain facilities, and support players instead of relying on short publicity events.

Long questions - 10 marks each

L037. Explain the importance of leisure and compare recreational activities in rural and urban Pakistan.

PS-10-D2-01

1. Health and Rest

Walking, games, and sport improve fitness, while reading, arts, and hobbies provide rest. Enjoyable activities reduce stress and help people balance work, study, and personal life.

2. Community and Culture

Shared activities create friendship and cooperation. Traditional games, music, festivals, and storytelling also pass cultural knowledge and skills to younger generations.

3. Rural Leisure

Villages commonly have kabaddi, wrestling, chopal gatherings, folk music, crafts, and melas. These activities use local spaces and bring families and nearby communities together.

4. Urban Leisure

Cities offer parks, clubs, gyms, theatres, libraries, restaurants, media, and organized events. The choices people can use still depend on money, time, safety, and available facilities.

5. Fair Access

Rural and urban activities overlap, especially in family celebrations, games, and media use. Safe, affordable facilities and respect for culture help girls, poor families, and other groups enjoy leisure too.

L038. Discuss the significance of sports and the different categories played in Pakistan.

PS-10-D2-02

1. Health and Character

Sports develop strength, stamina, coordination, and concentration. Training and competition teach discipline, fair play, confidence, and the ability to keep trying after failure.

2. Social and Economic Benefits

Sports bring people from different regions together and create national pride. Coaching, equipment, competitions, transport, and tourism also provide jobs and business.

3. Traditional Sports

Kabaddi, kushti, malakhra, and Rasa Kashi are part of local heritage. They encourage strength, skill, and teamwork and often need relatively simple facilities.

4. Popular International Sports

Hockey, cricket, and squash have brought Pakistan recognition, while football, boxing, tennis, and badminton also attract players. A sport can be internationally played and still have strong national importance.

5. Wider Opportunities

Athletics, martial arts, gymnastics, and snooker offer more choices for young people. Good grounds, trained coaches, fair selection, regular events, and equal access help develop talent for the future.

L039. Explain Pakistan's sporting heritage and propose measures to improve participation and performance.

PS-10-D2-02

1. Hockey Success

Pakistan won Olympic hockey gold in 1960, 1968, and 1984. It also won the men's World Cup in 1971, 1978, 1982, and 1994, creating a proud national record.

2. Cricket and Squash

Cricket titles include the 1992 ODI World Cup, 2009 T20 World Cup, and 2017 Champions Trophy. Hashim Khan, Jahangir Khan, Jansher Khan, and Qamar Zaman made Pakistan famous in squash.

3. Other Sports

Traditional wrestling and kabaddi remain important, while football, boxing, tennis, and athletics offer more opportunities. Supporting several sports helps children with different abilities and interests.

4. School and Community Sport

Provide safe grounds, equipment, trained coaches, and regular competitions. Affordable access for girls, rural players, and neglected areas creates a wider base of talent.

5. Good Management

Select players on merit, maintain facilities, provide steady funding, and protect players' welfare. Linking local sport with higher-level training supports both public health and lasting national success.

Grade 10 - Unit 3: Constitutional Development

NBF Grade 10, PDF/printed pp. 37-57; supplied combined framework pp. 7-9

SLO scope: PS-10-E1-01 to PS-10-E1-05

Short questions - 5 marks each

S115. Why did Pakistan need a constitution after independence?

PS-10-E1-01

1. **Basic Rules:** A constitution sets the main rules for running a country.
2. **Government Powers:** It explains the duties and limits of the President, Parliament, government, and courts.
3. **People's Rights:** It protects important rights and provides ways to challenge unfair treatment.
4. **Federal Relations:** It divides responsibilities between the centre and the provinces.
5. **National Direction:** It gives a stable legal framework and expresses the country's main values and aims.

S116. Why was the Government of India Act 1935 used temporarily after 1947?

PS-10-E1-01

1. **Immediate Need:** Pakistan needed working rules from the first day of independence.
2. **No New Constitution:** A complete Pakistani constitution had not yet been prepared.
3. **Existing System:** The Act already provided institutions and procedures familiar to administrators.
4. **Necessary Changes:** The Act was adapted for the needs of the new independent country.
5. **Temporary Arrangement:** It helped government continue while the Constituent Assembly prepared a permanent constitution.

S117. Why was constitution-making delayed in Pakistan?

PS-10-E1-01

1. **Early Problems:** Refugees, financial difficulties, and security disputes required urgent attention.
2. **Leadership Loss:** Quaid-e-Azam's death in 1948 and Liaquat Ali Khan's assassination in 1951 weakened continuity.
3. **Power Sharing:** Leaders disagreed over the powers of the centre and the provinces.
4. **Representation and Language:** East and West Pakistan differed over representation and the place of Bengali and Urdu.
5. **Political Conflict:** Disputes over authority and the dissolution of the first Constituent Assembly in 1954 delayed progress.

S118. Explain five main features of the Objectives Resolution.

PS-10-E1-02

1. **Sovereignty:** It stated that sovereignty belongs to Allah and public authority is a sacred trust.
2. **Elected Representatives:** The state would exercise power through representatives chosen by the people.
3. **Islamic Values:** Democracy, freedom, equality, tolerance, and social justice would guide the state according to Islam.
4. **Islamic Life:** Muslims would be enabled to live according to the Quran and Sunnah.
5. **Rights and Justice:** It called for minority protection, fundamental rights, a federal system, and an independent judiciary.

S119. Why is the Objectives Resolution important in Pakistan's constitutional history?

PS-10-E1-02

1. **Adoption:** Liaquat Ali Khan presented it, and the Constituent Assembly adopted it on 12 March 1949.
2. **Guiding Principles:** It gave constitution-makers a clear set of religious, democratic, and social aims.
3. **Islam and Democracy:** It connected Islamic values with elected government and public responsibility.
4. **Constitutional Preambles:** It became the preamble of the Constitutions of 1956, 1962, and 1973.
5. **Lasting Place:** Article 2A made its principles a substantive part of the Constitution in 1985.

S120. State five main features of the Constitution of 1956.

PS-10-E1-03

1. **Enforcement:** Pakistan's first constitution came into force on 23 March 1956 and named the country an Islamic Republic.
2. **Parliamentary System:** The Prime Minister headed the government, while the President was head of state.
3. **Federal System:** Powers were divided between the centre and the provinces of East and West Pakistan.
4. **One House:** The National Assembly was unicameral, with equal representation for the two wings.
5. **Rights and Languages:** It protected fundamental rights and recognized Urdu and Bengali as state languages.

S121. Explain five Islamic features of the Constitution of 1956.

PS-10-E1-03 / PS-10-E1-04

1. **Islamic Republic:** The country's name was the Islamic Republic of Pakistan.

2. **Objectives Resolution:** The Resolution formed its preamble and supplied Islamic guiding values.
3. **Muslim President:** The President had to be a Muslim.
4. **Laws and Islam:** Laws were to be brought into agreement with the Quran and Sunnah.
5. **Islamic Life and Protection:** The state was to support Islamic living and social justice while protecting minority rights.

S122. State five main features of the Constitution of 1962.

PS-10-E1-03

1. **Enforcement:** It came into force on 8 June 1962 during Ayub Khan's rule.
2. **Presidential System:** The President was both head of state and head of government, with strong executive powers.
3. **Federal Structure:** East and West Pakistan remained provinces, but the centre held strong authority.
4. **One House:** The country had a unicameral National Assembly.
5. **Indirect Elections:** Basic Democrats formed the electoral college for the President and the legislatures.

S123. Explain five Islamic features associated with the Constitution of 1962.

PS-10-E1-03 / PS-10-E1-04

1. **Islamic Guidance:** The Objectives Resolution appeared in its preamble.
2. **Country's Name:** It began as the Republic of Pakistan; an amendment restored the name Islamic Republic of Pakistan.
3. **Muslim President:** The President was required to be a Muslim.
4. **Islamic Institutions:** An Advisory Council of Islamic Ideology and an Islamic Research Institute supported Islamic guidance and study.
5. **Islamic Life and Laws:** Its Islamic arrangements, including amendments, promoted Islamic living and the conformity of laws with the Quran and Sunnah.

S124. State five main features of the Constitution of 1973.

PS-10-E1-03

1. **Enforcement:** It came into force on 14 August 1973 and established a federal parliamentary system.
2. **Prime Minister:** The Prime Minister heads the government and depends on National Assembly support.
3. **Two Houses:** Parliament includes the National Assembly and the Senate, giving both population and provinces a voice.
4. **Islamic Identity:** Pakistan is an Islamic Republic, and Islam is the state religion.
5. **Rights and Justice:** The Constitution protects fundamental rights and provides for the independence of the judiciary.

S125. Explain five Islamic features of the Constitution of 1973.

PS-10-E1-03

1. **State Religion:** Islam is declared the state religion of Pakistan.
2. **Muslim Leadership:** The President and Prime Minister are required to be Muslims.
3. **Islamic Laws:** Laws are to conform to the Quran and Sunnah.
4. **Islamic Guidance:** The Council of Islamic Ideology gives advice about bringing laws into line with Islamic teachings.
5. **Islamic Life and Rights:** The state promotes Islamic learning and social justice while providing protection for minority religious rights.

S126. Compare the Constitutions of 1956 and 1962 in five points.

PS-10-E1-04

1. **Government:** The 1956 Constitution was parliamentary; the 1962 Constitution was presidential.
2. **Executive:** The Prime Minister headed government in 1956; the President held that role under the 1962 system.
3. **Elections:** The 1956 design provided direct legislative elections; the 1962 system used indirect elections through Basic Democrats.
4. **Shared Features:** Both were written federal constitutions with a one-house National Assembly and Urdu and Bengali as state languages.
5. **Islamic Features:** Both required a Muslim President and used the Objectives Resolution; the 1962 system also created Islamic advisory and research institutions.

S127. Why did the Constitution of 1956 fail?

PS-10-E1-05

1. **Political Instability:** Frequent changes of government prevented a stable democratic system from developing.
2. **Power Struggles:** Conflict between political leaders and the head of state weakened institutions.
3. **Regional Disputes:** East-West disagreements and opposition to One Unit increased tension.
4. **Weak Electoral Support:** No general election was held under the Constitution before it was ended.
5. **Direct Abrogation:** President Iskander Mirza abolished it and imposed martial law on 7 October 1958.

S128. Why did the Constitution of 1962 fail?

PS-10-E1-05

1. **Concentrated Power:** The strong President and weak checks created dissatisfaction with one-person rule.

2. **Limited Public Choice:** Indirect elections through Basic Democrats reduced direct public participation in choosing national leadership.
3. **Regional Inequality:** Complaints about unequal development and limited provincial power increased, especially in East Pakistan.
4. **Public Opposition:** Political restrictions and growing protests weakened support for Ayub Khan's system.
5. **Direct Abrogation:** On 25 March 1969, Ayub transferred power to Yahya Khan, who imposed martial law and abrogated the Constitution.

Long questions - 10 marks each

L040. Trace the main stages of constitutional development in Pakistan from 1947 to 1973.

PS-10-E1-01

1. Temporary Rules

After independence, Pakistan used the adapted Government of India Act 1935. The Constituent Assembly had to prepare a new constitution while government continued under these temporary rules.

2. Objectives Resolution

The Assembly adopted the Objectives Resolution on 12 March 1949. It provided Islamic and democratic principles to guide constitution-making and the protection of rights.

3. Constitution of 1956

The second Constituent Assembly completed Pakistan's first constitution, enforced on 23 March 1956. It introduced an Islamic federal parliamentary republic but was abolished on 7 October 1958.

4. Constitution of 1962

Ayub Khan introduced a presidential constitution that took effect on 8 June 1962. Strong presidential control and indirect elections attracted criticism, and it was abrogated on 25 March 1969.

5. Constitution of 1973

After the 1971 crisis and an interim arrangement, a new constitution came into force on 14 August 1973. It restored parliamentary government and established a bicameral federal legislature.

L041. Explain the causes of delay in Pakistan's first constitution-making process.

PS-10-E1-01

1. Immediate National Problems

Pakistan faced refugee settlement, limited funds, and security disputes after independence. These urgent needs took attention and resources away from the slower work of reaching constitutional agreement.

2. Loss of Leadership

Quaid-e-Azam died in 1948, and Liaquat Ali Khan was assassinated in 1951. Their loss weakened continuity and made agreement among competing political groups harder.

3. Centre and Provinces

Leaders disagreed about how much power the centre and provinces should have. The demand for provincial autonomy had to be balanced against calls for a strong central government.

4. Representation and Language

East and West Pakistan differed over representation and recognition of their languages. Deciding how population and regional interests should be represented created difficult political arguments.

5. Political Conflict

Disputes over authority and the form of government slowed decisions. The Governor-General dissolved the first Constituent Assembly in 1954, so a second assembly had to complete the process.

L042. Explain the main principles and constitutional importance of the Objectives Resolution.

PS-10-E1-02

1. Adoption and Purpose

Liaquat Ali Khan presented the Resolution, adopted on 12 March 1949. It gave the Constituent Assembly guiding principles for the kind of state and constitution Pakistan should develop.

2. Sovereignty and Authority

It declared Allah's sovereignty and treated state authority as a sacred trust. Public power was to be exercised through the people's elected representatives and within prescribed limits.

3. Islamic and Democratic Values

It called for democracy, freedom, equality, tolerance, and social justice according to Islam. Muslims would be enabled to live according to the Quran and Sunnah.

4. Rights and Institutions

Minority religious and cultural rights and fundamental freedoms were to be protected. A federal order and an independent judiciary were also important parts of the proposed framework.

5. Lasting Influence

It became the preamble of Pakistan's later constitutions and influenced their principles. In 1985, Article 2A gave its principles a substantive place in the Constitution.

L043. Compare the main features and Islamic provisions of the Constitutions of 1956 and 1962.

PS-10-E1-03 / PS-10-E1-04

1. Government System

The 1956 Constitution gave Pakistan a parliamentary system with a Prime Minister. The 1962 Constitution made the President the chief executive and concentrated greater power in that office.

2. Representation and Elections

Both had a one-house National Assembly and an East-West framework. The 1956 design provided direct legislative elections, while the 1962 system used an electoral college of Basic Democrats.

3. Common Islamic Principles

Both included the Objectives Resolution in the preamble and required a Muslim President. Their Islamic provisions supported Islamic living and the conformity of laws with Islamic teachings.

