

Physics 1st Year Guess Paper Punjab Board

Be Ready for Tomorrow's Live Session

- Do Model Paper and December Test
- Exercise MCQs only included in Smart Syllabus
- Short Questions only included in Smart Syllabus
- I will explain how to attempt Numerical in Tomorrow's Live Session (Examples + Exercise)

Long Questions:

Scalar or Dot Product and Its Characteristics

Vector or Cross Product and Its Characteristics

Most Important:

Projectile Motion : Height of the Projectile, Time of Flight & Range of the Projectile

Law of Conservation of Momentum

Artificial Satellite

Artificial Gravity

Absolute Potential Energy

Escape Velocity

Work Energy Theorem

Archimedes Principle and Floatation

Bernoulli's Equation

Venturi Relation and Torricelli's Theorem

**1st Law of Thermodynamics , Isothermal vs
Adiabatic Process**

Carnot Engine and Carnot Theorem

Stationary Waves on a Stretched String

Intensity of Wave

Doppler Effect

**Polarization of Light By the Method of Reflection
(Brewster's Law)**

Malus's Law

Colomb's Law

**Electric Potential and Electric Field as Potential
Gradient**

**Resistivity and Its Dependence on Temperature
(Derivation)**

Kirchoff's 2nd Law

Wheatstone Bridge

Motion of a Charged Particle in a Magnetic Field

Induced EMF and Faraday's Law

Consequences of Special Theory of Relativity (Time Dilation, Mass Variation and Length Contraction)

Pair Production

Annihilation of Matter

Explain all Fundamental Particles

Quarks