4. Important Differences

The 1956 document called the state an Islamic Republic from the start. The 1962 Constitution initially used Republic of Pakistan, later restored Islamic Republic, and provided Islamic advisory and research institutions.

5. Assessment

Both aimed to combine a federal state with Islamic values, but their methods of political rule differed greatly. Stronger public participation and accountable institutions were needed for either arrangement to gain lasting trust.

L044. Explain the main parliamentary, federal, and Islamic features of the Constitution of 1973.

PS-10-E1-03

1. Parliamentary Government

The Prime Minister leads the government and must retain National Assembly support. The President is head of state and ordinarily acts on ministerial advice within the Constitution.

2. Federal Structure

The Constitution divides authority between the federation and provinces. This allows national government and provincial government to manage their respective responsibilities within one state.

3. Bicameral Parliament

Parliament includes the National Assembly and Senate. The Assembly represents the population, while the Senate gives provinces a role in federal law-making.

4. Islamic Provisions

Islam is the state religion, and the President and Prime Minister must be Muslims. Laws are to conform to the Quran and Sunnah, with advice from the Council of Islamic Ideology.

5. Rights and Justice

The Constitution protects fundamental rights and provides for an independent judiciary. Respect for minority rights, social justice, and lawful government is also important to its framework.

L045. Compare the reasons for the failure of the Constitutions of 1956 and 1962.

PS-10-E1-05

1. Political Weakness in 1956

Frequent government changes and struggles over power weakened parliamentary institutions. The Constitution lacked the stability and public support that regular democratic practice could have developed.

2. Regional Disputes

East-West disagreements and the One Unit arrangement created tension under the 1956 system. Under the 1962 system, complaints about central control and unequal development also weakened national trust.

3. Participation in 1962

Strong presidential powers and indirect elections through Basic Democrats limited public choice. Political restrictions encouraged opposition and demands for a more representative system.

4. Immediate Endings

Iskander Mirza abrogated the 1956 Constitution on 7 October 1958. Yahya Khan abrogated the 1962 Constitution on 25 March 1969 after Ayub transferred power during a political crisis.

5. Lessons

Both failures show the need for public participation, fair regional treatment, and respect for constitutional rules. Disagreements should be settled through lawful institutions rather than ending the constitutional system.

Grade 10 - Unit 4: Citizenship and Sustainable Society

NBF Grade 10, PDF/printed pp. 58-81; supplied combined framework pp. 7-9

SLO scope: PS-10-E2-01 to PS-10-E2-06

Short questions - 5 marks each

S129. Explain five features of the rule of law.

PS-10-E2-01

1. **Law Above Power:** Everyone, including government officials, must obey the law.
2. **Equal Treatment:** The same legal rules should apply fairly, without special treatment for wealth or influence.
3. **Clear Rules:** Laws should be known and clear so people understand their rights and duties.
4. **Fair Courts:** Courts should hear both sides and decide cases independently.
5. **Accountability:** People who misuse authority should face lawful investigation and action.

S130. Why is the rule of law important for democracy and development?

PS-10-E2-01

1. **Protects Rights:** Law helps protect people's lives, property, freedoms, and dignity.
2. **Limits Power:** Officials cannot properly act only according to personal wishes.
3. **Builds Trust:** Fair treatment gives citizens confidence in courts and public institutions.
4. **Supports Business:** Predictable rules help people invest, work, and settle business disputes.
5. **Keeps Peace:** Peaceful legal solutions reduce the need to use force or personal revenge.

S131. Suggest five ways to improve law and order in Pakistan.

PS-10-E2-01

1. **Better Policing:** Train police in investigation, evidence collection, and respectful treatment of the public.
2. **Timely Justice:** Reduce unnecessary court delays and provide legal help to those who cannot afford it.
3. **Control Corruption:** Apply clear rules and investigate misuse of authority without favouritism.
4. **Community Cooperation:** Build trust so people report crimes and work with lawful safety programmes.
5. **Education and Opportunity:** Improve education, awareness, and honest work opportunities to support long-term social peace.

S132. Explain the meaning and importance of voluntary community service.

PS-10-E2-02

1. **Free Choice:** A volunteer chooses to help rather than being forced to do so.
2. **No Main Profit Aim:** The main purpose is community benefit, not personal financial profit.
3. **Meeting Needs:** Volunteers can support education, health, cleanliness, and families facing hardship.
4. **Social Bonds:** Working together builds trust and friendship among people from different backgrounds.
5. **Personal Growth:** Volunteers learn teamwork, responsibility, communication, and concern for others.

S133. Give five examples of useful community service in Pakistan.

PS-10-E2-02 / PS-10-E2-06

1. **Education:** Help younger children with reading or organize a small book-donation activity.
2. **Cleanliness:** Join an approved clean-up of a school, street, park, or other shared space.
3. **Health Support:** Share verified health information and assist recognized welfare groups within one's training.
4. **Disaster Relief:** Help trusted organizations sort and distribute suitable relief supplies safely.
5. **Helping Neighbours:** Support older people and families in need with respectful, practical assistance.

S134. Plan a simple school-based community service project in five steps.

PS-10-E2-06

1. **Choose a Need:** Ask the school or community which problem needs practical help.
2. **Set a Goal:** Choose a clear task, such as collecting useful books for a reading corner.
3. **Organize the Team:** Obtain school approval, divide duties, and arrange time, materials, and safe working methods.
4. **Carry Out the Work:** Complete the task fairly and keep a record of donated items and expenses.
5. **Check the Result:** Ask who benefited, what improved, and how the activity can continue responsibly.

S135. How can community service develop responsible citizens?

PS-10-E2-02 / PS-10-E2-06

1. **Awareness:** Direct service helps people understand real problems faced by others.
2. **Responsibility:** Completing an agreed task teaches people to keep promises and care for shared spaces.
3. **Teamwork:** Volunteers learn to listen, plan together, and solve difficulties peacefully.

4. **Respect:** Working with different groups reduces prejudice and teaches the value of human dignity.
5. **Lasting Participation:** Seeing useful results encourages people to continue helping and supporting their community.

S136. Explain five ways in which Pakistani citizenship may be acquired under the law.

PS-10-E2-03

1. **Birth:** Citizenship can be acquired by birth in Pakistan, subject to the legal conditions and exceptions.
2. **Descent:** A child born abroad may acquire citizenship through a Pakistani parent, with registration required in some cases.
3. **Naturalization:** An eligible foreigner may apply after meeting the required residence and other legal conditions.
4. **Marriage Registration:** Eligible foreign women married to Pakistani citizens may apply under the relevant legal procedure; marriage alone is not enough.
5. **Registration of Minors:** Eligible minor children may be registered under the citizenship law and required procedures.

S137. Explain how citizenship can be lost and why legal conditions matter.

PS-10-E2-03

1. **Renunciation:** An eligible person may formally give up citizenship through the prescribed declaration and registration procedure.
2. **Deprivation:** Citizenship obtained through specified legal routes may be withdrawn on grounds allowed by law, such as fraud in obtaining it.
3. **Other Nationality:** Holding another nationality can affect status, but Pakistan permits dual nationality under specified arrangements and exceptions.
4. **No Automatic Loss:** Ordinary emigration or marriage to a foreigner does not by itself always end Pakistani citizenship.
5. **Legal Decision:** The Citizenship Act and proper official procedure determine the result; not every rule applies to every person.

S138. How do immigration, emigration, and marriage affect citizenship?

PS-10-E2-03

1. **Immigration:** Moving into a country may begin a lawful residence process, but does not automatically make a person a citizen.
2. **Naturalization:** A resident foreigner may later apply if the law's requirements are met.
3. **Emigration:** Moving abroad does not necessarily remove the original citizenship.
4. **Marriage:** Marriage may create an application route under some countries' laws; it does not grant citizenship automatically everywhere.

5. **Different Rules:** Citizenship and dual-nationality rules differ between countries, so the relevant law and registration process must be followed.

S139. Explain five advantages of a free and fair press.

PS-10-E2-04

1. **Public Information:** Reliable news helps people understand government decisions and community problems.
2. **Accountability:** Investigation can expose corruption, misuse of money, and failures in public services.
3. **Public Voice:** Media can raise concerns of poor, neglected, and minority groups.
4. **Better Debate:** Different viewpoints help citizens discuss proposals and make informed choices.
5. **Trust:** Accurate and balanced reporting reduces rumours and can build understanding between communities.

S140. Why are justice and equality important for a prosperous society?

PS-10-E2-04

1. **Human Dignity:** Fair treatment protects people from discrimination and abuse.
2. **Equal Opportunities:** Access to schools, jobs, and services helps people develop their abilities.
3. **Social Trust:** People cooperate more willingly when they believe decisions are fair.
4. **Economic Growth:** Fair rules and secure rights encourage productive work, business, and investment.
5. **National Stability:** Peaceful solutions and fewer unfair barriers reduce resentment and social conflict.

S141. State five duties of a responsible digital citizen.

PS-10-E2-05

1. **Check Information:** Verify a claim with reliable sources before sharing it.
2. **Protect Privacy:** Keep passwords and personal details safe, and respect other people's private information.
3. **Respect Others:** Avoid harassment, hate, insults, and unfair stereotypes.
4. **Use Content Honestly:** Credit original work and do not present copied material as your own.
5. **Act Safely:** Be careful with suspicious links, report abuse, and use trusted channels for important information.

S142. Explain five factors that can shape a media message.

PS-10-E2-05

1. **Economic:** Advertising, owners, and the wish to earn money can affect which stories receive attention.

2. **Political:** Political interests can influence what is shown, emphasized, or left out.
3. **Social:** Customs, beliefs, and stereotypes can shape how groups and events are presented.
4. **Historical:** Past events and shared memories can influence the meaning given to a present story.
5. **Aesthetic:** Images, music, colours, headlines, and camera angles can change how an audience feels about a message.

S143. How can students recognize misleading or one-sided online content?

PS-10-E2-05

1. **Check the Source:** Look for a named, reliable author or organization rather than trusting an unknown account.
2. **Check the Evidence:** Compare the claim with trustworthy sources and look for original documents or full context.
3. **Check Date and Images:** Old reports, edited pictures, or unrelated videos may be presented as new evidence.
4. **Notice Emotion and Interest:** Sensational language and hidden political or financial interests can influence a message.
5. **Seek Other Views:** Read different reliable accounts; repeated agreement within one online group is not proof.

Long questions - 10 marks each

L046. Explain the importance of the rule of law and suggest ways to improve law and order in Pakistan.

PS-10-E2-01

1. Meaning and Equality

The rule of law means that everyone, including officials, is governed by known legal rules. Wealth, position, or personal connections should not place anyone above the law.

2. Rights and Trust

Fair law protects life, property, dignity, and freedom from arbitrary treatment. When people trust lawful institutions, they can settle disagreements peacefully and take part confidently in public life.

3. Police and Investigation

Train police, improve evidence collection, and strengthen cooperation with communities. Honest and respectful policing helps prevent crime and encourages people to report problems.

4. Courts and Accountability

Reduce unnecessary delays, protect independent decisions, and provide access to legal help. Misuse of authority and corruption should be investigated through fair procedures.

5. Long-Term Peace

Education, public awareness, basic services, and productive work strengthen social stability. These measures support law enforcement, while clear rules help business and investment develop.

L047. Explain how voluntary work benefits both the community and the volunteer.

PS-10-E2-02

1. Meaning

Volunteering is freely chosen work mainly intended to help others without personal financial profit. It turns concern about a local problem into useful practical action.

2. Community Services

Volunteers can support learning, cleanliness, welfare, health awareness, and disaster relief. Their work complements public services and helps people whose needs may otherwise be missed.

3. Unity and Respect

Shared tasks bring different groups together and build trust. Working with people in difficulty teaches respect and reduces unfair assumptions about their lives.

4. Skills and Confidence

Planning, teamwork, communication, and problem-solving improve through practice. Completing a useful task also builds confidence and a sense of responsibility.

5. Lasting Participation

Good projects use safe methods, honest records, and feedback from those receiving help. These habits encourage continued service rather than short activities that ignore real community needs.

L048. Design and explain a practical community service project for students.

PS-10-E2-06

1. Identify the Need

Consult teachers and the intended users before choosing a task. For example, students may find that younger children need books and help with reading.

2. Set Clear Goals

Decide what the team can achieve with the time and materials available. A realistic goal could be a small reading corner with supervised weekly reading sessions.

3. Organize Safely

Obtain approval, divide duties, and agree on a schedule. Use safe activities suited to students' ages and record all donated books, money, and other materials honestly.

4. Complete the Project

Collect suitable books, arrange the space, and help children respectfully. Keep the service open fairly and work with the school instead of making promises the team cannot maintain.

5. Review and Continue

Ask whether children used the books and what support they still need. Improve the project using feedback and arrange care of the books so its benefits continue.

L049. Explain how citizenship may be acquired or lost, including the effects of migration and marriage.

PS-10-E2-03

1. Citizenship by Birth or Descent

Pakistani law provides routes through birth and through a Pakistani parent, subject to legal conditions. Children born abroad may need registration in some circumstances.

2. Citizenship by Application

Naturalization and specified registration routes allow eligible people to apply. Certain foreign wives of Pakistani citizens and eligible minors have application routes, but approval depends on the law and procedure.

3. Migration and Marriage

Immigration means moving into a country; emigration means moving out. Neither movement nor marriage automatically grants or removes citizenship in every case, because countries have different rules.

4. Loss of Citizenship

Eligible people may formally renounce citizenship, while the law also provides for deprivation in specified cases. For example, fraud in obtaining citizenship can have legal consequences through the proper process.

5. Dual Nationality and Care

Another nationality can affect citizenship, but permitted dual-nationality arrangements and other exceptions exist. A correct answer should therefore explain the routes without claiming that every foreign marriage or move abroad ends citizenship.

L050. Discuss how a free press, justice, and equality help a country develop.

PS-10-E2-04

1. Reliable Information

A free and fair press helps people learn about decisions, services, and public problems. Accurate reporting gives citizens a stronger basis for making choices and judging government performance.

2. Accountability

Journalists can investigate corruption and misuse of public resources. Courts and fair procedures help address wrongdoing, while public scrutiny encourages officials to explain their actions.

3. Justice and Rights

Justice protects human dignity and offers peaceful remedies against unfair treatment. People need real access to these remedies, including those without wealth or influence.

4. Equality and Opportunity

Fair access to education, work, healthcare, and public services allows more people to develop their talents. Reducing discrimination improves both individual well-being and national productivity.

5. Social Peace and Prosperity

Fair institutions and responsible media build trust and reduce resentment. Secure rights and clear rules also encourage business, cooperation, and investment needed for lasting development.

L051. Explain the challenges of digital citizenship and how a responsible user should deal with media influence.

PS-10-E2-05

1. False or Incomplete Information

Online posts may contain rumours, edited images, or old stories presented as new. Check the date, full context, original evidence, and reliable independent sources before sharing.

2. Economic and Political Interests

Advertisers, owners, and political groups may influence which messages are promoted. Ask who produced a message, who benefits, and what important information may be missing.

3. Social, Historical, and Visual Influence

Customs, stereotypes, past events, music, and images can shape reactions. Notice emotional presentation and consider whether groups are described fairly and evidence supports the story.

4. Online Safety and Respect

Protect passwords and private details, respect others, and credit original work. Avoid harassment, suspicious links, and sharing personal information without permission.

5. Open-Minded Participation

Online systems may repeatedly show views that match existing beliefs. Seek different reliable perspectives, correct mistakes, and report abuse so participation supports understanding rather than prejudice.

Grade 10 - Unit 5: Foreign Policy

NBF Grade 10, PDF/printed pp. 82-104; supplied combined framework pp. 7-9

SLO scope: PS-10-F1-01 to PS-10-F1-03

Short questions - 5 marks each

S144. What is foreign policy, and why does Pakistan need it?

PS-10-F1-01

1. **Meaning:** Foreign policy is a country's plan for dealing with other states and international bodies.
2. **Security:** Pakistan needs relationships and dialogue that help protect independence and national interests.
3. **Economic Needs:** Trade, investment, energy, and technology require cooperation beyond national borders.
4. **Peaceful Relations:** Diplomacy helps manage disagreements and reduce the danger of conflict.
5. **International Voice:** A clear policy allows Pakistan to explain its position and work with others on shared problems.

S145. Explain five guiding principles of Pakistan's foreign policy.

PS-10-F1-01

1. **Sovereignty:** Protect Pakistan's independence and respect the sovereign equality of other states.
2. **Non-Interference:** Avoid interfering in other countries' internal affairs and oppose aggression.
3. **Peaceful Settlement:** Use dialogue and other peaceful means to resolve international disputes.
4. **Friendship and Cooperation:** Build useful relations through trade, education, culture, and cooperation under international law.
5. **Muslim Solidarity and Rights:** Strengthen ties with Muslim countries and support legitimate rights of oppressed peoples.

S146. State five main objectives of Pakistan's foreign policy.

PS-10-F1-01

1. **National Security:** Protect independence, borders, and important national interests.
2. **Economic Progress:** Expand trade, investment, technology, and employment opportunities.
3. **Regional Peace:** Improve relations and manage conflicts with neighbouring countries.
4. **International Cooperation:** Work with states and organizations on peace, development, and common challenges.

5. **People and Identity:** Protect Pakistanis abroad and present Pakistan's values, interests, and culture responsibly.

S147. Explain five factors that shape Pakistan's foreign policy.

PS-10-F1-01

1. **Geography:** Borders, sea access, and the situation in nearby regions affect security and trade choices.
2. **History:** Partition, wars, and earlier relationships influence trust and national concerns.
3. **National Capacity:** Economic strength, defence, technology, and resources affect what Pakistan can achieve.
4. **Values and Public Opinion:** National ideals and public concerns influence policy aims and debate.
5. **World Conditions:** Other powers, international law, markets, and regional crises create opportunities and limits.

S148. Outline important changes in Pakistan's foreign-policy approach over time.

PS-10-F1-01

1. **Early Years:** After 1947, Pakistan focused on recognition, security, resources, and building foreign relations.
2. **Western Alliances:** In the 1950s it joined Western security arrangements and received military and economic assistance.
3. **Wider Partnerships:** During the 1960s, it strengthened ties with China and pursued relationships beyond one group of partners.
4. **Muslim and Regional Links:** After 1971, ties with Muslim countries and regional cooperation became important parts of its wider approach.
5. **Later Challenges:** Afghanistan, terrorism, economic needs, and changing major-power relations required repeated policy adjustments.

S149. Explain five reasons for Pakistan's geopolitical importance.

PS-10-F1-02

1. **Regional Position:** Pakistan lies where South Asia connects with routes towards Central Asia and the Middle East.
2. **Sea Access:** Arabian Sea ports connect inland areas with international shipping routes.
3. **China Link:** The north-eastern border and overland routes give access to China.
4. **Neighbouring Concerns:** Relations with India, Afghanistan, and Iran affect major regional security and commercial issues.
5. **Shared Challenges:** Trade, energy, refugees, terrorism, and disaster cooperation give Pakistan importance beyond its own borders.

S150. How do Pakistan's neighbours create both opportunities and challenges?

PS-10-F1-02 / PS-10-F1-03

1. **India:** A large nearby market offers trade possibilities, while Kashmir and security tensions make relations difficult.
2. **China:** Investment and transport links offer benefits, but projects need sound management, security, and affordable costs.
3. **Afghanistan:** Transit trade can help both countries, while border insecurity and refugee pressures require cooperation.
4. **Iran:** Border commerce and possible energy links offer opportunities, while security concerns and wider regional restrictions can limit them.
5. **Overall Lesson:** Good location becomes useful through peaceful relations, reliable infrastructure, fair agreements, and careful protection of national interests.

S151. Explain the main features and benefits of Pakistan-China relations.

PS-10-F1-03

1. **Diplomatic Partnership:** Long-standing consultation and mutual trust give both countries a regular channel for discussing important concerns.
2. **Economic Cooperation:** CPEC and other projects aim to improve infrastructure and commercial links.
3. **Trade:** China offers machinery, investment, and a large market, while Pakistani exports need quality and competitiveness.
4. **Defence and Technology:** Cooperation develops capabilities, technical knowledge, and training.
5. **People-to-People Links:** Education, scholarships, and cultural contacts help build skills and understanding beyond government relations.

S152. Explain the main issues and prospects in Pakistan-India relations.

PS-10-F1-03

1. **Historical Background:** Partition and repeated conflict have left mistrust between the two countries.
2. **Kashmir:** The unresolved dispute remains a major obstacle to stable and friendly relations.
3. **Security and Water:** Border incidents, terrorism concerns, and shared river issues require careful management and communication.
4. **Potential Benefits:** Trade, travel, cultural contacts, and cooperation could improve livelihoods and reduce tension.
5. **Way Forward:** Sustained dialogue, respect for rights, reliable agreements, and steps that build trust can support peaceful progress.

S153. Explain the main issues and prospects in Pakistan-Afghanistan relations.

PS-10-F1-03

1. **Social Links:** Shared history, communities, and movement across the border connect the two societies.
2. **Trade Routes:** Pakistan's ports and roads provide Afghanistan with access to sea trade.
3. **Security:** Terrorism and border-management concerns can harm trust and daily commerce.
4. **Humanitarian Needs:** Refugees, displacement, and economic hardship require humane cooperation and international support.
5. **Future Cooperation:** Clear border procedures, lawful trade, dialogue, and practical security cooperation can create benefits for both populations.

S154. Explain the main issues and prospects in Pakistan-Iran relations.

PS-10-F1-03

1. **Neighbourhood:** A shared border, religious connections, and cultural links create a basis for cooperation.
2. **Border Trade:** Legal markets and better transport can improve livelihoods in border communities.
3. **Energy Potential:** Iran's energy resources offer possible cooperation, subject to practical and legal conditions.
4. **Challenges:** Border insecurity, smuggling, and wider regional tensions can obstruct progress.
5. **Way Forward:** Regular dialogue, secure border arrangements, and lawful economic cooperation can strengthen mutual trust.

Long questions - 10 marks each

L052. Explain the need, main objectives, and guiding principles of Pakistan's foreign policy.

PS-10-F1-01

1. Need for Foreign Policy

No country can meet every security and economic need alone. Foreign policy guides Pakistan's relationships, protects national interests, and provides a clear way to respond to international problems.

2. Security and Sovereignty

Independence, territorial integrity, and national security are major objectives. Respect for other states' sovereignty, non-aggression, and non-interference are important guiding principles.

3. Economic and Human Needs

Trade, investment, energy, technology, and support for Pakistanis abroad improve national well-being. Useful partnerships should therefore create practical benefits rather than only diplomatic statements.

4. Peace and Cooperation

Dialogue and peaceful settlement reduce the risk of conflict. Pakistan also works through international organizations and shared rules to address issues that one country cannot solve alone.

5. Values and Assessment

Muslim solidarity, goodwill towards nations, and support for legitimate rights influence Pakistan's aims. Policy should be judged by how well it protects these interests while improving peace, stability, and development.

L053. Assess how Pakistan can make its foreign policy more effective while following its guiding principles.

PS-10-F1-01

1. Clear National Goals

Policy needs consistent aims based on security, public welfare, and economic development. Clear priorities help avoid decisions driven only by a short-term crisis or pressure from one partner.

2. Peaceful Relations

Keep communication open with neighbours and use lawful, peaceful methods to manage disagreements. Trust grows when promises and agreements are followed reliably rather than changed without explanation.

3. Stronger Domestic Capacity

Education, productive businesses, reliable energy, and good governance improve bargaining power. Foreign assistance can help, but it cannot replace a sound national economy and capable institutions.

4. Balanced Partnerships

Work with different partners according to shared interests without allowing dependence to weaken independence. Trade, training, technology, and cultural links should produce benefits that Pakistan can maintain over time.

5. Measured Results

Evaluate actual jobs, investment, security improvements, and progress in resolving problems. Protect sovereignty and rights while adapting methods when evidence shows that a policy is not meeting its goals.

L054. Assess Pakistan's geopolitical importance with reference to its neighbours and sea access.

PS-10-F1-02

1. Regional Junction

Pakistan links South Asia with routes towards Central Asia and the Middle East. This position creates commercial possibilities and attracts interest from states concerned with regional stability.

2. India and Regional Security

The eastern border and unresolved Kashmir dispute make Pakistan central to South Asian security. The two countries' nuclear capabilities increase the importance of avoiding escalation and keeping communication open.

3. China Connection

The north-eastern frontier and routes such as the Karakoram Highway connect Pakistan with China. CPEC-related projects aim to improve connectivity, though benefits depend on cost, demand, management, and security.

4. Afghanistan and Iran

Afghanistan gives Pakistan a role in transit and humanitarian issues, while Iran offers border-commerce and energy opportunities. Insecurity and wider regional tensions can also create serious pressures.

5. Arabian Sea and Evaluation

Ports connect inland routes with world shipping and nearby energy markets. Location provides potential, but reliable transport, peaceful diplomacy, and domestic development are needed to turn importance into lasting public benefits.

L055. Compare Pakistan's relations with China, India, Afghanistan, and Iran, and suggest ways to improve them.

PS-10-F1-03

1. China

The relationship includes diplomatic trust, infrastructure, trade, defence, and education. Transparent projects, secure movement, and competitive Pakistani products can help economic benefits become more balanced and lasting.

2. India

Kashmir, conflict, and security concerns have weakened trust. Dialogue, respect for rights, practical agreements, and peaceful contacts can reduce risks and create room for trade and cooperation.

3. Afghanistan

Social ties and transit trade connect the countries, while terrorism, border issues, and refugees cause difficulties. Clear procedures and practical security and humanitarian cooperation can improve everyday relations.

4. Iran

Cultural ties and a shared frontier provide a basis for commerce and possible energy cooperation. Border security and lawful projects should be managed carefully in view of wider regional conditions.

5. Common Approach

All relationships need regular communication, reliable agreements, and respect for national interests. Pakistan should judge progress through public safety, secure trade, lower tensions, and useful long-term cooperation.

L056. Explain how Pakistan's foreign-policy approach has changed in response to national and international conditions.

PS-10-F1-01 / PS-10-F1-03

1. Early State-Building

After 1947, Pakistan sought recognition, security, resources, and functioning international relationships. The effects of partition and limited national capacity strongly influenced these early priorities.

2. Western Alliances

During the 1950s, security concerns encouraged closer links with Western powers and defence arrangements. Assistance strengthened some capabilities but also created risks of dependence and disappointed expectations.

3. Wider Relations

Pakistan developed stronger ties with China and pursued broader partnerships during the 1960s. This showed the need to avoid relying entirely on one external source of support.

4. Regional and Muslim Cooperation

The changes after 1971 increased attention to Muslim-world ties and economic needs. Afghanistan and wider regional conflicts later added security, refugee, and diplomatic pressures.

5. Continuing Adjustment

Terrorism, changing major-power relations, and development needs require policy to adapt. The lasting test is whether changing methods serve sovereignty, peaceful relations, public welfare, and a stronger economy.

Grade 10 - Unit 6: Pakistan and International Organizations

NBF Grade 10, PDF/printed pp. 105-130; supplied combined framework pp. 7-9

SLO scope: PS-10-F2-01 to PS-10-F2-03

Short questions - 5 marks each

S155. Explain five main purposes of the United Nations.

PS-10-F2-01

1. **Peace and Security:** The UN seeks to prevent war and help manage threats to international peace.
2. **Friendly Relations:** It encourages respect, cooperation, and peaceful relations between countries.
3. **Human Rights:** It supports human dignity and protection against discrimination and abuse.
4. **Development:** It promotes cooperation on poverty, health, education, and other social and economic needs.
5. **Joint Action:** It provides a common forum where countries can discuss problems and coordinate practical responses.

S156. Name five main UN organs and explain one function of each.

PS-10-F2-01

1. **General Assembly:** All member states meet here to discuss global issues and make recommendations and other decisions within its powers.
2. **Security Council:** It has primary responsibility for international peace and security and may authorize peacekeeping and other measures.
3. **ECOSOC:** The Economic and Social Council coordinates discussion and cooperation on economic and social development.
4. **International Court of Justice:** It decides legal disputes between states within its jurisdiction and gives authorized advisory opinions.
5. **Secretariat:** Led by the Secretary-General, it carries out the UN's administrative and day-to-day work.

S157. Explain the purpose and present position of the UN Trusteeship Council.

PS-10-F2-01

1. **Original Aim:** It supervised trust territories as they moved towards self-government or independence.
2. **People's Welfare:** It reviewed conditions and progress in territories under the trusteeship system.
3. **Completion of Main Work:** Palau, the last remaining trust territory, became independent in 1994.

4. **Suspended Operations:** The Council suspended its regular operations on 1 November 1994.
5. **Still a Principal Organ:** It remains one of the six main UN organs; suspension did not abolish it.

S158. Explain five ways Pakistan participates in the United Nations.

PS-10-F2-01

1. **Membership:** Pakistan joined on 30 September 1947 and participates in discussion under the UN Charter.
2. **Diplomatic Voice:** It raises concerns about peace, development, rights, and issues such as Kashmir.
3. **Peacekeeping:** Pakistan supplies military, police, and other trained personnel to authorized missions.
4. **Development Cooperation:** It works with UN bodies on health, education, food security, refugees, and other needs.
5. **Relief and Recovery:** Pakistani personnel and institutions can support international humanitarian work, while Pakistan also cooperates with UN disaster assistance.

S159. Describe Pakistan's contribution to UN peacekeeping and disaster-related work.

PS-10-F2-01

1. **Long Service:** Pakistan's UN peacekeeping contribution began with a deployment to Congo in 1960.
2. **Civilian Protection:** Pakistani peacekeepers help protect civilians and support safer conditions within their mission's duties.
3. **Medical Help:** Medical personnel provide care and outreach where missions and circumstances allow.
4. **Practical Support:** Engineers and other personnel can repair routes and help communities facing floods or damaged infrastructure.
5. **Relief Coordination:** Assistance works best with UN and local agencies; not every Pakistani overseas relief effort is a UN peacekeeping operation.

S160. How can Pakistan help strengthen cooperation among SAARC countries?

PS-10-F2-02

1. **Trade:** Support practical steps that make lawful regional trade simpler and more reliable.
2. **Connectivity:** Improve suitable transport and communication links to reduce costs and travel barriers.
3. **People's Needs:** Work together on health, education, poverty reduction, and disaster preparedness.
4. **Cultural Contact:** Encourage learning, sports, and cultural exchange to build understanding between peoples.

5. **Respect for the Charter:** Build consensus on shared work; contentious bilateral disputes are excluded from formal SAARC discussions.

S161. Explain five obstacles to effective SAARC cooperation.

PS-10-F2-02

1. **Political Mistrust:** Tension between member states can interrupt meetings and joint work.
2. **Consensus Requirement:** Decisions need agreement among all members, so objections can slow action.
3. **Trade Barriers:** High costs, difficult procedures, and weak links can restrict regional commerce.
4. **Different Priorities:** Unequal resources and national interests can make common projects difficult.
5. **Limited Follow-Through:** Agreements produce little benefit without funding, implementation, and reliable public institutions.

S162. Explain five benefits of Pakistan's relations with OIC countries.

PS-10-F2-02

1. **Diplomatic Support:** OIC forums allow Pakistan to discuss shared concerns with Muslim-majority states.
2. **Economic Links:** Trade and investment can create markets, supplies, and employment.
3. **Education and Skills:** Scholarships, research, and training exchanges help develop knowledge and professional ability.
4. **Humanitarian Cooperation:** Member countries can work together on relief for people affected by conflict or disaster.
5. **Cultural Friendship:** Religious and historical connections can support tourism, people-to-people contact, and mutual understanding.

S163. Explain Pakistan's efforts through the OIC to highlight Muslim-world issues.

PS-10-F2-02

1. **Hosting Meetings:** Pakistan hosted the Lahore summit in 1974 and other important OIC meetings.
2. **Palestine:** It raises Palestinian rights, civilian protection, and the need for a just political settlement.
3. **Kashmir:** It seeks attention and diplomatic support on the rights and concerns of Kashmiris.
4. **Afghanistan:** It hosted the December 2021 extraordinary foreign ministers' meeting to mobilize humanitarian support.
5. **Joint Cooperation:** It supports dialogue, relief mechanisms, and common action while recognizing that political agreement and implementation remain necessary.

S164. Why has the UN found it difficult to resolve the Kashmir dispute?

PS-10-F2-03

1. **Different Positions:** India and Pakistan disagree over status, security, and the way forward.
2. **Implementation Disputes:** The demilitarization and other conditions linked to earlier UN proposals were not agreed and completed.
3. **Limited Enforcement:** The UN depends on states' cooperation and political support to put a settlement into effect.
4. **Mistrust and Violence:** Conflict and border tensions make negotiations and confidence-building harder.
5. **Wider Politics:** Major-power interests and competing world crises can reduce sustained pressure for an agreed solution.

S165. Why has the UN faced difficulties in supporting lasting peace in Afghanistan?

PS-10-F2-03

1. **Long Conflict:** Decades of war damaged institutions, infrastructure, trust, and everyday livelihoods.
2. **Internal Divisions:** Competing political, ethnic, and group interests have made an inclusive settlement difficult.
3. **Outside Rivalries:** Regional and international powers have pursued different interests, complicating common action.
4. **Security and Access:** Violence and restrictions can endanger workers and prevent help from reaching people.
5. **Weak Resources and Institutions:** Limited funds, economic hardship, and weak public services make recovery and lasting stability difficult.

S166. Why has the UN found it difficult to resolve the Palestine conflict?

PS-10-F2-03

1. **Major-Power Divisions:** Disagreement and Security Council vetoes have blocked proposed action.
2. **Difficult Implementation:** UN decisions need cooperation and practical backing; resolutions alone do not guarantee compliance.
3. **Unresolved Issues:** Disputes about territory, Jerusalem, refugees, security, and statehood remain major obstacles.
4. **Settlements and Mistrust:** Settlement expansion and repeated violence undermine trust and prospects for a lasting settlement.
5. **Political and Humanitarian Barriers:** Divisions among political actors and restricted humanitarian access make mediation, protection, and relief harder.

Long questions - 10 marks each

L057. Explain the purposes and functions of the six principal organs of the United Nations.

PS-10-F2-01

1. General Assembly

All member states have representation and discuss international problems. The Assembly makes recommendations and takes decisions within its powers, including important organizational and budget matters.

2. Security Council

It holds primary responsibility for international peace and security. It can address threats, authorize peacekeeping, impose sanctions, and take other action permitted by the Charter, though permanent-member vetoes can block substantive decisions.

3. Economic and Social Council

ECOSOC brings together discussion and cooperation on economic and social development. It helps coordinate work on issues such as poverty, education, health, and sustainable development.

4. International Court of Justice

The ICJ deals with legal disputes between states within its jurisdiction. It also gives advisory opinions when properly requested by authorized bodies, providing legal methods instead of force.

5. Secretariat and Trusteeship Council

The Secretariat, led by the Secretary-General, carries out day-to-day work and supports UN activities. The Trusteeship Council supervised trust territories and suspended regular operations in 1994 after the last trust territory became independent.

L058. Assess Pakistan's contribution to UN peacekeeping and humanitarian work, including disaster-related support.

PS-10-F2-01

1. Membership and Commitment

Pakistan joined the UN on 30 September 1947 and supports the Charter's goals. It contributes diplomatically and through practical work connected with peace, development, and humanitarian needs.

2. Peacekeeping Record

Pakistan began UN peacekeeping service in Congo in 1960 and has served in several missions. Military and police personnel help carry out authorized duties in difficult conflict-affected environments.

3. Protecting and Helping People

Peacekeepers can protect civilians, support safer movement, and provide medical outreach within their mandate. Engineers and other specialists also help restore routes and practical services.

4. Disaster and Relief Work

Pakistani personnel can assist communities affected by floods and damaged infrastructure in mission areas. Wider overseas relief may be bilateral or coordinated with humanitarian agencies, so it should not all be labelled UN peacekeeping.

5. Evaluation

Such work supports international trust and demonstrates practical responsibility, but danger and limited resources create real costs. Training, lawful conduct, civilian protection, and reliable coordination are needed for assistance to produce lasting benefits.

L059. Compare the opportunities and limits of Pakistan's cooperation with SAARC and OIC countries.

PS-10-F2-02

1. SAARC's Regional Purpose

SAARC links South Asian countries around shared development needs. Pakistan can gain from easier trade, transport, education, health work, and cultural contact with nearby societies.

2. SAARC's Limits

Political mistrust and the need for consensus can slow joint work. Its Charter excludes contentious bilateral issues from formal discussion, so it should not be treated as a tribunal for settling those disputes.

3. OIC Opportunities

OIC relations connect Pakistan with a wider group of Muslim-majority countries. Trade, investment, education, relief, and cultural ties can produce useful economic and social benefits.

4. Shared Diplomatic Concerns

Pakistan raises Palestine, Kashmir, and humanitarian needs such as Afghanistan through OIC forums. Joint attention can increase diplomatic support, but statements do not by themselves resolve a conflict.

5. Practical Assessment

Both forms of cooperation need reliable agreements, funding, and implementation. Progress should be judged by better livelihoods, useful services, reduced barriers, and lasting trust rather than only meetings or declarations.

L060. Evaluate Pakistan's role in highlighting Muslim-world issues through the OIC.

PS-10-F2-02

1. Participation and Hosting

Pakistan is a founding OIC member and has hosted major meetings, including the Lahore summit of 1974. Hosting allows consultation and helps bring common concerns before a wider group of states.

2. Palestine and Kashmir

Pakistan seeks attention to rights, civilian protection, and peaceful, just settlements. The OIC gives it a platform for diplomatic discussion and support, though the parties and international actors still influence outcomes.

3. Afghanistan Assistance

Islamabad hosted the extraordinary foreign ministers' session in December 2021 on Afghanistan's humanitarian situation. Its outcomes included support for mechanisms to channel relief, including a humanitarian trust fund.

4. Cooperation beyond Disputes

Relations also include education, trade, investment, culture, and assistance after disasters. These practical links help ordinary people and make solidarity more useful than statements alone.

5. Strengths and Limits

Pakistan can convene discussion and support collective positions, but members have different interests and resources. Effective results require agreement, suitable funding, respect for rights, and follow-through by the relevant actors.

L061. Analyze the reasons for the UN's limited success in resolving the Kashmir dispute.

PS-10-F2-03

1. Conflict over the Settlement

India and Pakistan have maintained different views on Kashmir's status and the process for resolving it. These differences make a mutually accepted political settlement difficult.

2. Problems with Earlier Proposals

UN proposals involved steps including demilitarization and conditions for a plebiscite. Disagreement over the sequence and fulfillment of these conditions prevented the process from being completed.

3. Limits of UN Action

The UN can offer discussion, observation, and diplomatic support, but implementation depends on member-state cooperation and relevant authority. Monitoring a ceasefire does not itself decide the region's future.

4. Mistrust and Security

Wars, violence, and border tensions weaken confidence and make compromise politically difficult. Measures to protect people and reduce escalation are necessary alongside discussion of the main dispute.

5. International Politics

Major powers have different priorities, and attention also shifts towards other crises. Lasting progress needs sustained engagement, respect for rights, and political willingness to reach and carry out a peaceful agreement.

L062. Analyze the difficulties faced by the UN in supporting peace and stability in Afghanistan.

PS-10-F2-03

1. Effects of Long War

Repeated conflict destroyed infrastructure, displaced people, and weakened institutions. These losses make it difficult to provide services and rebuild the trust needed for lasting peace.

2. Internal Political Divisions

Groups have differed over leadership, authority, rights, and participation. A settlement that excludes major parts of society is less likely to gain broad support and last.

3. Regional and External Interests

Neighbours and major powers have pursued different security and political aims. Rivalry and distrust can obstruct a common international approach and encourage competing local groups.

4. Security, Access, and Rights

Violence, threats, and restrictions can block humanitarian work and harm vulnerable people. The UN must seek safe access while addressing protection needs and respect for human rights.

5. Economic and Institutional Weakness

Poverty, limited funding, weak services, and poor governance slow recovery. Relief is essential, but lasting stability also needs capable institutions, livelihoods, inclusive decisions, and sustained cooperation.

L063. Analyze the obstacles faced by the UN in resolving the Palestine conflict.

PS-10-F2-03

1. Major-Power Politics

Different interests and the use or threat of Security Council vetoes can block common action. Without a united approach, diplomatic pressure and practical enforcement are weaker.

2. Implementation Problems

UN resolutions do not automatically produce compliance on the ground. Effective action depends on the type of decision, available authority, resources, and cooperation from relevant states and parties.

3. Disputed Final Issues

Territory, borders, Jerusalem, refugees, security, and Palestinian statehood remain difficult questions. Settlement expansion in occupied territory further complicates the prospect of an agreed solution.

4. Violence and Political Divisions

Repeated attacks and civilian suffering deepen mistrust and make talks harder. Divisions among political actors can also prevent a clear and lasting agreement from being reached.

5. Humanitarian and Political Needs

Restricted access and insecurity make protection and relief difficult. A lasting settlement needs respect for international law and human rights, practical implementation, and sustained commitment rather than declarations alone.

Constitution and organizations - quick facts

Use these facts with the full answers. The constitutional comparisons describe the systems taught in the textbook; later amendments should not be confused with the features originally adopted.

Event / term	Fact to remember
Objectives Resolution	Adopted 12 March 1949. Article 2A gave its principles a substantive constitutional place in 1985.
1956 Constitution	Enforced 23 March 1956; federal parliamentary system; one-house legislature.
End of 1956 Constitution	Abrogated by Iskander Mirza on 7 October 1958.
1962 Constitution	Promulgated 1 March 1962; enforced 8 June 1962; presidential system and indirect elections.
End of 1962 Constitution	Abrogated on 25 March 1969 during the transfer to Yahya Khan.
1973 Constitution	Enforced 14 August 1973; federal parliamentary system with National Assembly and Senate.
UN and Pakistan	UN established 24 October 1945; Pakistan joined 30 September 1947. Pakistan was not a founding UN member.
Six UN organs	General Assembly; Security Council; ECOSOC; ICJ; Secretariat; Trusteeship Council.
Trusteeship Council	Regular operations suspended on 1 November 1994; it remains a principal organ.
Pakistan peacekeeping	First deployment: Congo, 1960.
SAARC	Established in Dhaka on 8 December 1985; cooperation requires consensus.
OIC	Established at Rabat in 1969; Pakistan hosted its second summit in Lahore in 1974.
Citizenship	Immigration, emigration, or marriage does not automatically grant or remove citizenship in every case.

The 5-mark and 10-mark labels are this question bank's practice format. Follow the official paper pattern and instructions issued for the examination you are taking.

Important words in easy English

Learn these words because they may appear in exam questions. Use the simple meaning to understand the answer.

Exam word	Easy meaning
Ideology	A set of beliefs and aims that guides a nation.
Economic deprivation	Lack of money, jobs, and chances to improve life.
Representation	Having a voice through people who speak or act for a group.
Separate electorates	A system in which a community elects its own representatives.
Safeguards	Rules or arrangements that protect rights and interests.
Autonomy	Power to manage one's own affairs.
Federation	A country in which powers are shared between central and provincial governments.
Self-determination	The right of a people to decide their own political future.
Topography	The shape and features of land, such as mountains and plains.
Vegetation	Plants growing in an area.
Precipitation	Water falling from clouds as rain, snow, or hail.
Rain shadow	A dry area on the side of a mountain away from moist winds.
Waterlogging	Too much water in soil, reducing air around plant roots.
Salinity	Too much salt in soil or water.
Aquifer	Underground rock or material that stores and carries groundwater.
Migration	Movement of people from one place to another.
Transhumance	Seasonal movement between high summer and low winter pastures.
Subsistence farming	Farming mainly to feed the farmer's family.
Aquaculture	Raising fish or other water organisms under managed conditions.
Foreign exchange	Money earned from abroad, used to pay for overseas purchases and needs.
Cultural diversity	Different cultures living within the same society.
National integration	People feeling united and working together as one nation.
Globalization	Growing links between countries through trade, travel, media, and technology.
Social stratification	Ranking people in higher and lower social groups.
Social mobility	Moving from one social position to another, often through education or work.

Exam word	Easy meaning
Sustainable development	Improving life today while protecting resources needed in the future.
Constitution	The main rules for governing a country and protecting rights.
Preamble	The introduction stating a document's aims and guiding ideas.
Parliamentary system	Government led by a Prime Minister who depends on parliamentary support.
Presidential system	Government in which the President is the chief executive.
Unicameral / bicameral	A legislature with one house / a legislature with two houses.
Abrogation	Formally ending or abolishing a constitution or legal rule.
Rule of law	Everyone, including officials, is governed by known laws.
Volunteering	Freely chosen work mainly intended to help others.
Citizenship	Legal membership of a country, with rights and responsibilities.
Naturalization	A legal route through which an eligible foreigner may become a citizen.
Renunciation	Formally giving up citizenship through the required legal process.
Digital citizen	A person who uses technology and online spaces responsibly.
Foreign policy	A country's plan for dealing with other countries and international bodies.
Diplomacy	Managing relations through discussion and negotiation.
Sovereignty	A state's independence and authority over its own affairs.
Geopolitics	How location and other geographical features affect relations between countries.
Veto	A permanent Security Council member's negative vote that can block a substantive Council decision.
Peacekeeping	Authorized activities intended to support peace and protect people within a mission's duties.

Map practice

Use the political and physical maps in your textbook. Practise placing these names correctly; explain their importance if the question asks for it.

Name	Where to find it
Arabian Sea	Along the southern coast.
China / India	China is north-east; India is east.
Afghanistan / Iran	Afghanistan is west and north-west; Iran is south-west.
Karakoram / K2	Far northern and north-eastern mountains; K2 is in the Karakoram.
Hindu Kush / Tirich Mir	North-western mountains around Chitral.
Himalaya / Nanga Parbat	Northern mountain system; Nanga Parbat is a Himalayan peak.
Sulaiman / Kirthar	Sulaiman lies west of the Indus region; Kirthar is along the Sindh-Balochistan region.
Balochistan Plateau	South-western Pakistan.
Potwar / Salt Range	Northern Punjab; the Salt Range is along the southern side of Potwar.
Indus and its plain	The river flows south; the broad plain extends through Punjab and Sindh.
Jhelum, Chenab, Ravi, Sutlej	Locate these rivers in the Punjab river system using the textbook map.
Thal / Cholistan / Thar / Kharan	Thal and Cholistan are in Punjab; Thar is in south-eastern Sindh; Kharan is in Balochistan.
Indus Delta / Makran Coast	The delta is near the river mouth in Sindh; Makran lies farther west in Balochistan.

137 solved MCQs

Choose an answer first. Then read the correct answer and its easy reason. All MCQs remain within the included syllabus.

M001. What does the term ideology mainly describe?

PS-09-A1-01

A. A weather pattern

B. A list of natural resources

C. A system of ideas, values, and aims

D. A transport network

Answer: C - A system of ideas, values, and aims.
An ideology gives people shared beliefs and goals.

M002. Which value best reflects the ideological demand for fair opportunities?

PS-09-A1-01

A. Economic exclusion

B. Social justice

C. Hereditary privilege

D. Racial superiority

Answer: B - Social justice.
Social justice means fair treatment and fair chances.

M003. Why did economic deprivation strengthen Muslim political demands?

PS-09-A1-01

A. It encouraged demands for representation and economic fairness

B. It guaranteed equal access to jobs

C. It removed educational disadvantage

D. It ended dependence on landowners

Answer: A - It encouraged demands for representation and economic fairness.
Hardship made Muslims demand rights and better economic conditions.

M004. Which idea is linked most closely with Iqbal's Khudi?

PS-09-A1-02

A. Inherited political office

B. Rejection of learning

C. Passive dependence

D. Self-realization and purposeful development

Answer: D - Self-realization and purposeful development.
Khudi teaches self-respect, confidence, and personal growth.

M005. Quaid-e-Azam's address of 11 August 1947 emphasized which principle?

PS-09-A1-02

A. Hereditary political power

B. Freedom of worship and equal citizenship

C. Denial of minority rights

D. Compulsory single-language households

Answer: B - Freedom of worship and equal citizenship.
The speech supported freedom of religion and equal treatment.

M006. Direct British Crown rule in India began in which year?

PS-09-A1-03

A. 1858

B. 1906

C. 1935

D. 1757

Answer: A - 1858.
The British Crown took direct control after the events of 1857.

M007. Sir Syed's Scientific Society was established in which year?

PS-09-A1-04

A. 1877

B. 1906

C. 1920

D. 1864

Answer: D - 1864.
The Scientific Society began in 1864 to spread useful knowledge.

M008. The Muhammadan Anglo-Oriental College at Aligarh was established in which year?

PS-09-A1-04

A. 1877

B. 1858

C. 1940

D. 1916

Answer: A - 1877.
MAO College opened at Aligarh in 1877.

M009. The Simla Deputation met which Viceroy in 1906?

PS-09-A1-05

A. Lord Minto

B. Lord Mountbatten

C. Lord Curzon

D. Lord Wavell

Answer: A - Lord Minto.
The delegation met Lord Minto on 1 October 1906.

M010. Who led the Simla Deputation?

PS-09-A1-05

A. Motilal Nehru

B. Ramsay MacDonald

C. Aga Khan

D. Stafford Cripps

Answer: C - Aga Khan.
Aga Khan led the Muslim representatives.

M011. Where was the All-India Muslim League founded?

PS-09-A1-05

A. Delhi

B. Lahore

C. Karachi

D. Dhaka

Answer: D - Dhaka.
The League was founded at Dhaka on 30 December 1906.

M012. Which reforms recognized separate Muslim electorates in 1909?

PS-09-A1-05

A. Cabinet Mission Plan

B. Montagu-Chelmsford Reforms

C. 3 June Plan

D. Morley-Minto Reforms

Answer: D - Morley-Minto Reforms.
The reforms of 1909 accepted separate Muslim electorates.

M013. The Lucknow Pact was concluded in which year?

PS-09-A1-05

A. 1946

B. 1916

C. 1906

D. 1928

Answer: B - 1916.
Congress and the League signed the Lucknow Pact in 1916.

M014. What share of central legislative seats did the Lucknow Pact envisage for Muslims?

PS-09-A1-05

A. One-third

B. Three-quarters

C. One-half

D. One-tenth

Answer: A - One-third.
One-third central representation was an important Muslim safeguard.

M015. The Khilafat Movement mainly sought to protect which institution?

PS-09-A1-05 / PS-09-A1-06

A. The Ottoman Caliphate

B. The East India Company

C. The Indian Civil Service

D. The League of Nations

Answer: A - The Ottoman Caliphate.
The movement tried to protect the Ottoman Caliphate after the war.

M016. What decisive change removed the Khilafat Movement's original main aim?

PS-09-A1-06

A. The Lahore Resolution

B. Abolition of the Caliphate in Turkey

C. Formation of the Muslim League

D. Creation of PTV

Answer: B - Abolition of the Caliphate in Turkey.
Turkey abolished the Caliphate in 1924.

M017. Why was the Simon Commission widely opposed?

PS-09-A1-06

A. It had no British members

B. It included no Indian member

C. It immediately partitioned India

D. It abolished every legislature

Answer: B - It included no Indian member.
Indians objected because no Indian was included.

M018. Who chaired the committee associated with the Nehru Report of 1928?

PS-09-A1-06

A. Motilal Nehru

B. Jawaharlal Nehru

C. Lord Minto

D. Aga Khan

Answer: A - Motilal Nehru.
Motilal Nehru chaired the committee that prepared the report.

M019. Quaid-e-Azam presented his Fourteen Points in which year?

PS-09-A1-06

A. 1939

B. 1929

C. 1919

D. 1947

Answer: B - 1929.
Jinnah presented the points in 1929 after disagreement over the Nehru Report.

M020. Iqbal delivered the Allahabad Address in which year?

PS-09-A1-06

A. 1930

B. 1924

C. 1906

D. 1946

Answer: A - 1930.
Iqbal gave this important address in 1930.

M021. The Day of Deliverance was observed on which date?

PS-09-A1-06

A. 22 December 1939

B. 1 October 1906

C. 14 August 1947

D. 23 March 1940

Answer: A - 22 December 1939.
The day followed the resignation of Congress ministries in 1939.

M022. Who moved the Lahore Resolution?

PS-09-A1-07

A. Ramsay MacDonald

B. Stafford Cripps

C. Lord Wavell

D. A. K. Fazlul Huq

Answer: D - A. K. Fazlul Huq.
Fazlul Huq presented the resolution at Lahore.

M023. The Lahore Resolution was presented on which date?

PS-09-A1-07

A. 23 March 1940

B. 30 December 1906

C. 22 December 1939

D. 3 June 1947

Answer: A - 23 March 1940.
23 March 1940 is the main date linked with the Lahore Resolution.

M024. How many Muslim central legislative seats did the League win in the 1945 election?

PS-09-A1-07

A. All 30

B. Only 5

C. Half of 30

D. None

Answer: A - All 30.
The League won every Muslim central seat, strengthening its claim to represent Muslims.

M025. Which plan proposed a limited union and three provincial groups in 1946?

PS-09-A1-07

A. Cabinet Mission Plan

B. Lucknow Pact

C. Simla Deputation

D. community Award

Answer: A - Cabinet Mission Plan.
The Cabinet Mission proposed a limited union and three provincial groups.

M026. Which Viceroy announced the 3 June Plan?

PS-09-A1-07

A. Lord Minto

B. Lord Ripon

C. Lord Mountbatten

D. Lord Curzon

Answer: C - Lord Mountbatten.
Mountbatten announced the partition plan in 1947.

M027. Pakistan is situated in which hemispheres?

PS-09-B1-01

A. Northern and Western

B. Southern and Eastern

C. Northern and Eastern

D. Southern and Western

Answer: C - Northern and Eastern.
Pakistan is north of the Equator and east of the prime meridian.

M028. Which country lies to Pakistan's north-east?

PS-09-B1-01

A. China

B. Nepal

C. Iran

D. Sri Lanka

Answer: A - China.
China borders Pakistan to the north-east.

M029. Which sea lies along Pakistan's southern coast?

PS-09-B1-01 / PS-09-B1-02

A. Arabian Sea

B. Red Sea

C. Mediterranean Sea

D. Caspian Sea

Answer: A - Arabian Sea.
The Arabian Sea connects Pakistan with the Indian Ocean.

M030. Which feature separates Pakistan from Tajikistan?

PS-09-B1-02

A. Afghanistan's Wakhan Corridor

B. The Salt Range

C. The Indus Delta

D. The Thal Desert

Answer: A - Afghanistan's Wakhan Corridor.
Afghanistan's Wakhan Corridor lies between Pakistan and Tajikistan.

M031. K2 is located in which mountain range?

PS-09-B2-01

A. Kirthar

B. Sulaiman

C. Karakoram

D. Salt Range

Answer: C - Karakoram.
K2 is a peak in the Karakoram range.

M032. Tirich Mir is associated with which range?

PS-09-B2-01

A. Makran Coast Range

B. Kirthar

C. Hindu Kush

D. Salt Range

Answer: C - Hindu Kush.
Tirich Mir is in the Hindu Kush range.

M033. Which physical region best supports extensive canal-irrigated cultivation?

PS-09-B2-02

A. Highest glacier zone

B. Indus Plain

C. Dry rocky ridge without water

D. Steep mountain summit

Answer: B - Indus Plain.
Flat fertile land and irrigation support large farms in the Indus Plain.

M034. Which vegetation is suited to saline tidal coastal environments?

PS-09-B2-03

A. Temperate orchard only

B. High-altitude conifers

C. Mangroves

D. Alpine meadow

Answer: C - Mangroves.
Mangroves can grow in suitable salty coastal areas.

M035. Why do mountains increase transport construction costs?

PS-09-B2-04

A. They guarantee snow-free travel

B. They eliminate bridge requirements

C. They require difficult engineering and slope protection

D. They make every route straight and level

Answer: C - They require difficult engineering and slope protection.
Steep mountains need costly bridges, tunnels, and slope protection.

M036. Which factor generally lowers temperature in Pakistan's highlands?

PS-09-B3-01

A. Greater port capacity

B. Higher urban population alone

C. Greater distance below sea level

D. Increasing altitude

Answer: D - Increasing altitude.
Places at greater height are generally cooler.

M037. What creates the summer monsoon's landward movement of moist air?

PS-09-B3-01

A. Higher summer pressure over hot land than cool sea

B. Rapid land heating and relatively low pressure over land

C. Permanent snow cover over the plains

D. Complete absence of evaporation

Answer: B - Rapid land heating and relatively low pressure over land.
Hot land creates relatively low pressure that draws moist air inland.

M038. Western depressions mainly bring which useful seasonal rain or snow?

PS-09-B3-01

A. Only summer desert dust

B. No rain or snow

C. Winter rain and mountain snow

D. Year-round tropical downpours everywhere

Answer: C - Winter rain and mountain snow.
Western depressions are an important source of cool-season rain and snow.

M039. Relief rainfall is directly caused by which process?

PS-09-B3-01

A. Moist air being forced up a mountain slope

B. Removal of all atmospheric moisture

C. Air sinking and warming throughout ascent

D. Underground water pumping

Answer: A - Moist air being forced up a mountain slope.
Mountains force moist air upwards, where it cools and forms rain clouds.

M040. Which condition is typical of an arid climate?

PS-09-B3-03

A. No evaporation

B. Daily heavy rain throughout the year

C. Permanent freezing at sea level

D. Low rainfall and high moisture shortage

Answer: D - Low rainfall and high moisture shortage.
Dry regions receive too little reliable rain compared with their water loss.

M041. Which action can increase flood runoff?

PS-09-B3-04

A. Protection of drainage routes

B. Carefully planned infiltration

C. Maintenance of vegetation cover

D. Deforestation

Answer: D - Deforestation.
Fewer trees allow more rainwater to flow quickly over the ground.

M042. Which response best reduces drought risk?

PS-09-B3-04

A. Unrestricted groundwater use until supplies fall

B. Wasting irrigation water

C. Water conservation and suitable drought-tolerant crops

D. Removing all storage

Answer: C - Water conservation and suitable drought-tolerant crops.
Saving water and using suitable crops reduce losses during drought.

M043. Tarbela Dam is built on which river?

PS-09-C1-01 / PS-09-C1-03

A. Ravi

B. Jhelum

C. Sutlej

D. Indus

Answer: D - Indus.
Tarbela Dam is on the Indus River.

M044. Mangla Dam is built on which river?

PS-09-C1-01 / PS-09-C1-03

A. Indus

B. Kabul

C. Jhelum

D. Ravi

Answer: C - Jhelum.
Mangla Dam is on the Jhelum River.

M045. What is an aquifer?

PS-09-C1-01

A. A mountain pass

B. A water-bearing underground geological formation

C. A type of crop pest

D. A ship-loading machine

Answer: B - A water-bearing underground geological formation.
An aquifer is underground rock or material that stores and carries groundwater.

M046. What commonly causes soil salinity in poorly drained irrigated land?

PS-09-C1-02

A. Permanent absence of irrigation

B. Increased root aeration alone

C. Accumulation of salts as water evaporates

D. Removal of every dissolved salt by evaporation

Answer: C - Accumulation of salts as water evaporates.
Water evaporates but leaves dissolved salts in the soil.

M047. Which structure primarily raises river level to divert water into canals?

PS-09-C1-03

A. Cold store

B. Barrage

C. Mountain pass

D. Airport terminal

Answer: B - Barrage.
Barrage gates control water level and direct flow into canals.

M048. A village resident moves to a city because it offers better jobs. The jobs are a:

PS-09-C2-02

A. Rural climatic zone

B. Pull factor

C. Birth-rate measure

D. Seasonal crop disease

Answer: B - Pull factor.
A pull factor is something attractive at the place people move to.

M049. Seasonal movement between high summer and low winter pastures is called:

PS-09-C2-02

A. Urban congestion

B. Transhumance

C. Aquaculture

D. Land reclamation

Answer: B - Transhumance.
Transhumance is seasonal movement between high and low pastures.

M050. Which measure directly develops youth employability?

PS-09-C2-03

A. Excluding youth from education

B. Ignoring labour-market needs

C. Removing all career guidance

D. Relevant skills training and apprenticeships

Answer: D - Relevant skills training and apprenticeships.
Practical training linked to available work improves job chances.

M051. Which item is a farming process rather than an input?

PS-09-C3-01

A. Capital

B. Land

C. Seed

D. Harvesting

Answer: D - Harvesting.
Harvesting is a farming activity, while land, seeds, and money are inputs.

M052. What is the main purpose of subsistence farming?

PS-09-C3-01

A. Meeting the farm household's needs

B. Replacing all food with minerals

C. Operating international airlines

D. Producing only for foreign buyers

Answer: A - Meeting the farm household's needs.
Subsistence farming mainly feeds the farm family.

M053. Which is a typical Rabi crop?

PS-09-C3-02

A. Cotton

B. Rice

C. Sugarcane

D. Wheat

Answer: D - Wheat.
Wheat is normally grown in the cooler Rabi season.

M054. Which crop can function as both a food crop and an export cash crop?

PS-09-C3-02

A. Rock salt

B. Rice

C. Raw cotton fibre

D. Tobacco leaves

Answer: B - Rice.
Rice is eaten as food and also sold for income or exports.

M055. Which industry receives its main fibre raw material from cotton?

PS-09-C3-03

A. Ship repair

B. Textiles

C. Copper mining

D. Air traffic control

Answer: B - Textiles.
Cotton fibre is made into yarn and cloth.

M056. Which practice means growing different crops in sequence on the same land?

PS-09-C3-03

A. Unrestricted fishing

B. Permanent overgrazing

C. Crop rotation

D. Unplanned urban sprawl

Answer: C - Crop rotation.
Changing crops in turn helps manage soil fertility and pests.

M057. Converting fertile farmland into unplanned housing directly causes:

PS-09-C3-04

A. Loss of productive agricultural land

B. An automatic rise in crop area

C. Elimination of food demand

D. More irrigation water for every farmer

Answer: A - Loss of productive agricultural land.
Building houses on farmland removes that land from crop production.

M058. Raising fish in managed ponds is called:

PS-09-C3-01

A. Monsoon circulation

B. Transhumance

C. Silviculture only

D. Aquaculture

Answer: D - Aquaculture.
Aquaculture means raising fish or other water organisms under managed conditions.

M059. Why should fishing be restricted during spawning seasons?

PS-09-C3-03 / PS-09-C3-04

A. To prevent all fish growth

B. To remove every mature fish

C. To protect reproduction and future stocks

D. To increase destruction of nursery habitats

Answer: C - To protect reproduction and future stocks.
Protecting breeding allows fish populations to grow again.

M060. Which mode is generally suitable for large long-distance bulk freight on established inland routes?

PS-09-C4-03

A. Helicopter taxi

B. Rail

C. Motorcycle courier

D. Passenger aircraft

Answer: B - Rail.
Trains can carry large heavy loads efficiently on suitable routes.

M061. Why is air transport used for some quickly spoiling high-value goods?

PS-09-C4-03

A. It is always the cheapest bulk option

B. It produces no emissions

C. It requires no specialized facilities

D. Its speed can justify the higher cost

Answer: D - Its speed can justify the higher cost.
Fast transport can deliver urgent goods before they spoil.

M062. What does an export earn for the exporting economy?

PS-09-C4-04

A. Freedom from every production cost

B. Automatic elimination of all imports

C. Guaranteed permanent trade surplus

D. Foreign exchange

Answer: D - Foreign exchange.
Export payments provide money from abroad for imports and other needs.

M063. What does CPEC stand for?

PS-09-C4-05

A. China-Pakistan Economic Corridor

B. Coastal Petroleum Export Committee

C. China-Pacific Engineering Colony

D. Central Pakistan Education Council

Answer: A - China-Pakistan Economic Corridor.
CPEC means China-Pakistan Economic Corridor.

M064. Which internal condition most discourages reliable trade planning?

PS-09-C4-06

A. Reliable electricity

B. Stable delivery schedules

C. Clear procedures

D. Frequent unpredictable policy changes

Answer: D - Frequent unpredictable policy changes.
Frequent policy changes make business planning uncertain.

M065. Which collection best illustrates cultural elements?

PS-10-D1-01

A. Only rainfall totals

B. Only mineral reserves

C. Only road distances

D. Language, beliefs, arts, and customs

Answer: D - Language, beliefs, arts, and customs.
Culture includes shared language, beliefs, arts, and customs.

M066. A lingua franca is best described as:

PS-10-D1-02

A. A geological fault

B. A local weather station

C. A common language used between different language groups

D. A compulsory rejection of regional literature

Answer: C - A common language used between different language groups.
A lingua franca is a common language used between different language groups.

M067. Which approach best supports unity between language groups?

PS-10-D1-02

A. Prevent translation

B. Suppress every regional language

C. Treat language difference as disloyalty

D. Promote common communication while respecting regional languages

Answer: D - Promote common communication while respecting regional languages.
Common communication and respect for local languages can support unity together.

M068. Heer Ranjha is linked most closely with which regional culture?

PS-10-D1-03

A. Western depression forecasts

B. Aquaculture manuals

C. Makran sea navigation

D. Punjabi folklore

Answer: D - Punjabi folklore.
Heer Ranjha is a famous Punjabi folk story.

M069. Pakistan Television began in which year?

PS-10-D1-03

A. 1940

B. 1906

C. 1930

D. 1964

Answer: D - 1964.
PTV began in 1964 and gave drama a wider audience.

M070. Which is a possible cultural risk of globalization?

PS-10-D1-04

A. Dominant global styles overshadowing local traditions

B. Elimination of all cultural contact

C. Automatic protection of every language

D. Permanent equality of digital access

Answer: A - Dominant global styles overshadowing local traditions.
Powerful global styles can push local traditions into the background.

M071. Feudal social power is directly associated with:

PS-10-D1-05

A. Universal equality of land access

B. Concentrated landownership and dependent rural relationships

C. Absence of agricultural property

D. A type of sports competition

Answer: B - Concentrated landownership and dependent rural relationships.
Large landholdings can give landlords power over poor rural families.

M072. Social stratification means:

PS-10-D1-06

A. Seasonal movement of herds

B. Growing winter wheat

C. Measuring atmospheric pressure

D. Ranking people and groups in social layers

Answer: D - Ranking people and groups in social layers.
Social stratification means ranking people in higher and lower groups.

M073. Which Sufi order is especially associated with silent Dhikr?

PS-10-D1-07

A. Suhrawardi only

B. Naqshbandi

C. Chishti only

D. Qadiri only

Answer: B - Naqshbandi.
The Naqshbandi order is especially known for silent Dhikr.

M074. Baha-ud-Din Zakariya of Multan is associated with which order?

PS-10-D1-07

A. Chishti only

B. Suhrawardi

C. Qadiri only

D. Naqshbandi only

Answer: B - Suhrawardi.
The textbook links Baha-ud-Din Zakariya with the Suhrawardi order.

M075. What does Tazkiyah refer to in Sufi teaching?

PS-10-D1-07

A. Port cargo storage

B. Purification of the self

C. Seasonal harvesting

D. A wrestling arena

Answer: B - Purification of the self.
Tazkiyah means moral and spiritual self-purification.

M076. Which activity best combines leisure with protecting culture?

PS-10-D2-01

A. Community storytelling and traditional crafts

B. Blocking all recreational access

C. Destroying local games

D. Preventing cultural participation

Answer: A - Community storytelling and traditional crafts.
Stories and crafts pass culture and skills to younger people.

M077. Malakhra is a traditional wrestling form particularly associated with:

PS-10-D2-02

A. Sindh

B. Airports

C. The Mediterranean Sea

D. The highest glacier zone only

Answer: A - Sindh.
Malakhra is a traditional Sindhi wrestling sport.

M078. Which sport is identified in the textbook as Pakistan's national game?

PS-10-D2-02

A. Squash

B. Hockey

C. Tennis

D. Cricket

Answer: B - Hockey.
The textbook calls hockey the national game, while cricket has the greater popular following.

M079. Pakistan won its first men's Hockey World Cup in which year?

PS-10-D2-02

A. 1992

B. 1971

C. 2017

D. 2009

Answer: B - 1971.
Pakistan won the first men's Hockey World Cup in 1971.

M080. Pakistan won the ODI Cricket World Cup in which year?

PS-10-D2-02

A. 1992

B. 1984

C. 1964

D. 1971

Answer: A - 1992.
Pakistan won the ODI Cricket World Cup in 1992.

M081. Which pair is best known for Pakistan's squash achievements?

PS-10-D2-02

A. Jahangir Khan and Jansher Khan

B. Wasim Akram and Waqar Younis

C. Sohail Abbas and Shahbaz Ahmed

D. Aisam-ul-Haq and Aqeel Khan

Answer: A - Jahangir Khan and Jansher Khan.
Jahangir Khan and Jansher Khan are famous squash players.

M082. Which action best supports sustainable sports development?

PS-10-D2-02

A. Selection based only on personal connections

B. Grassroots coaching and fair access to maintained facilities

C. Closing school playing fields

D. Funding only one publicity event

Answer: B - Grassroots coaching and fair access to maintained facilities.
Regular coaching and fair access to good facilities build sport over time.

M083. Which document was used as Pakistan's adapted temporary constitution after 1947?

PS-10-E1-01

A. Cabinet Mission report alone

B. Government of India Act 1935

C. SAARC Charter

D. Lahore Resolution

Answer: B - Government of India Act 1935.
The adapted Act allowed government to continue while a new constitution was prepared.

M084. What was the main constitution-making task after independence?

PS-10-E1-01

A. Choosing a sports team

B. Preparing basic rules for the new state's government and rights

C. Replacing every road map

D. Ending all provincial administration

Answer: B - Preparing basic rules for the new state's government and rights.
A constitution sets powers, rights, and the main rules of government.

M085. When was the first Constituent Assembly dissolved?

PS-10-E1-01

A. 24 October 1954

B. 8 December 1985

C. 14 August 1973

D. 23 March 1956

Answer: A - 24 October 1954.
Its dissolution delayed the completion of Pakistan's first constitution.

M086. Who presented the Objectives Resolution?

PS-10-E1-02

A. Ayub Khan

B. Yahya Khan

C. Liaquat Ali Khan

D. Lord Mountbatten

Answer: C - Liaquat Ali Khan.
Liaquat Ali Khan introduced the Resolution in the Constituent Assembly.

M087. When was the Objectives Resolution adopted?

PS-10-E1-02

A. 23 March 1940

B. 25 March 1969

C. 7 October 1958

D. 12 March 1949

Answer: D - 12 March 1949.
It gave guiding principles for Pakistan's future constitution.

M088. The Objectives Resolution treated public authority as a:

PS-10-E1-02

A. Private family property

B. Sacred trust

C. Foreign commercial contract

D. Right without limits

Answer: B - Sacred trust.
Authority was to be exercised within prescribed limits, through the people.

M089. Which article gave the Objectives Resolution's principles a substantive constitutional place in 1985?

PS-10-E1-02

A. Article 2A

B. Article 50 only

C. Article 40 only

D. Article 95 only

Answer: A - Article 2A.
Article 2A incorporated these principles into the Constitution.

M090. When did Pakistan's first constitution come into force?

PS-10-E1-03

A. 1 October 1906

B. 8 June 1962

C. 23 March 1956

D. 30 September 1947

Answer: C - 23 March 1956.
The first constitution established the Islamic Republic in 1956.

M091. Which system did the Constitution of 1956 establish?

PS-10-E1-03

A. Federal parliamentary government

B. Presidential government without a Prime Minister

C. A UN trusteeship

D. Absolute monarchy

Answer: A - Federal parliamentary government.
The Prime Minister headed government within a federal parliamentary design.

M092. When did the Constitution of 1962 come into force?

PS-10-E1-03

A. 14 August 1973

B. 23 March 1956

C. 8 June 1962

D. 12 March 1949

Answer: C - 8 June 1962.
Its enforcement date differs from its promulgation on 1 March 1962.

M093. Which group formed the electoral college under the 1962 system?

PS-10-E1-03

A. Only university teachers

B. Only judges

C. Basic Democrats

D. All foreign ambassadors

Answer: C - Basic Democrats.
The system used indirect elections through Basic Democrats.

M094. When did the Constitution of 1973 come into force?

PS-10-E1-03

A. 23 March 1940

B. 14 August 1973

C. 7 October 1958

D. 25 March 1969

Answer: B - 14 August 1973.
It established the federal parliamentary framework discussed in the textbook.

M095. Which feature distinguishes the 1973 legislature from those of 1956 and 1962?

PS-10-E1-03

A. No elected chamber

B. A single National Assembly without a Senate

C. Only a President making every law

D. A bicameral Parliament with a Senate

Answer: D - A bicameral Parliament with a Senate.
The Senate added a second house to the federal legislature.

M096. Which statement correctly compares 1956 and 1962?

PS-10-E1-04

A. 1956 was parliamentary; 1962 was presidential

B. 1956 had Basic Democrats as its national electoral college

C. Both had no legislatures

D. Both abolished the presidency

Answer: A - 1956 was parliamentary; 1962 was presidential.
The executive arrangements were a main difference between the two constitutions.

M097. Who directly abrogated the 1956 Constitution on 7 October 1958?

PS-10-E1-05

A. Iskander Mirza

B. Chaudhry Muhammad Ali

C. Zulfikar Ali Bhutto

D. Liaquat Ali Khan

Answer: A - Iskander Mirza.
Mirza abolished it and imposed martial law before Ayub took full power later that month.

M098. When was the Constitution of 1962 abrogated?

PS-10-E1-05

A. 25 March 1969

B. 30 December 1906

C. 23 March 1956

D. 14 August 1973

Answer: A - 25 March 1969.
Yahya Khan imposed martial law and abrogated it after Ayub transferred power.

M099. What does the rule of law mean?

PS-10-E2-01

A. Only ordinary citizens face legal rules

B. Everyone, including officials, is governed by law

C. Wealth decides who must obey laws

D. Officials may ignore every law

Answer: B - Everyone, including officials, is governed by law.
The law should apply fairly to public officials as well as citizens.

M100. Which step best improves access to justice?

PS-10-E2-01

A. Removing evidence requirements

B. Reducing delays and providing suitable legal help

C. Denying poor people a hearing

D. Deciding cases by personal influence

Answer: B - Reducing delays and providing suitable legal help.
Fair procedures and practical access help make justice real.

M101. What makes an activity voluntary community service?

PS-10-E2-02

A. It is freely chosen mainly to benefit others without personal profit

B. It must exclude local people

C. Its only aim is a private wage

D. It must be forced labour

Answer: A - It is freely chosen mainly to benefit others without personal profit.
Volunteering is freely chosen work for community benefit.

M102. Which personal skill can community service develop?

PS-10-E2-02

A. Avoidance of responsibility

B. Teamwork

C. Dependence on rumours

D. Refusal to listen

Answer: B - Teamwork.
Working with others develops cooperation and communication.

M103. Students wish to start a local clean-up. What should they do first?

PS-10-E2-06

A. Consult responsible adults, identify the need, and plan safely

B. Collect money without records

C. Ignore the people using the area

D. Enter dangerous sites without permission

Answer: A - Consult responsible adults, identify the need, and plan safely.
Responsible service begins with a real need, approval, and safe planning.

M104. How should students check whether a project helped?

PS-10-E2-06

A. Ask users for feedback and compare results with the goal

B. Count only publicity photographs

C. Stop keeping records

D. Hide donated items

Answer: A - Ask users for feedback and compare results with the goal.
Feedback and clear goals show whether the service was useful.

M105. Does moving into Pakistan automatically grant citizenship?

PS-10-E2-03

A. No; the relevant legal route and conditions must be met

B. Yes, by buying any bus ticket

C. Yes, on the first day of any visit

D. Yes, without any legal requirements

Answer: A - No; the relevant legal route and conditions must be met.
Immigration and citizenship are different legal ideas.

M106. Citizenship through a Pakistani parent is generally called citizenship by:

PS-10-E2-03

A. Employment advertisement

B. Descent

C. Tourism

D. Export

Answer: B - Descent.
Descent links citizenship to a parent, subject to the applicable rules.

M107. What is naturalization?

PS-10-E2-03

A. A type of short tourist visit

B. A legal process allowing an eligible foreigner to acquire citizenship

C. An automatic change after every foreign marriage

D. A method of selecting sports players

Answer: B - A legal process allowing an eligible foreigner to acquire citizenship.
Residence and other requirements must be met under the law.

M108. What is renunciation of citizenship?

PS-10-E2-03

A. Learning another language

B. Simply going abroad for a holiday

C. Receiving any foreign letter

D. Formally giving it up through the legal process

Answer: D - Formally giving it up through the legal process.
Renunciation requires a prescribed declaration and official registration.

M109. How can a free and fair press support prosperity?

PS-10-E2-04

A. Guarantee every report is correct without checking

B. Hide all public decisions

C. Expose wrongdoing and inform public debate

D. Replace courts with rumours

Answer: C - Expose wrongdoing and inform public debate.
Reliable information and scrutiny strengthen accountability and trust.

M110. Which practice best supports equality?

PS-10-E2-04

A. Ignoring barriers faced by poor people

B. Fair access to education and work without discrimination

C. Deciding cases by wealth

D. Giving every opportunity only to influential families

Answer: B - Fair access to education and work without discrimination.
Equal opportunities allow more people to develop their abilities.

M111. A responsible digital citizen should first do what with an unverified claim?

PS-10-E2-05

A. Assume many likes prove it

B. Share it because it is exciting

C. Remove the date and forward it

D. Check reliable evidence before sharing

Answer: D - Check reliable evidence before sharing.
Popularity is not proof, so verification is necessary.

M112. Which example shows an economic influence on media?

PS-10-E2-05

A. A court interpreting a treaty

B. A headline designed mainly to earn advertising clicks

C. A mountain causing relief rainfall

D. A river entering the sea

Answer: B - A headline designed mainly to earn advertising clicks.
The wish to earn money can shape attention and presentation.

M113. How can music and camera angles affect a message?

PS-10-E2-05

A. They prove the facts are true

B. They replace the need for evidence

C. They can shape emotions and the audience's impression

D. They remove every bias

Answer: C - They can shape emotions and the audience's impression.
Presentation can influence feelings even when the underlying claim is weak.

M114. What is foreign policy?

PS-10-F1-01

A. A country's plan for dealing with other states

B. A map without political choices

C. Only a sports schedule

D. Only the rules of a school

Answer: A - A country's plan for dealing with other states.
Foreign policy guides external relationships and national interests.

M115. Which is a guiding principle of Pakistan's foreign policy?

PS-10-F1-01

A. Compulsory dependence on one state

B. Ignoring every treaty

C. Permanent aggression against all neighbours

D. Peaceful settlement of disputes

Answer: D - Peaceful settlement of disputes.
Dialogue and lawful peaceful methods support stability.

M116. Which measure directly strengthens economic diplomacy?

PS-10-F1-01

A. Replacing skills with slogans

B. Stopping every export

C. Ignoring commercial costs

D. Developing trade, investment, and useful technology links

Answer: D - Developing trade, investment, and useful technology links.
Economic diplomacy should create practical development benefits.

M117. Why does domestic economic strength matter to foreign policy?

PS-10-F1-01

A. It improves the country's ability to act and negotiate

B. It guarantees every foreign demand will be accepted

C. It removes geography

D. It makes all cooperation unnecessary

Answer: A - It improves the country's ability to act and negotiate.
National capacity affects choices and bargaining power.

M118. Which feature gives Pakistan maritime strategic importance?

PS-10-F1-02

A. Arabian Sea access

B. A direct Atlantic coast

C. No coastline

D. A direct Mediterranean coast

Answer: A - Arabian Sea access.
Its ports connect inland routes with the Indian Ocean.

M119. Why does proximity to Afghanistan matter for Pakistan?

PS-10-F1-02

A. It removes all border-management needs

B. Transit, security, and humanitarian issues connect the countries

C. It makes sea access unnecessary

D. It gives Pakistan a direct border with every Central Asian state

Answer: B - Transit, security, and humanitarian issues connect the countries.
Neighbourhood creates both useful connections and shared challenges.

M120. What is needed for CPEC-related cooperation to bring lasting benefits?

PS-10-F1-03

A. Assuming location guarantees profit

B. Ignoring local skills

C. Avoiding all project review

D. Reliable projects, sound costs, security, and real demand

Answer: D - Reliable projects, sound costs, security, and real demand.
Infrastructure produces value when it is useful and well managed.

M121. Which approach best supports more stable Pakistan-India relations?

PS-10-F1-03

A. Removing all communication during every disagreement

B. Sustained dialogue and reliable peaceful agreements

C. Ignoring civilian safety

D. Treating rumours as official policy

Answer: B - Sustained dialogue and reliable peaceful agreements.
Communication and trust-building help manage disputes and reduce escalation.

M122. What can strengthen lawful Pakistan-Iran border commerce?

PS-10-F1-03

A. Uncontrolled smuggling

B. Secure procedures and practical legal cooperation

C. Assuming wider restrictions never matter

D. Ignoring traders' safety

Answer: B - Secure procedures and practical legal cooperation.
Trade needs safety, clear rules, and attention to legal conditions.

M123. When was the UN established?

PS-10-F2-01

A. 8 December 1985

B. 24 October 1945

C. 25 September 1969

D. 30 September 1947

Answer: B - 24 October 1945.
The UN was established after the Second World War.

M124. When did Pakistan join the UN?

PS-10-F2-01

A. 30 September 1947

B. 24 October 1945

C. 23 March 1956

D. 14 August 1973

Answer: A - 30 September 1947.
Pakistan joined after independence and was not a founding UN member.

M125. How many principal organs does the UN have?

PS-10-F2-01

A. Eight

B. Four

C. Ten

D. Six

Answer: D - Six.
They are the General Assembly, Security Council, ECOSOC, ICJ, Secretariat, and Trusteeship Council.

M126. Which organ has primary responsibility for international peace and security?

PS-10-F2-01

A. SAARC Secretariat

B. OIC summit

C. Trusteeship Council alone

D. Security Council

Answer: D - Security Council.
This is the Security Council's central Charter responsibility.

M127. Which UN organ gives every member state representation?

PS-10-F2-01

A. International Court of Justice as a legislature

B. Security Council as a universal chamber

C. General Assembly

D. Secretariat staff committee

Answer: C - General Assembly.
All UN member states participate in the General Assembly.

M128. Which UN body deals with legal disputes between states within its jurisdiction?

PS-10-F2-01

A. World Food Programme

B. International Court of Justice

C. General Assembly's press office

D. SAARC Cultural Centre

Answer: B - International Court of Justice.
The ICJ is the UN's principal judicial organ.

M129. What happened to regular Trusteeship Council operations in 1994?

PS-10-F2-01

A. It replaced the Security Council

B. The Council became a world parliament

C. They were suspended after the last trust territory became independent

D. It became a Pakistani ministry

Answer: C - They were suspended after the last trust territory became independent.
Suspension of operations did not abolish it as a principal organ.

M130. Pakistan's UN peacekeeping service began in which place in 1960?

PS-10-F2-01

A. Canada

B. Japan

C. Congo

D. Switzerland

Answer: C - Congo.
Pakistan first deployed to the UN operation in Congo in 1960.

M131. When was SAARC established?

PS-10-F2-02

A. 24 October 1945

B. 23 March 1940

C. 8 December 1985

D. 12 March 1949

Answer: C - 8 December 1985.
The SAARC Charter was signed in Dhaka in 1985.

M132. Which matters are excluded from formal SAARC deliberations by its Charter?

PS-10-F2-02

A. Bilateral and contentious issues

B. All health programmes

C. All cultural exchange

D. All educational cooperation

Answer: A - Bilateral and contentious issues.
SAARC is not designed as a forum for settling contentious bilateral disputes.

M133. Which summit did Pakistan host in Lahore in 1974?

PS-10-F2-02

A. First UN General Assembly

B. Second OIC summit

C. First SAARC summit

D. First Security Council meeting

Answer: B - Second OIC summit.
The summit was an important event in Pakistan's OIC participation.

M134. What was a main aim of the OIC foreign ministers' extraordinary Islamabad meeting in December 2021?

PS-10-F2-02

A. Ending every country's citizenship law

B. Replacing the UN Charter

C. Mobilizing humanitarian help for Afghanistan

D. Creating Pakistan's first constitution

Answer: C - Mobilizing humanitarian help for Afghanistan.
The meeting sought practical support for Afghanistan's humanitarian situation.

M135. Which obstacle has complicated the implementation of earlier UN proposals on Kashmir?

PS-10-F2-03

A. Disagreement over demilitarization and other conditions

B. Universal agreement on every step

C. The absence of any past UN attention

D. A completed and accepted final settlement

Answer: A - Disagreement over demilitarization and other conditions.
The necessary arrangements were not agreed and carried out.

M136. Why can a permanent-member veto limit Security Council action on Palestine?

PS-10-F2-03

A. It automatically ends all UN membership

B. It forces every country to vote the same way

C. It can block a substantive draft decision

D. It replaces the General Assembly with SAARC

Answer: C - It can block a substantive draft decision.
Vetoes and major-power disagreement can prevent a united Council response.

M137. Why does long conflict make UN work in Afghanistan harder?

PS-10-F2-03

A. It damages institutions, livelihoods, trust, and safe access

B. It automatically solves humanitarian needs

C. It guarantees equal services everywhere

D. It removes all need for funding

Answer: A - It damages institutions, livelihoods, trust, and safe access.
Peace and recovery need more than emergency assistance alone.

Final priority revision

Revise these questions first when time is short. They cover important ideas and several SLOs, but they are not predictions of the exam paper.

Core long answers to learn first

L001 - Explain how Islamic values and Muslim deprivation together formed the ideological basis of Pakistan. (p. 7)

L006 - Explain how political developments between 1927 and 1930 strengthened Muslim demands for safeguards. (p. 17)

L009 - Explain the final stages leading to the establishment of Pakistan during 1946-47. (p. 18)

L011 - Describe Pakistan's major landforms and explain their economic importance. (p. 25)

L015 - Explain Pakistan's main sources of rainfall and their seasonal importance. (p. 30)

L017 - Evaluate Pakistan's irrigation system and suggest sustainable improvements. (p. 33)

L019 - Analyze rural-urban and seasonal migration in Pakistan, including causes, consequences, and responses. (p. 37)

L023 - Evaluate agriculture's economic role and propose sustainable ways to improve output. (p. 43)

L025 - Compare Pakistan's main modes of transport and explain their regional distribution. (p. 47)

L028 - Analyze how cultural elements and regional traditions can strengthen national integration. (p. 53)

L032 - Explain the major Sufi orders, their shared teachings, and their contribution to unity in Pakistan. (p. 55)

L038 - Discuss the significance of sports and the different categories played in Pakistan. (p. 61)

L042 - Explain the main principles and constitutional importance of the Objectives Resolution. (p. 68)

L043 - Compare the main features and Islamic provisions of the Constitutions of 1956 and 1962. (p. 68)

L044 - Explain the main parliamentary, federal, and Islamic features of the Constitution of 1973. (p. 69)

L045 - Compare the reasons for the failure of the Constitutions of 1956 and 1962. (p. 70)

L046 - Explain the importance of the rule of law and suggest ways to improve law and order in Pakistan. (p. 75)

L049 - Explain how citizenship may be acquired or lost, including the effects of migration and marriage. (p. 77)

S021 - Why was the Day of Deliverance observed on 22 December 1939? (p. 12)

S022 - State five important aspects of the Lahore Resolution of 1940. (p. 12)

S025 - Explain the importance of the elections of 1945-46 for the Pakistan Movement. (p. 13)

S026 - State five main features of the Cabinet Mission Plan of 1946. (p. 13)

S027 - Explain five provisions or consequences of the 3 June Plan of 1947. (p. 14)

Grade 9 - Unit 3: Land of Pakistan

S034 - Describe Pakistan's geographical location in five points. (p. 20)

S035 - Explain five economic advantages of Pakistan's location. (p. 20)

Grade 9 - Unit 4: Natural Topography and Vegetation

S039 - Explain the importance of the northern mountains for Pakistan. (p. 22)

S040 - Compare life in mountainous areas with life in the Indus Plain. (p. 22)

S043 - Explain how vegetation differs across Pakistan's landforms. (p. 23)

Grade 9 - Unit 5: Climate and Environmental Hazards

S050 - Explain how summer monsoon rainfall develops and affects Pakistan. (p. 27)

S051 - Why are western depressions important for Pakistan? (p. 28)

S053 - Explain five causes of river flooding in Pakistan. (p. 28)

S054 - Explain five effects of drought on Pakistan's economy. (p. 28)

S055 - Suggest five measures to reduce damage from floods, storms, and droughts. (p. 29)

Grade 9 - Unit 6: Water Resources

S057 - Explain seasonal changes in the availability and quality of water. (p. 31)

S058 - State five advantages of Pakistan's irrigation system. (p. 31)

S059 - Explain five problems associated with extensive irrigation. (p. 32)

S060 - Suggest five sustainable ways to reduce water shortage and pollution. (p. 32)

S061 - Distinguish the functions of dams, barrages, canals, and reservoirs. (p. 32)

Grade 9 - Unit 7: Population - Included Migration and Youth Topics

S063 - Explain five causes of rural-to-urban migration. (p. 35)

S064 - Explain five consequences of rapid rural-to-urban migration. (p. 35)

S065 - Explain seasonal migration with suitable examples. (p. 35)

S067 - Identify five problems faced by young and dependent people and suggest responses. (p. 36)

Grade 9 - Unit 8: Agriculture, Livestock and Fisheries

S069 - Explain agriculture as a system of inputs, processes, and outputs. (p. 38)

S071 - Distinguish Rabi and Kharif crops and give examples. (p. 38)

S073 - Describe the growing requirements and main producing areas of wheat. (p. 39)

S074 - Describe the requirements, producing areas, and importance of rice. (p. 39)

S076 - Explain five contributions of agriculture to Pakistan's economy. (p. 40)

S077 - Suggest five sustainable agricultural practices. (p. 40)

S078 - Identify five agricultural challenges and match each with a solution. (p. 40)

S081 - Describe inland fisheries, marine fisheries, and aquaculture in five points. (p. 41)

S082 - Suggest five measures for sustainable development of fisheries. (p. 41)

Grade 9 - Unit 9: Transport and Trade

S086 - Compare road and rail transport in five points. (p. 45)

S088 - Explain five benefits of trade for Pakistan's economy. (p. 46)

S089 - Explain the commercial importance of CPEC, Gwadar, and Karachi Port. (p. 46)

S091 - Identify five internal trade challenges and give a solution for each. (p. 46)

Grade 10 - Unit 1: Society and Culture of Pakistan

S094 - Explain five ways languages and dialects affect national integration. (p. 49)

S096 - Explain the origin and development of Pakistani folklore. (p. 50)

S098 - Explain five stages or influences in the development of drama in Pakistan. (p. 50)

S099 - Explain five positive and negative effects of globalization on Pakistani culture. (p. 51)

S100 - Explain the changing position of women in Pakistani society. (p. 51)

S103 - Explain social stratification and its effects on inequality. (p. 52)

S105 - State five common principles of Pakistan's Sufi mystical traditions. (p. 52)

S107 - Explain how Sufi traditions encourage unity in Pakistani society. (p. 53)

Grade 10 - Unit 2: Recreation - Sports

S108 - Explain five benefits of leisure activities for individuals and communities. (p. 59)

S111 - Explain five ways sports benefit young people and national life. (p. 60)

S112 - Describe five traditional games or sports of Pakistan. (p. 60)

S113 - Explain the importance of hockey, cricket, and squash in Pakistan. (p. 60)

Grade 10 - Unit 3: Constitutional Development

S117 - Why was constitution-making delayed in Pakistan? (p. 63)

S118 - Explain five main features of the Objectives Resolution. (p. 64)

S120 - State five main features of the Constitution of 1956. (p. 64)

S122 - State five main features of the Constitution of 1962. (p. 65)

S124 - State five main features of the Constitution of 1973. (p. 65)

S126 - Compare the Constitutions of 1956 and 1962 in five points. (p. 66)

S127 - Why did the Constitution of 1956 fail? (p. 66)

S128 - Why did the Constitution of 1962 fail? (p. 66)

Grade 10 - Unit 4: Citizenship and Sustainable Society

S129 - Explain five features of the rule of law. (p. 71)

S131 - Suggest five ways to improve law and order in Pakistan. (p. 71)

S132 - Explain the meaning and importance of voluntary community service. (p. 72)

S134 - Plan a simple school-based community service project in five steps. (p. 72)

S136 - Explain five ways in which Pakistani citizenship may be acquired under the law. (p. 73)

S137 - Explain how citizenship can be lost and why legal conditions matter. (p. 73)

S139 - Explain five advantages of a free and fair press. (p. 74)

S140 - Why are justice and equality important for a prosperous society? (p. 74)

S141 - State five duties of a responsible digital citizen. (p. 74)

S142 - Explain five factors that can shape a media message. (p. 74)

S143 - How can students recognize misleading or one-sided online content? (p. 75)

Grade 10 - Unit 5: Foreign Policy

S144 - What is foreign policy, and why does Pakistan need it? (p. 79)

S145 - Explain five guiding principles of Pakistan's foreign policy. (p. 79)

S146 - State five main objectives of Pakistan's foreign policy. (p. 79)

S149 - Explain five reasons for Pakistan's geopolitical importance. (p. 80)

S150 - How do Pakistan's neighbours create both opportunities and challenges? (p. 81)

S151 - Explain the main features and benefits of Pakistan-China relations. (p. 81)

S152 - Explain the main issues and prospects in Pakistan-India relations. (p. 81)

S153 - Explain the main issues and prospects in Pakistan-Afghanistan relations. (p. 82)

S154 - Explain the main issues and prospects in Pakistan-Iran relations. (p. 82)

Grade 10 - Unit 6: Pakistan and International Organizations

S155 - Explain five main purposes of the United Nations. (p. 86)

S156 - Name five main UN organs and explain one function of each. (p. 86)

S158 - Explain five ways Pakistan participates in the United Nations. (p. 87)

S159 - Describe Pakistan's contribution to UN peacekeeping and disaster-related work. (p. 87)

M087 When was the Objectives Resolution adopted? **12 March 1949**

M090 When did Pakistan's first constitution come into force? **23 March 1956**

M092 When did the Constitution of 1962 come into force? **8 June 1962**

M094 When did the Constitution of 1973 come into force? **14 August 1973**

M096 Which statement correctly compares 1956 and 1962? **1956 was parliamentary; 1962 was presidential**

M097 Who directly abrogated the 1956 Constitution on 7 October 1958? **Iskander Mirza**

M098 When was the Constitution of 1962 abrogated? **25 March 1969**

M099 What does the rule of law mean? **Everyone, including officials, is governed by law**

M101 What makes an activity voluntary community service? **It is freely chosen mainly to benefit others without personal profit**

M103 Students wish to start a local clean-up. What should they do first? **Consult responsible adults, identify the need, and plan safely**

M105 Does moving into Pakistan automatically grant citizenship? **No; the relevant legal route and conditions must be met**

M107 What is naturalization? **A legal process allowing an eligible foreigner to acquire citizenship**

M108 What is renunciation of citizenship? **Formally giving it up through the legal process**

M111 A responsible digital citizen should first do what with an unverified claim? **Check reliable evidence before sharing**

M114 What is foreign policy? **A country's plan for dealing with other states**

M115 Which is a guiding principle of Pakistan's foreign policy? **Peaceful settlement of disputes**

M118 Which feature gives Pakistan maritime strategic importance? **Arabian Sea access**

M123 When was the UN established? **24 October 1945**

M124 When did Pakistan join the UN? **30 September 1947**

M125 How many principal organs does the UN have? **Six**

M126 Which organ has primary responsibility for international peace and security? **Security Council**

M129 What happened to regular Trusteeship Council operations in 1994? **They were suspended after the last trust territory became independent**

M131 When was SAARC established? **8 December 1985**

M132 Which matters are excluded from formal SAARC deliberations by its Charter? **Bilateral and contentious issues**

M133 Which summit did Pakistan host in Lahore in 1974? **Second OIC summit**

M135 Which obstacle has complicated the implementation of earlier UN proposals on Kashmir? **Disagreement over demilitarization and other conditions**

M136 Why can a permanent-member veto limit Security Council action on Palestine? **It can block a substantive draft decision**

M137 Why does long conflict make UN work in Afghanistan harder? **It damages institutions, livelihoods, trust, and safe access**

Final memory check

Day of Deliverance: 22 December 1939. Lahore Resolution: presented on 23 March 1940.

Lucknow Pact: 1916. Fourteen Points: 1929. Allahabad Address: 1930.

Tarbela is on the Indus; Mangla is on the Jhelum. A barrage mainly controls and diverts flow.

Summer monsoon winds move towards relatively low pressure over hot land. Relief rain falls mainly on windward mountain slopes.

Wheat is a Rabi crop; rice and cotton are common Kharif crops. A food crop can also be sold as a cash crop.

Hockey is the national game in the textbook. Cricket has the greater popular following.

Transhumance means seasonal pasture movement. Aquaculture means managed fish farming. Social stratification means higher and lower social groups.

Last revision method

1. Recall the five headings of each important answer.
2. Explain each heading in one or two clear sentences.
3. Check dates, names, examples, and the question's command.
4. Practise MCQs and textbook maps.
5. Review weak topics using the SLO checklist.

Sources and accuracy notes

This full-syllabus edition retains the earlier 114 short answers, 39 long answers, and 82 MCQs. It adds 52 short answers, 24 long answers, and 55 MCQs in the same simple style. All earlier question IDs are retained; new IDs continue from S115, L040, and M083.

Textbook and SLO sources

1. Your supplied file: FBISE_Pak_Studies_SCC_II_Combined_Summative_and_Formative_Topics.pdf, pages 1-9.
2. Combined FBISE Pakistan Studies Grade X assessment framework, Scheme of Studies 2024, 100 marks.
3. NBF Pakistan Studies Grade 9, National Curriculum 2022-23, consulted 158-page scan.
4. NBF Pakistan Studies Grade 10, consulted 130-page scan; Units 1-6.

Combined FBISE framework

Consulted Grade 9 textbook copy

Consulted Grade 10 textbook copy

Page references beside chapters use the PDF pages of the textbook scans. SLO labels show which learning outcome each question practices. Application answers explain the textbook ideas through simple examples and suggestions.

Facts kept clear

The correct Day of Deliverance date is 22 December 1939. The monsoon explanation uses low pressure over hot land. Clear printing slips, changing production percentages, current rankings, and doubtful squash title totals are not used as facts to memorize.

Official checks for the added chapters

National Assembly: constitutional history

Pakistan Citizenship Act 1951

DGI&P: citizenship routes

DGI&P: citizenship and marriage FAQs

DGI&P: renunciation and dual nationality

Ministry of Foreign Affairs: foreign-policy principles

UN: principal organs

UN: membership dates

UN: Pakistan peacekeeping and humanitarian service

SAARC: history and membership

SAARC Cultural Centre: Charter

OIC: history

Pakistan and OIC

Additional accuracy notes

Pakistan joined the UN in 1947 and was not a founding member. SAARC excludes contentious bilateral matters from formal deliberations. Some Security Council decisions can be binding, but implementation and political support remain important; it is incorrect to say that every UN resolution is unenforceable.

The citizenship answers summarize legal routes, not individual eligibility decisions. Birth and descent have conditions; marriage and ordinary migration do not automatically grant or end citizenship. Pakistan permits dual nationality under specified arrangements and exceptions. Constitutional comparisons identify original textbook systems and relevant amendments rather than claiming that the 1973 text has never changed.

For good exam answers

Write relevant explanations, not headings alone. Keep important dates and examples. Answer both sides of a comparison and include benefits and problems when asked to evaluate. This short wording is meant to help understanding and recall; the actual question and marking scheme decide the marks.
